Executive summary (This section should summarise the key points from the disclosure framework. including a brief overview of the CSD, its participants, its legal and regulatory framework, its primary risks, and its key risk management and other relevant practices.)

CDCP, established in 1992, is a for-profit, joint stock company fully owned by the Bratislava Stock Exchange. The main activities of CDCP are: initial recording of securities in book-entry system, providing and maintaining securities accounts at the top tier level, operating a securities settlement system, services related to the settlement service, services related to the notary and central accounts maintenance services including new issue services, allocation and management of ISIN codes, establishing CSD links, providing, maintaining or operating securities accounts in relation to the settlement service, collateral management, other ancillary services and other services such as providing information required by legal regulation, providing information, data and statistics to market/census bureaus or other governmental or inter-governmental entities, keeping of pledge registry, keeping of special registry of collateral transfers, keeping of list of shareholders of registered paper-form shares and services relating to allocation and management of LEI codes. Security of client's assets, whether these are specific financial instruments or protected information, is one of the top priorities of CDCP with implemented measures compliant with ISO/IEC 27001. CDCP has implemented and maintains stable and functional risk management system and established the Risk Manager function. Next to that CDCP maintains the system for provision of business continuity of its services with several specific business continuity and disaster recovery plans in place. CDCP has implemented the internal audit to perform the assessment and consultancy activity that helps to increase the added value and to improve the business activities of CDCP; it also helps CDCP to maintain the efficient control mechanisms by assessment of their effectivity and efficiency. Independent Compliance Function assures that all CDCP activities are compliant with applicable regulation. The procedures for prevention and early detection of potential fraud or unauthorised acquiring of protected client's data, and for prevention of legalisation of proceeds of criminal activity and terrorist financing are implemented. Adequate documents and processes are implemented to manage potential conflict of interests. Governance arrangements are stipulated by the Articles of Association of CDCP and a comprehensive scheme of the governance and management system is maintained. The scheme is published on CDCP's website, link: <a href="https://www.cdcp.sk/content/uploads/sites/3/2017/07/Scheme Governance and Management System.pdf">https://www.cdcp.sk/content/uploads/sites/3/2017/07/Scheme Governance and Management System.pdf</a>. There are two committees established as the advisory bodies of the Board of Directors – the Risk Committee and the User Committee; there is the Audit Committee as an independent expert advisory committee of the Supervisory Board and the Remuneration Committee is an independent expert advisory body of both the Board of Directors and Supervisory Board. As regards requirements on persons nominated to the company's Board of Directors, a set of requirements applicable to members of the Board are specified by the Articles of Association and the legal regulations. Requirements on members of the top management are detailed by the internal guidelines of CDCP. As of 22 November 2021 CDCP had 26 participants in the securities settlement system. All participants and other market infrastructures to which CDCP granted access must comply with a set of participation criteria that mitigate the legal, operational and financial risks CDCP might be exposed to from participants or other market infrastructures. Out of 26 participants there are 12 banks, 7 stock brokers, 4 foreign CSDs, National bank of Slovakia, State Debt and Liquidity Management Agency. The other local CSD (NCDCP) shall terminate its participation in CDCP in the near future due to its waiver of the authorisation to act as a CSD. CDCP has granted access to its settlement system to other market infrastructures – The Bratislava Stock Exchange (SK) and MTS S.p.A Italy - in order to support the settlement of trades executed on the respective trading venue. Securities registered by CDCP are available through the link with four investor CSDs that have established a link with CDCP as an issuer CSD. Operations and organisation of CDCP are ruled by the REGULATION (EU) No 909/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012 ("CSDR") and by local Act No. 566/2001 Coll. on Securities and Investment Services as amended. Details of execution of services are stipulated in the Rules of Operation of CDCP and related Executory Decrees.

Summary of major changes since the last update of the disclosure (This section should summarise the major changes to the CSD's organisation, services, design, rules, markets served and regulatory environment since its last disclosure. The CSD should note the sections in its disclosure where such changes are reflected.)

CDCP is finalising launch of the settlement discipline regime (SDR) on 01 February 2022, i.e. implementation of CSDR regulatory technical standard on settlement discipline. The new wording of the Rules of Operation (RoO) that will include rules for the penalty mechanism is in preparation; the RoO should enter into effect on 01 January 2022.

From the 15 November 2021 CDCP is the only central depository operating on the Slovak capital market as Národný centrálny depozitár cenných papierov, a.s. (NCDCP) have decided to waive its authorisation to act as a CSD. On 12-14 November 2021 all assets of NCDCP clients were successfully migrated to the register of CDCP which started provision of central depository services also to all former clients of NCDCP. The migration was executed in compliance with the legislation and the Agreement on transfer of NCDCP clients' assets concluded between CDCP and NCDCP

In May 2021 CDCP introduced new services for simple joint-stock companies (a hybrid form of company with features of a limited company and of a joint-stock company) – registration of shares of JSC, right to participate in transfer of shares and right to demand transfer of shares.

In September 2020 CDCP started to provide services in compliance with Shareholders Rights Directive II (SRD II) related to identification of shareholders and delivery of information on general meetings to intermediaries in ISO 20022 format. In the first phase of implementation only the messages with general meeting notification (including its changes and cancellations) and confirmations of entitlement to exercise shareholders rights in a general meeting were implemented; remaining messages will be implemented at a later stage

On 5 October 2020 CDCP and all CSDs participating in Target2-Securities introduced a 60-day recycling period for matched failed instructions. After elapse of this period instructions will be automatically cancelled by the system operator.

CDCP also participates in the Eurosystem project of harmonisation of collateral called Eurosystem Collateral Management System (ECMS) planned to be implemented in

CDCP works on digitalisation of its internal processes with view of implementation of digital processes into provision of services to its clients.

General description of the CSD and the markets it serves (This section should provide basic, concise descriptions of the services offered and functions performed by the CSD? It should also provide an overview of the markets the CSD serves and the role it fulfills within those markets. Further, the section should include basic data and performance statistics on its services and operations. A CSD should provide, for example, basic volume and value statistics by product type, average aggregate intraday exposures of the CSD to its participants, and statistics on the CSD's operational reliability.)

CDCP acts as the depository for equities, corporate and government bonds, government treasury bills and other types of book-entry securities. Services provided by the depository are initial recording of securities in book-entry system, providing and maintaining securities accounts at the top tier level, operating a securities settlement system, services related to the settlement service, services related to the notary and central accounts maintenance services including new issue services, allocation and management of ISIN codes, establishing CSD links, providing, maintaining or operating securities accounts in relation to the settlement service, services and other services such as providing information required by legal regulation, providing information, data and statistics to market/census bureaus or other governmental entities, keeping the pledge registry, keeping the special registry of collateral transfers, keeping the list of shareholders of registered paper-form shares and services related to governmental or inter-governmental entities, keeping the pledge registry, keeping the special registry of collateral transfers, keeping the list of shareholders of registered paper-form shares and services related to allocation and management of LEI codes. CDCP does not provide credit facilities. According to the According to t

alue 7,695,573,712.00 euro; Volume: 8,593 transfers

General organisation of the CSD (This section should provide an overview of the organisational and governance structure of the CSD? including a description of the CSD's governance policies, governance structure and management structure.)

CDCP is a joint-stock, private company fully owned (100%) by the Bratislava Stock Exchange from 16 March 2006, and is regulated by the National Bank of Slovakia. Activities of CDCP are governed by the Act No. 566/2001 Coll. on Securities and Investment services and by the EU Regulation No. 909/2014 CSDR. CDCP governance bodies are the Supervisory Board and the Board of Directors and both convene regularly. Members of the Board are elected by the General Meeting – the supreme governing body. Advisory bodies of the Boards are the Risk Committee, Audit Committee, Remuneration Committee and also the User Committee which consists of representatives of CDCP Participants, the issuers, employees of CDCP nominated by CDCP BoD, professionals from the field and representative of the Bratislava Stock Exchange. CDCP has implemented required internal documents covering all important areas as Conflict of interests, Capital Adequacy, Risk Management Policy, Risk Management Strategy and Procedures, Internal Audit Methodology, Business Continuity Plan, Business Recovery Plans and Compliance guidelines. The Annual Report consisting of information on corporate status, statistical data, financial results and further development is published on the CDCP webpage.

Legal and regulatory framework (This section should provide an overview of the CSD's legal and regulatory framework, including the legal and ownership structure of the CSD, the legal basis for each material aspect of the CSD's activities, and the regulatory, supervisory and oversight framework for the CSD.)

PEMI: III 3

CDCP SR was established and performs its activities in the jurisdiction of the Slovak Republic and it is fully subject of the Slovak legal regulations, EU regulation (mainly CSDR Regulation) and international agreements legally binding on the Slovak Republic Basic legal framework:

- Regulation (EU) No 909/2014 of the European Parliament and of the Council on improving securities settlement in the European Union and on central securities depositories (CSDR) and related delegated
- Act No. 566/2001 Coll. on securities and investments services and on changes and supple ents to some acts
- Separate acts containing the regulation of individual types of securities mainly the Act No. 530/1990 Coll. on bonds as amended, the Act No.203/2011 coll. on collective investment as amended
- Act No.513/1991 Coll. Commercial Act as amended
- Act No.7/2005 Coll. on bankruptcy and resolution and on changes and supplements to some acts
- Act No. 40/1964 Coll. Civil Code as amended
- . Act No. 747/2004 Coll. on supervision of financial market and on changes and supplements to some acts as amended

CDCP is 100 % owned by the Bratislava Stock Exchange, i.s.c.

System design and operations (This section should explain the CSD's design and operations. It should include a clear description of the typical lifecycle of the transaction process. The information should highlight how the CSD processes a transaction, including the timeline of events, the validation and checks to which a transaction is subjected, and the responsibilities of the parties involved.)

Processing of transactions is fully automated and includes technical and business validation (incl. Account access rights of the person submitting the instruction), matching, allegement, verification and blocking of transferred securities, optimisation and settlement. Fully automatic is also possible maintenance of the instruction. Due to settlement system design, processing of the instruction is fully automated during whole life cycle of the instruction and no intervention of any party (transferor, transferee, person submitting the instruction, CDCP) is required.

## Legal Basis (PFMI Principle 1)

Summary narrative for PFMI Principle 1. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P1

CDCP performs its activities in the jurisdiction of the Slovak Republic where it is located and it is fully subject to the Slovak legal bindings, the EU regulation (mainly CSDR Regulation and

delegated legislation) and the international agreements legally binding in Slovakia. CDCP does not perform a business in multiple jurisdictions.

CDCP has determined the law of the Slovak Republic as the applicable law in the frame of the rules governing all its operations, including the securities settlement system. According to collision rules, the rights and obligations of the participants in the settlement system (who carry out securities transactions) are governed by the law of the securities settlement system which in this case is law of the Slovak Republic.

All the rules, contracts are been prepared by legal department of CDCP in order to ensure clear and understandable documents in compliance with the relevant law. The court of the Slovak Republic as the competent court for settling disputes which might occur between contractual parties, including foreign entities, is guaranteed by the legal department of CDCP. For ensuring that all rules, contracts and documents are consistent with the relevant law, control mechanism such as internal audit and internal control applies. In addition, all rules and procedures of CDCP are subject to supervision of the National Bank of Slovakia as the national competent authority.

Under what regulation or statute is the CSD established and governed?

PFMI: n/a AGC: 7

Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012;

Commission Delegated Regulation (EU) 2017/392 of 11 November 2016 supplementing Regulation (EU) No 909/2014 of the European Parliament and of the Council with regard to regulatory technical standards on authorisation, supervisory and operational requirements for central securities depositories

Commission Implementing Regulation (EU) 2017/394 of 11 November 2016 laying down implementing technical standards with regard to standard forms, templates and procedures for authorisation, review and evalluation of central securities depositories, for the cooperation between authorities of the home Member State and the host Member State, for the counsultation of authorities involved in the authorisation to provide banking-type ancillary services, for access involving central securities depositories, and with regard to the format of the records to be maintained by central securities depositories in accordance with Regulation (EU) No 909/20174 of the European Parliament and of the Council

Act on Securities and Investment Services No. 566/2001 Coll. as amended.

The Commercial Code (Act No. 513/1991 Coll.)

What are the material aspects of the CSD's activities that require a high degree of legal certainty (for example, rights and interests in financial instruments, settlement finality, netting, interoperability, immobilisation and dematerialisation of securities, arrangements for DvP, PvP or DvD, collateral arrangements (including margin arrangements), and default procedures)?

PFMI: Q.1.1.1

Regulatory framework (rights and obligations): CDCP is located in the Slovak Republic therefore all activities of CDCP are being performed in jurisdiction of the Slovak Republic and in compliance with the legally binding European Union regulations. In particular, the activities are regulated mostly by Act no. 566/2001 Coll. on Securities and Investment services - "Act on Securities" (SR) and by CSDR Regulation (EU).

Asset protection: Is regulated by CSDR Regulation and has been implemented to CDCP 's rules and procedures. The relevant jurisdiction is the jurisdiction of the Slovak Republic.

CDCP observes the requirements regarding the account segregation and protection of the clients in accordance with CSDR

Settlement Finality: The Finality Directive 98/26/EC and CSDR Regulation have been implemented to the national law (Act on Securities). The relevant jurisdiction is the jurisdiction of

Contractual framework: Individual contracts with the clients contain the provision under which the rights and obligations of the parties are governed by the law of the Slovak Republic

and therefore their enforceability is guaranteed within the Slovak jurisdiction. Moreover, the contracts concluded between CDCP and its clients are fully covered by the Rules of Operation, which refer to the law of the Slovak Republic in its provisions with regard to the clients.

Default of participants: The Finality Directive 98/69/EC and CSDR Regulation have been implemented to the national law (Act on Securities). The specific rules which take into account the guidelines regarding T2S from the relevant authorities are set in The Rules of Operation, which are binding on CDCP participants.

Immobilisation of securities CDCP does not perform immobilisation of securities.

Collateral arrangements Regulated by the law of the Slovak Republic (mostly by the Act on Securities).

## G02Q007

What are the relevant jurisdictions for each material aspect of the CSD's activities?

PFMI: Q.1.1.2

CDCP Slovakia performs its activities in the jurisdiction of the Slovak Republic.

How does the CSD ensure that its legal basis (that is, the legal framework and the CSD's rules, procedures and contracts) provides a high degree of legal certainty for each material aspect of the CSD's activities in all relevant jurisdictions? In particular, how does the CSD ensure that its legal basis supports the immobilisation of securities and the transfer of securities by book entry? In addition, if the CSD has a netting arrangement, how does the CSD ensure that its legal basis supports the enforceability of that arrangement? Where settlement finality occurs in the CSD, how does the CSD ensure that its legal basis supports the finality of transactions, including those of an insolvent participant? Does the legal basis for the external settlement mechanisms the CSD uses, such as funds transfer or securities transfer systems, also support this finality?

PFMI: Q.1.1.3

CDCP SR was established and performs its activities in the jurisdiction of the Slovak Republic and it is fully subject to the Slovak legal bindings, EU regulation (mainly CSDR Regulation and delegated regulations) and international agreements legally binding on the Slovak Republic. According to collision rules contained in the Slovak regulation, the rights and obligations of the participants in the settlement system (who carry out securities transactions) are governed by the law of the settlement system of securities transactions. The Rules of Operation in accordance with the local legislation (Act on Securities) and with concluded contracts are binding for all CDCP's participants. The rules and the contracts further clarify the governing law under which the legal relationship and the settlement system operated by CDCP are governed.

How has the CSD demonstrated that its rules, procedures and contracts are clear and understandable?

PFMI: Q.1.2.1

CDCP has determined the Slovak law as the applicable law in the frame of the rules governing its operations, including the settlement system of securities transactions, in particular in the Rules of Operation and in the relevant contracts with clients. The Slovak law as the applicable law is also determined for selected issues according to the Slovak act on securities. All these rules, contracts are prepared by the Legal department of CDCP in order to ensure clear and understandable documents in compliance with the relevant law. CDCP Rules of Operation are publicly available and its changes are always discussed in advance with the CDCP participants. The Compliance Department performs control to ensure that all rules, procedures and contracts comply with the legislation and provides the co-operation when necessary.

How does the CSD ensure that its rules, procedures and contracts are consistent with relevant laws and regulations (for example, through legal opinions or analyses)? Have any inconsistencies been identified and remedied?

PFMI: Q.1.2.2

This is ensured by preparation the documents by the legal department in compliance with the relevant law. There have been no inconsistencies yet. There are also internal control mechanisms (compliance and internal control, internal audit) applied. CDCP is monitoring legislation through the Compliance Department in order to identify new legislation or amendments of legislation, and then implements the relevant changes to its rules, procedures etc. All rules and procedures are subject to supervision by the National Bank of Slovakia

G02Q011

Are the CSD's rules, procedures and contracts reviewed or assessed by external authorities or entities?

PFMI: Q.1.2.2 AGC: n/a

All rules and procedures are subject to supervision by the National Bank of Slovakia.

Do the CSD's rules, procedures and contracts have to be approved before coming into effect? If so, by whom and how?

CDCP's rules and procedures are always approved before coming into effect by the Board of Directors or General Meeting, depending on character of the rules being approved. Contracts are always signed by two members of the Board of Directors. The CDCP Rules of Operation and the Scale of Fees are always discussed in advance with the user committee (whose members are the CDCP participants and issuers).

How does the CSD articulate the legal basis for its activities to relevant authorities, participants and, where relevant, participants' customers?

PFMI: Q.1.3.1

The CDCP publishes the basic information on its website, in particular: a) information that CDCP performs its activities on the basis of the granted authorization and in accordance with the relevant legislation and the scope of CDCP activities; b) CDCP Rules of Operation, which contains the determination of the applicable law which manages the settlement system and other CDCP activities; c) segregation of accounts under the conditions of the CDCP. The CDCP also provides information per request of the authorized person.

How does the CSD achieve a high level of confidence that the rules, procedures and contracts related to its operations are enforceable in all relevant jurisdictions identified in PFMI Principle 1 key consideration 1 (for example, through legal opinions and analyses)?

The rules, procedures and contracts are governed by the Slovak regulation. In the sense of the contractual relationships (including contracts with foreign entities) the court of the Slovak Republic is the competent court for settling disputes. This is also guaranteed by preparation of the documents by the legal department in compliance with the

How does the CSD achieve a high degree of certainty that its rules, procedures and contracts will not be voided, reversed or subject to stays? Are there any circumstances in which a CSD's actions under its rules, procedures or contracts could be voided, reversed or subject to stays? If so, what are those circumstances?

CDCP is not aware of any circumstances under which the rules, procedures or contracts could be terminated with the exception of the standard commercial law that allows termination of a contractual relationship and situation where the CDCP may potentially be subject to certain control action by its national authority (the National bank of Slovakia) in relation to its rules and procedures

G02Q016
Has a court in any relevant jurisdiction ever held any of the CSD's relevant activities or arrangements under its rules and procedures to be unenforceable?

PFMI: Q.1.4.3 AGC: n/a

No

If the CSD is conducting business in multiple jurisdictions, how does the CSD identify and analyse any potential conflict-of-laws issues? When uncertainty exists regarding the enforceability of a CSD's choice of law in relevant jurisdictions, has the CSD obtained an independent legal analysis of potential conflict-of-laws issues? What potential conflict-of-laws issues has the CSD identified and analysed? How has the CSD addressed any potential conflict-of-laws issues?

PFMI: Q.1.5.1

CDCP is not conducting business in multiple jurisdictions, it performs its activities only under the Slovak regulations including legally binding EU regulation.

Governance and ownership (PFMI Principle 2)

### G03Q001

Summary narrative for PFMI Principle 2. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P2 AGC: n/a

CDCP is a private joint-stock company based in territory of the Slovak Republic. Effective from 16 March 2006, Bratislava Stock Exchange has become a 100-percent shareholder of CDCP, as a result of deposit of a state property interest in CDCP business into the Stock Exchange's registered capital.

The governance arrangements of CDCP are specified in the Articles of Association. The Board of Directors includes one non-executive and independent member, and two non-executive and independent members in the Supervisory Board with appropriate skills for their roles. The composition of the Board of Directors, the Supervisory Board and also the Sole Shareholder of CDCP are published on the official Commercial Register website and it is publicly available. The current governance and management system is presented on CDCP website and provides clear and direct lines of responsibility and accountability.

In compliance with CSDR Regulation, CDCP has established the following committees:

Risk Committee - the advisory body of the Board of Directors that provides recommendations and opinions on all issues related to risk management;

- Audit Committee the independent expert advisory body of the Supervisory Board of the company which purpose is to help the Supervisory Board to perform its control duties;
- Remuneration Committee the independent expert advisory body of the Supervisory Board and the Board of Directors which purpose is to control and assess remuneration of the

employees of CDCP and members on its governing bodies.  The roles, responsibilities and composition of these committees are described in relevant internal statutes. There is also the User Committee through which CDCP regularly consults relevant substantial questions and changes with the participants. The statute on the User Committee is disclosed to the public on the CDCP website.  Another object of the CDCP regulation is conflict of interest. It is based primarily on CSDR requirements and it is managed by compliance officers. The processes of identifying and addressing the conflicts are included in the internal directive on managing of conflicts of interest.

○ Yes
● No

G03Q008

If yes, what fixed amount is required or what formula is used to determine the appropriate contribution level?

G03Q009

What are the CSD's objectives, and are they clearly identified?

PFMI: Q.2.1.1 AGC: n/a

Yes, the objectives are identified in the document CDCP Strategy for the period 2021-2023.

This document is subject to approval of the Board of Directors

G03Q010
How does the CSD assess its performance in meeting its objectives?

PFMI: Q.2.1.1 AGC: n/a

All objectives, specially financial aspects and economic activities of CDCP are at least annualy assessed by the Board of Directors.

How do the CSD's objectives place a high priority on safety and efficiency? How do the CSD's objectives explicitly support financial stability and other relevant public interest

PFMI: Q.2.1.2

Security of client's assets, whether these are specific financial instruments or protected information, is of high priority and is inseparably connected to protection of CDCP as such. Important preventive instrument is Information Security Management System, implemented, operated and further developed in compliance with ISO/IEC 27001. CDCP has in place effective measures to protect processed data, information systems and all relating information assets critical for performance of CDCP activities, particularly in sense of securing confidentiality, integrity and availability of data processed electronically, or in other form. Special attention is dedicated to integrity of book-entry securities issues registered in CDCP. Procedures are implemented for prevention and early detection of illegal activity, primarily potential fraud or unauthorised acquiring of protected client's data, and for prevention of legalisation of proceeds of criminal activity and terrorist financing. Independent Compliance Function assures that all CDCP activities are compliant with the regulations. Adequate documents and processes are implemented to manage potential conflict of interests.

What are the governance arrangements under which the CSD's board of directors (or equivalent) and management operate? What are the lines of responsibility and accountability within the CSD? How and where are these arrangements documented?

The governance arrangements are governed by the Articles of Association. The current scheme of governance and management system is presented on CDCP website and provides clear and direct lines of responsibility and accountability. CDCP has implemented the requirements on the governance arrangements under Regulation CSDR to its documents

For central bank-operated systems, how do governance arrangements address any possible or perceived conflicts of interest? To what extent do governance arrangements allow for a separation of the operator and oversight functions'

PFMI: Q.2.2.2

How does the CSD provide accountability to owners, participants and other relevant stakeholders?

The accountability to the CDCP owners is governed mostly by the national legislation (Commercial Code) and by the Articles of Association. The CDCP regularly consults the relevant substantial questions and changes with the its participants, especially in the User Committee. The current CDCP processing implemented CSDR requirements in relation to information provided to participants/user committee

How are the governance arrangements disclosed to owners, relevant authorities, participants and, at a more general level, the public?

PFMI: Q.2.2.4

The scheme of governance and management system of CDCP is publicly available on the CDCP website. The composition of the Board of Directors, Supervisory board and also the Sole Shareholder of the CDCP is published in the Commercial Register website and it is publicly available.

What are the roles and responsibilities of the CSD's board of directors (or equivalent), and are they clearly specified? Please provide details of the structure and composition of your Board together with their industry experience and responsibilities in governing the CSD. What are the qualifications to become a board member?

The composition of the Board of Directors, Supervisory Board and also the Sole Shareholder of the CDCP is published in the Commercial Register website and it is publicly available. The members of the Board of Directors and Supervisory Board must have good reputation, professional experience in the financial industry. Also the rules regulating conflict of interest and noncompetition are applied to the members in accordance with the relevant regulation. The elementary scope of tasks and obligations of the boards are defined by the legal regulations (Commercial Code, CSDR Regulation) and internal statutes of CDCP.

What are the board's procedures for its functioning, including procedures to identify, address and manage member conflicts of interest? How are these procedures documented, and to whom are they disclosed? How frequently are they reviewed?

PFMI: 0.2.3.2

Management of conflict of interest is based primarily on CSDR requirements. Conflicts of interest are managed by the compliance officers and the processes for identification and addressing of the conflicts are included in the internal directive on managing of conflicts of interest. All potential or real conflicts are identified in a registry and it can be disclosed to the national authority if requested. The conflicts are reviewed at least annually. But the internal directive does not apply to members of the boards. With respect to the board members the specific rules and procedures are included in the Articles of Association and any conflicts of interest are resolved by the competent board or the General Meeting.

G03Q018
What are the election procedures?

PFMI: Q.2.3.2

Members of the Board of Directors are elected and revoked by the sole shareholder of central depository

What is the maximum length of time a board member can serve?

PFMI: Q.2.3.2 AGC: 7f

The maximum length of time is 5 years. Re-election is possible.

How are the voting powers distributed amongst the board members (i.e. does each board member have one vote or do certain members have additional voting power)?

Each board member has one vote. In the case of equal votes, the vote of the Chairman of the Board of Director is decisive.

Describe the board committees that have been established to facilitate the functioning of the board. What are the roles, responsibilities and composition of such committees?

PFMI: Q.2.3.3 AGC: n/a

There are Risk Committee, User Committee, Audit Committee and Remuneration Committee. The roles, responsibilities and composition of these committees are described in relevant internal statutes. The statute of the User Committee is disclosed to public on the CDCP website.

G03Q022
What are the procedures established to review the performance of the board as a whole and the performance of the individual board members? Who is responsible for regulating the board members?

PFMI: Q.2.3.4

The Supervisory Board of Central depository is responsible for regulating the board as a whole and also for regulating the individual board members. The responsibility is towards the shareholder.

To what extent does the CSD's board have the appropriate skills and incentives to fulfil its multiple roles? How does the CSD ensure that this is the case?

Each member of the CDCP board must have an appropriate skill to fulfill his/her role. It is a necessary requirement for their appointment.

G03Q024
What incentives does the CSD provide to board members so that it can attract and retain members of the board with appropriate skills? How do these incentives reflect the long-term achievement of the CSD's objectives?

PFMI: Q.2.4.2

The members of CDCP top management must have a good reputation and experience to ensure the reliable and prudent management of the company. According to article 27 of CSDR Regulation, a person who is not compliant with the requirements should not be a member of boards.

Does the board include non-executive or independent board members?

PFMI: Q.2.4.3 AGC: n/a

Yes

O No

G03Q026

If yes, how many?

There is one non-executive and independent member of the Board of Directors, and two non-executive and independent members of the Supervisory Board.

If the board includes independent board members, how does the CSD define an independent board member? Does the CSD disclose which board member(s) it regards as independent?

PFMI: Q.2.4.4

An Independent board member is definied as a natural person, who does not have any business, family or other relationship with the company, the controlling shareholder, management body or its participants, what would create conflict of interest that could harm the interests of the company. The definition is based on the requirements of the

G03Q028
What are the roles and responsibilities of management, and are they clearly specified?

PFMI: Q.2.5.1 AGC: n/a

G03Q029

How are the roles and objectives of management set and evaluated?

PFMI: Q.2.5.2

The elementary objectives are set annually for an individual member of the top management and they are regularly evaluated. The members of the management shall report at least once a year on their acivities to the CDCP Board of Directors.

To what extent does the CSD's management have the appropriate experience, mix of skills and the integrity necessary for the operation and risk management of the CSD? How does the CSD ensure that this is the case?

PFMI: Q.2.5.3

Every manager must have the appropriate experience in the financial market area and other professional experience. This a mandatory requirement for their appointment. The minimum requirements are set by the internal directives.

G03Q031
What is the process to remove management if necessary?

Removal process is governed by the Slovak labor law. So for the members of top management who are not members of the boards at the same time the labor law applies.

What is the risk management framework that has been established by the board?

PFMI: Q.2.6.1

The risk management framework is set out in the Risk Management Policy. The Board of Directors, Supervisory Board, Risk Committee, Risk Manager, Management, Chief Technology Officer, Internal Audit, Compliance Officer are involved.

G03Q033

How is it documented?

PFMI: Q.2.6.1

AGC: n/a

It is documented in the Risk Management Policy and in internal directives.

How does this framework address the CSD's risk tolerance policy, assign responsibilities and accountability for risk decisions (such as limits on risk exposures), and address decision-making in crises and emergencies?

PFMI: Q.2.6.2

Risk tolerance policy as well as limits on risk exposures are approved by the Board of Directors on proposals of the Risk Manager. Decision-making in crises and emergencies is determined in Business Continuity Plans and Recovery Plans.

What is the process for determining, endorsing and reviewing the risk management framework?

PFMI: Q.2.6.3

The risk management framework is determined by the Risk Manager, endorsed by the Board of Directors and reviewed by the Internal Audit Department.

What are the roles, responsibilities, authority, reporting lines and resources of the risk management and audit functions?

PFMI: Q.2.6.4

The Board of Directors of the Company is responsible for establishing effective and efficient risk management system in the Company. Under its sphere of action in the field of risk management it is in particular to:

a) approve Risk Management Policy and its amendments,

b) set and regularly review the risk management strategy and procedures,

- c) decide on granting and withdrawal of consent to appoint an employee of CDCP to the Risk Manager function, d) adopt effective measures to eliminate identified deficiencies in the Risk Management System,
- e) ensure sufficient level of own resources to cover existing risk,
- f) create adequate material and financial conditions for risk management in CDCP.
- g) fulfil other tasks stipulated by the CDCP Articles and the Statute of the Board of Directors.

The Supervisory Board is responsible for monitoring of effectivity and efficiency of the CDCP Risk Management System as such.

The Risk Manager coordinates risk management process in the company, ensures that approved strategy and risk management procedures are implemented and observed, and provides methodical support to other employees with respect to identification, measuring, monitoring and mitigation of risks. Furthermore, under competence of the Risk Manager is to monitor compliance with defined limits for risk exposure of the Company, to prepare opinions

on risk aspects of new products or services, to collect information on risk management in CDCP and submit relevant reports and information to the Board of Directors and to the Supervisory Board. The Risk Manager performs the function independently from other organisational units and he has direct access to the Board of Directors and the Supervisory Board of the Company.

The Risk Committee is the advisory body to the Board of Directors of the Company which provides it with opinions and recommendations related to risk management strategy and risk exposure of CDCP, assesses if all risk which CDCP is exposed to are appropriately managed in the Company and provides support to the Company's Board of Directors in connection with improving the quality of the CDCP Risk Management System.

Internal audit inspects and assesses adequacy and effectivity of risk management processes, gives recommendations for elimination of identified insufficiencies, monitors adoption of corrective measures and checks their implementation and effectivity.

How does the board ensure that there is adequate governance surrounding the adoption and use of risk management models? How are these models and the related methodologies validated?

PFMI: Q.2.6.5

Refer to Q.2.6.4.

How does the CSD identify and take account of the interests of the CSD's participants and other relevant stakeholders in its decision-making in relation to its design, rules, overall strategy and major decisions?

The Committee consists of the representatives of CDCP Participants and of the issuers who are compliant with criteria for participation in the Committee, and of the Committee members nominated by CDCP Board of Directors from CDCP employees, or representatives from professionals in the field, and representative of the Bratislava Stock Exchange. The Committee is discussing mainly: proposals for new CDCP services, change and improvement of level of provided CDCP services, change of the Scale of Fees of CDCP and change of the Rules of Operation of CDCP, criteria for accepting of the issuers and participant to securities settlement system operated by CDCP, other key measures of CDCP having impact on the Committee members and the audit results.

How does the board consider the views of direct and indirect participants and other relevant stakeholders on these decisions, for example, are participants included on the risk management committee, on user committees such as a default management group or through a public consultation?

CDCP complies with the requirements of CSDR Regulation regarding the User Committee and the participants are included in that group. This committee discusses selected substantial issues such as changes to policies, rules, procedures, pricing changes, etc.).

How are conflicts of interest between stakeholders and the CSD identified, and how are they addressed?

Conflicts of interest are managed by compliance officers and the processes of identifying and addressing is included in the internal directive on managing of conflicts of interest. All potential or real conflicts are identified in the registry. Conflict of interest management is in compliance with the requirements of the CSD Regulation. The conflict of interest may be identified by report from any person who has knowledge on conflict of interest or during review performed by the compliance officers. After any conflict of interest has been raised, the compliance officers notify without any delay the competent person in accordance with the internal directive on managing of conflicts of interest. The conflict of interests in case of the User Committee members is governed separately.

G03Q041
To what extent does the CSD disclose major decisions made by the board to relevant stakeholders and, where appropriate, the public?

PFMI: Q.2.7.3

CDCP does not disclose any concrete decisions made by the Board.

filecount - Add relevant appendices for this group.

### Comprehensive risk management (PFMI Principle 3)

Summary narrative for PFMI Principle 3. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P3 AGC: n/a

CDCP recognizes operational (includes risks of internal processes, information systems, human resources, security risks, risks of business continuity), legal, financial, investment, custody and general business risks. CDCP adopted the Risk Management Policy, internal regulations for management of borne risks and internal regulations for management of risks which bear participants and other CDCP's

customers. CDCP's risk management systems fully respect requirements of the Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU, and the Regulation No 236/2012 referred to in article 26 and further provisions. Risk manager reviews and updates risk management policies and procedures annually. Comprehensive risk management cycle is performed on an annual basis too.

Fluctuation in risk exposures is taken into account within risk mitigation actions (adjusting of internal controls mechanism). Risks that CDCP bears from and poses to other entities are fully included in CDCP's risk management system. If necessary, CDCP can exercise its right to impose restricted access to services or cancel participation. CDCP takes into consideration also risks to which it is exposed to by external entities (primarily key participants in the settlement systems, external suppliers, other CSDs or other market infrastructures). CDCP maintains catalogue of provided services, including information on maximum tolerable time in case of disruption of the services. Basic objectives, obligations and procedures related possible emergency situation are included in the Business Continuity Policy.

W	nat	ty

pes of risk arise in or are borne by the CSD?

PFMI: Q.3.1.1

CDCP recognizes operational, legal, investment, custody and general business risks. Financial risks in the settlement system are recognized too.

04Q0	03

Any direct damages or losses to participants caused by the CSD as a result of force majeure events, acts of God, or political events, etc.?

PFMI: Q.3.1.1 AGC: 66x.

O Yes

No

O Not applicable

## G04Q004

If yes, please check all of the following that apply:

PFMI: Q.3.1.1 AGC: 66y.

Financial limits are imposed on the amount of liability assumed by the CSD

The CSD assumes liability for direct losses

The CSD assumes liability for indirect or consequential losses

OTHER:

In all cases where the CSD assumes responsibility for direct or indirect or consequential losses, is the CSD's liability limited by a standard of care determination? PFMI: Q.3.1.1 O Yes O Not applicable

G04Q006

Please define the standard of care applied:

PFMI: Q.3.1.1 AGC: 66\*

What are the CSD's policies, procedures and controls to help identify, measure, monitor and manage the risks that arise in or are borne by the CSD?

CDCP adopted the Risk Management Policy, internal regulations for management of borne risks and internal regulations for management of risks which bear participants and other CDCP's customers.

G04Q008 What risk management systems are used by the CSD to help identify, measure, monitor and manage its range of risks?

PFMI: Q.3.1.3 AGC: n/a

CDCP's risk management systems fully respect requirements of the Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU, and the Regulation No 236/2012 referred to in article 26 and further provisions.

How do these systems provide the capacity to aggregate exposures across the CSD and, where appropriate, other relevant parties, such as the CSD's participants and their customers?

PFMI: Q.3.1.4 AGC: n/a

Control and risk maps for all processes and business areas were made out. They are revised semi-annually. All arose risk incidents are taken into account when a risk exposure is evaluated.

What is the process for developing, approving and maintaining risk management policies, procedures and systems?

Risk manager is responsible for developing risk management policies, procedures and systems. Policies and other internal regulations related to the risk management are approved by the Board of Directors.

How does the CSD assess the effectiveness of risk management policies, procedures and systems?

The assessment of effectiveness of risk management policies, procedures and systems is performed by the Board of Directors and the Supervisory Board on the basis of semi-annual risk reports.

How frequently are the risk management policies, procedures and systems reviewed and updated by the CSD? How do these reviews take into account fluctuation in risk intensity, changing environments and market practices?

PFMI: Q.3.1.7

Risk Manager reviews and updates the Risk Management Policies and procedures annually. Comprehensive risk management cycle is performed on an annual basis too. Fluctuation in risk exposures is taken into account within risk mitigation actions (adjusting of internal controls mechanism).

What information does the CSD provide to its participants and, where relevant, their customers to enable them to manage and contain the risks they pose to the CSD?

PFMI: Q.3.2.1

Participants and clients are required to meet the criteria and requirements contained in the Rules of Operation. If irregularities are found out or incidents occurred, CDCP is empowered to call for appropriate measures or impose sanctions.

G04Q014
What incentives does the CSD provide for participants and, where relevant, their customers to monitor and manage the risks they pose to the CSD?

PFMI: Q.3.2.2 AGC: n/a

At present no incentives are provided.

How does the CSD design its policies and systems so that they are effective in allowing their participants and, where relevant, their customers to manage and contain their

PFMI: Q.3.2.3

CDCP systematically identifies, measures, manages and monitors all risks faced by participants and clients regarding the use of CDCP services. On request, CDCP provides necessary information to participants and clients

How does the CSD identify the material risks that it bears from and poses to other entities as a result of interdependencies? What material risks has the CSD identified?

PFMI: Q.3.3.1

Risks that CDCP bears from and poses to other entities are fully included in CDCP's risk management system. If necessary, CDCP can exercise its right to impose restricted access to services or cancel participantship.

How are these risks measured and monitored? How frequently does the CSD review these risks?

PFMI: Q.3.3.2

Risks are assessed by management as well as by the risk manager. All risk incidents are recorded, the significance is evaluated and the corrective actions are monitored. The risk manager is responsible. Complete risk management cycle is performed annually.

What risk management tools are used by the CSD to address the risks arising from interdependencies with other entities?

PFMI: Q.3.3.3

Risks arising from interdependencies are an ordinary part of risks treated within the regular risk management cycle.

How does the CSD assess the effectiveness of these risk management tools? How does the CSD review the risk management tools it uses to address these risks? How frequently is this review conducted?

PFMI: Q.3.3.4

Internal audit carries out regular inspections of risk management tools and their effectiveness, and implements the frequency of inspections according to current needs.

How does the CSD identify scenarios that may potentially prevent the CSD from providing its critical operations and services? What scenarios have been identified as a result of these processes?

PFMI: Q.3.4.1

The following scenarios were identified: damage to the building, various kind of IT failures, failure of a critical provider, absence of key employees and the unavailability of other adequate human resources, shortage of the capital and withdrawal of CSD license. For all the scenarios a Business Continuity Plan or a Recovery Plan is in place.

How do these scenarios take into account both independent and related risks to which the CSD is exposed?

PFMI: Q.3.4.2

All identified risks have been taken into account.

G04Q022
What plans does the CSD have for its recovery or orderly wind-down?

PFMI: Q.3.4.3 AGC: n/a

Refer to Q.3.4.1

How do the CSD's key recovery or orderly wind-down strategies enable the CSD to continue to provide critical operations and services?

The information is confidential

G04Q024
How are the plans for the CSD's recovery and orderly wind-down reviewed and updated? How frequently are the plans reviewed and updated?

PFMI: Q.3.4.5 AGC: n/a

The plans are reviewed annually by the BC manager

filecount - Add relevant appendices for this group.

## Credit risk (PFMI Principle 4)

Summary narrative for PFMI Principle 4. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P4 AGC: n/a

CDCP does not have a banking licence, thus it does not offer (intraday) credits to cover payment obligations in the settlement process. Therefore CDCP is not exposed to the credit risk in the securities settlement system. CDCP does not offer intraday or other type of credit for settling of trade, neither it guarantees settlement of the trade as CDCP does not act as the central counterparty.

G05Q013 How is the size of the fund determined?  PFMI: Q.4.3.1 AGC: 78b.			
<ul><li>○ By participant volume</li><li>○ By asset value</li><li>○ A fixed amount</li></ul>			
G05Q014 How is the fund financed?  PFMI: Q.4.3.1 AGC: 78d.			
Contributions from owner Contributions from participants Funding from retained earnings Other: N/A			
G05Q015 If so, what is the amount or percentage per owner?  PFMI: Q.4.3.1 AGC: 78e.

## Liquidity risk (PFMI Principle 7)

Summary narrative for PFMI Principle 7. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P7

CDCP is not directly exposed to the liquidity risk. The participants can be exposed to the liquidity risk. The liquidity risk is limited by providing the settlement services via T2S, settlement in central bank money and application of RTGS principle, use of DVP method and different incentives for early settlement (night settlement and surcharge for day-time settlement). CDCP provides its participants with tool for tracking their obligations and claims resulting from settlement of their instructions via automatic processing of the instruction and automatic delivery of information (a) on each change of processing and settlement status of instruction and (b) on their cash obligations and claims resulting from settlement, whereas this information is available also for the payment banks

What is the CSD's framework for managing its liquidity risks, in all relevant currencies, from its participants, settlement banks, nostro agents, custodian banks, liquidity providers and other entities?

PFMI: Q.7.1.1 AGC: n/a

CDCP did not identify liquidity risk of the settlement system it operates in relation to any of specified parties as CDCP does not guarantee settlement. In case any participant shall not deliver required cash, instructions of that participant shall not settle.

G07Q003
What are the nature and size of the CSD's liquidity needs, and the associated sources of liquidity risks, that arise in the CSD in all relevant currencies?

PFMI: Q.7.1.2 AGC: n/a

n/a

How does the CSD take into account the potential aggregate liquidity risk presented by an individual entity and its affiliates that may play multiples roles with respect to the

PFMI: Q.7.1.3 AGC: n/a

n/a

What operational and analytical tools does the CSD have to identify, measure and monitor settlement and funding flows?

n/a

How does the CSD use those tools to identify, measure and monitor its settlement and funding flows on an ongoing and timely basis, including its use of intraday liquidity?

PFMI: Q.7.2.2 AGC: n/a

n/a

How does the payment system or SSS determine the amount of liquid resources in all relevant currencies to effect same day settlement and, where appropriate, intraday or multiday settlement of payment obligations? What potential stress scenarios (including, but not limited to, the default of the participant and its affiliates that would generate the largest aggregate payment obligation in extreme but plausible market conditions) does the payment system or SSS use to make this determination?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

What is the estimated size of the liquidity shortfall in each currency that the payment system or SSS would need to cover?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP is not monitoring potential lack of liquidity in EUR - the settlement currency.

How does the CCP determine the amount of liquid resources in all relevant currencies to settle securities-related payments, make required variation margin payments and meet other payment obligations on time? What potential stress scenarios (including, but not limited to, the default of the participant and its affiliates that would generate the largest aggregate payment obligation in extreme but plausible market conditions) does the CCP use to make this determination?

PFMI: Q.7.4.1 AGC: n/a

n/a

### G07Q010

What is the estimated size of the liquidity shortfall in each currency that would need to be covered, following the default of the participant and its affiliates that would generate the largest aggregate payment obligation to the CCP in extreme but plausible market conditions? How frequently does the CCP estimate this?

n/a

### G07Q011

Do any of the CCP's activities have a more complex risk profile (such as clearing financial instruments that are characterised by discrete jump-to-default price changes or that are highly correlated with potential participant defaults)? Is the CCP systemically important in multiple jurisdictions?

PFMI: Q.7.4.3 AGC: n/a

n/a

If the CCP is involved in activities with a more complex risk profile or is systemically important in multiple jurisdictions, has the CCP considered maintaining additional resources sufficient to cover a wider range of stress scenarios that would include the default of the two participants and their affiliates that would generate the largest aggregate payment obligation to the CCP in extreme but plausible market conditions?

PFMI: Q.7.4.4

n/a

### G07Q013

What is the size and composition of the CSD's qualifying liquid resources in each currency that is held by the CSD? In what manner and within what time frame can these liquid resources be made available to the CSD?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

What prearranged funding arrangements has the CSD established to convert its readily available collateral and investments into cash? How has the CSD established that these arrangements would be highly reliable in extreme but plausible market conditions? Has the CSD identified any potential barriers to accessing its liquid resources?

PFMI: Q.7.5.2 AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities

G07Q015

If the CSD has access to routine credit at the central bank of issue, what is the CSD's relevant borrowing capacity for meeting its minimum liquid resource requirement in that currency?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

## G07Q016

To what extent does the size and the availability of the CSD's qualifying liquid resources cover its identified minimum liquidity resource requirement in each currency to effect settlement of payment obligations on time?

PFMI: Q.7.5.4 AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities

G07Q017
What is the size and composition of any supplemental liquid resources available to the CSD?

PFMI: Q.7.6.1 AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

How and on what basis has the CSD determined that these assets are likely to be saleable or acceptable as collateral to obtain the relevant currency, even if this cannot be reliably prearranged or guaranteed in extreme market conditions?

PFMI: Q.7.6.2

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

## G07Q019

What proportion of these supplemental assets qualifies as potential collateral at the relevant central bank?

PFMI: Q.7.6.3

AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement. CDCP does not have access to central bank liquidity.

### G07Q020

In what circumstances would the CSD use its supplemental liquid resources in advance of, or in addition to, using its qualifying liquid resources?

PFMI: Q.7.6.4

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

To what extent does the size and availability of the CSD's supplemental liquid resources, in conjunction with its qualifying liquid resources, cover the relevant liquidity needs identified through the CSD's stress test programme for determining the adequacy of its liquidity resources (see key consideration 9)?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

Does the CSD use a liquidity provider to meet its minimum required qualifying liquidity resources? Who are the CSD's liquidity providers? How and on what basis has the CSD determined that each of these liquidity providers has sufficient information to understand and to manage their associated liquidity risk in each relevant currency on an ongoing basis, including in stressed conditions?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement

How has the CSD determined that each of its liquidity providers has the capacity to perform on its commitment in each relevant currency on an ongoing basis?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement.

How does the CSD take into account a liquidity providers potential access to credit at the central bank of issue?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement

How does the CSD regularly test the timeliness and reliability of its procedures for accessing its liquid resources at a liquidity provider?

PFMI: Q.7.7.4 AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement.

To what extent does the CSD currently have, or is the CSD eligible to obtain, access to accounts, payment services and securities services at each relevant central bank that could be used to conduct its payments and settlements and to manage liquidity risks in each relevant currency?

PFMI: Q.7.8.1

CDCP has access to the cash accounts (DCA) administered by the central bank for the participant and is ancillary participant in the payment system operated by the central bank.

To what extent does the CSD use each of these services at each relevant central bank to conduct its payments and settlements and to manage liquidity risks in each relevant currency?

CDCP is using accounts opened by the central bank (DCA) for the participants in the cash leg of the settlement process.

If the CSD employs services other than those provided by the relevant central banks, to what extent has the CSD analysed the potential to enhance the management of liquidity risk by expanding its use of central bank services?

PFMI: Q.7.8.3 AGC: n/a

n/a

What, if any, practical or other considerations to expanding its use of relevant central bank services have been identified by the CSD?

PFMI: Q.7.8.4

AGC: n/a

How does the CSD use stress testing to determine the amount and test the sufficiency of its liquid resources in each currency? How frequently does the CSD stress-test its

PFMI: Q.7.9.1

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test

What is the process for reporting on an ongoing basis the results of the CSD's liquidity stress tests to appropriate decision-makers at the CSD? for the purpose of supporting their timely evaluation and adjustment of the size and composition of the CSD's liquidity resources and liquidity risk management framework?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.

What scenarios are used in the stress tests, and to what extent do they take into account a combination of peak historic price volatilities, shifts in other market factors such as price determinants and yield curves, multiple defaults over various time horizons, simultaneous pressures in funding and asset markets, and a spectrum of forwardlooking stress scenarios in a variety of extreme but plausible market conditions?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.

To what extent do the scenarios and stress tests take into account the CSD's particular payment and settlement structure (for example, real-time gross or deferred net, with or without a settlement guarantee, DVP model 1, 2 or 3 for SSSs), and the liquidity risk that is borne directly by the CSD? by its participants, or both?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.

To what extent do the scenarios and stress tests take into account the nature and size of the liquidity needs, and the associated sources of liquidity risks, that arise in the CSD to settle its payment obligations on time, including the potential that individual entities and their affiliates may play multiples roles with respect to the CSD?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.

How frequently does the CSD assess the effectiveness and appropriateness of stress test assumptions and parameters? How does the CSD's stress test programme take into account various conditions, such as a sudden and significant increase in position and price volatility, position concentration, change in market liquidity, and model risk including shift of parameters?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.

How does the CSD validate its risk management model? How frequently does it perform this validation?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.

Where and to what extent does the CSD document its supporting rationale for, and its governance arrangements relating to, the amount and form of its total liquid

PFMI: Q.7.9.8

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities

How do the CSD's rules and procedures enable it to settle payment obligations on time following any individual or combined default among its participants?

PFMI: Q.7.10.1

CDCP shall settle the instruction, or payment obligations, after individual / combined default of the participants in case sufficient cash is in relevant account and settlement is possible according to the settlement day schedule.

How do the CSD's rules and procedures address unforeseen and potentially uncovered liquidity shortfalls and avoid unwinding, revoking or delaying the same day settlement of payment obligations?

PFMI: Q.7.10.2 AGC: n/a

According to the settlement system rules the instructions that could not be settled due to lack of cash resources on ISD are recycled on next operation day. Settlement of instructions is final, i.e. payment obligations can't be returned or their settlement revoked.

How do the CSD's rules and procedures allow for the replenishment of any liquidity resources employed during a stress event?

N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement

## G08Q001

Summary narrative for PFMI Principle 8. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P8

CDCP is providing its settlement services via T2S. That ensures that DVP/DWP transactions settlement is concurrent final transfer of securities between the securities accounts and transfer of cash funds between the cash accounts (dedicated cash accounts) during the day in real time.

At what point is the settlement of a payment, transfer instruction or other obligation final, meaning irrevocable and unconditional? Is the point of settlement finality defined and documented? How and to whom is this information disclosed?

The settlement is final and irrevocable when relevant transaction is made in the settlement system (transfer of securities between the accounts of the transferor and transferee and in case of DVP also transfer of cash funds between cash accounts of the participants, or their settlement banks). This issue is clearly described in the Rules of Operation that are available to the public.

How does the CSD's legal framework and rules, including the applicable insolvency law(s), acknowledge the discharge of a payment, transfer instruction or other obligation between the CSD and its participants, or between participants?

CDCP is providing its settlement services via T2S and the settlement of the instruction is finished and irrevocable upon its settlement in T2S. The finishing of the settlement is provided through a fully automatic process in the CDCP system, and follows immediately after receipt of the confirmation of the settlement of the instruction from T2S. T2S is sending messages on different phases of the settlement process to CDCP/CDCP participant.

How does the CSD demonstrate that there is a high degree of legal certainty that finality will be achieved in all relevant jurisdictions (for example, by obtaining a well reasoned legal opinion)?

CDCP is providing its settlement services via T2S whereby it is ensured that settlement finality is in compliance with T2S documentation, also in case of cross-CSD settlement. The settlement is final and irrevocable when relevant transaction is made in the settlement system (transfer of securities between the accounts of the transferor and transferee, and in case of DVP also transfer of cash funds between cash accounts of the participants, or their settlement banks). This issue is clearly described in the Rules of Operation that are available to the public. Each link to another CDS is assessed by the European Central Bank. CDCP has no link to foreign CSD nowadays.

How does the CSD ensure settlement finality in the case of linkages with other CSD?? a) For an SSS, how is consistency of finality achieved between the SSS and, if relevant, the LVPS where the cash leg is settled? b) For a CCP for cash products, what is the relation between the finality of obligations in the CCP and the finality of the settlement of the CCP claims and obligations in other systems, depending on the rules of the relevant CSD/SSS and payment system?

CDCP is providing its settlement services via T2S whereby it is ensured that settlement finality also in case of cross-CSD settlement in compliance with T2S documentation

Is the CSD designed to complete final settlement on the value date (or same day settlement)? How does the CSD ensure that final settlement occurs no later than the end of the intended value date?

Yes, CDCP settles the instructions in batches (night settlement) and in real time in compliance with T2S principles. That is ensured by the system which is providing the settlement process on fully automatic basis.

Has the CSD ever experienced deferral of final settlement to the next business day that was not contemplated by its rules, procedures or contracts? If so, under what circumstances? If deferral was a result of the CSD's actions, what steps have been taken to prevent a similar situation in the future?

PFMI: Q.8.2.2 AGC: n/a

No. CDCP did not experience such situation.

## G08Q008

Does the CSD provide intraday or real-time final settlement? If so, how? How are participants informed of the final settlement?

CDCP is provides only final settlement in real time. That is ensured by the system which is providing the settlement process on fully automatic basis. The participants are informed automatically via "Settlement confirmation" notification.

If settlement occurs through multiple-batch processing, what is the frequency of the batches and within what time frame do they operate? What happens if a participant does not have enough funds or securities at the settlement time? Are transactions entered in the next batch? If so, what is the status of those transactions and when would they become final?

PFMI: Q.8.2.4

Batch processing is made in compliance with the T2S schedule for night settlement (8:00 pm - 3:00 am). In case of lack of funds or securities the instructions are postponed to next batch or to real time settlement. As long as the transaction is not settled, its status is "unsettled", or waiting for settlement.

If settlement does not occur intraday or in real time, how has the LVPS or SSS considered the introduction of either of these modalities?

PFMI: Q.8.2.5

n/a

G08Q011
How does the CSD define the point at which unsettled payments, transfer instructions or other obligations may not be revoked by a participant? How does the CSD prohibit the unilateral revocation of accepted and unsettled payments, transfer instructions or obligations after this time?

CDCP defines the moment of irrevocability, which is given by the moment when the instructions are matched. From that moment is possible only to cancel the settlement instruction bilaterally. The system control shall assure that unilateral cancellation of the instruction is not possible.

Under what circumstances can an instruction or obligation accepted by the system for settlement still be revoked (for example, queued obligations)? How can an unsettled payment or transfer instruction be revoked? Who can revoke unsettled payment or transfer instructions?

The instruction can be cancelled as long it is not settled, or is not being settled. Cancellation of the instruction is possible through the system by respective instruction in sense of ISO 20022. Instruction can be cancelled by person who placed the instruction (trading venue, participant) under conditions set for the bilateral cancelation.

Under what conditions does the CSD allow exceptions and extensions to the revocation deadline?

PFMI: Q.8.3.3 AGC: n/a

CDCP does not allow exceptions and extensions to the cancellation deadlines.

G08Q014

Where does the CSD define this information? How and to whom is this information disclosed?

This information is defined in the publicly available Settlement System Rules.

### Money settlements (PFMI Principle 9)

Summary narrative for PFMI Principle 9. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P9 AGC: n/a

CDCP conducts cash settlement only in central bank money via the dedicated cash accounts opened in T2S for purpose of settlement of cash instruction resulting from the instructions settled in T2S. CDCP conducts cash settlement in T2S settlement currencies (nowadays only EUR, prepared for potential settlement in DKK)

How does the CSD conduct money settlements? If the CSD conducts settlement in multiple currencies, how does the CSD conduct money settlement in each currency?

CDCP conducts cash settlement only in central bank money and only in T2S settlement currencies.

## G09Q003

### Central Securities Depositories (PFMI Principle 11)

### G11Q001

Summary narrative for PFMI Principle 11. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P11 AGC: n/a

CDCP serves as a central depository and operates the settlement system for debt securities (government, corporate), equities, units of unit trust, cooperative units, investment certificates and state T-bills. All securities issued in book-entry form and registered in CDCP registry are held and settled in CDCP. The paper form securities are not registered in CDCP, but CDCP is administering lists of shareholders.

Protection of assets of participants is governed by the national legislation (Act No. 566/2001 on Securities and Investment services, the insolvency law) and by EU regulation

Protection of assets of participants is governed by the national legislation (Act No. 566/2001 on Securities and Investment services, the insolvency law) and by EU regulation 909/2014 CSDR. Asset protection is ensured via the structure of accounts CDCP offers to its participants and clients, individual client segregation and omnibus client segregation are recognized. The assets of participants, owners and CDCP are segregated from each other. The segregation of participant's own securities from securities of their clients is mandatory, thus the participants are permitted to open unlimited number of securities accounts in structure most suitable for them.

CDCP has in place required daily reconciliation procedures and the issue integrity controls are integrated it the Settlement System. Debit balance and account overdraft are

CDCP has in place required daily reconciliation procedures and the issue integrity controls are integrated it the Settlement System. Debit balance and account overdraft are not allowed and the principles of double-entry accounting in connection with transaction settlement are implemented.

CDCP has stable and functional risk management system. CDCP has effective measures for protection of processed data, information systems and all related information

CDCP has stable and functional risk management system. CDCP has effective measures for protection of processed data, information systems and all related information assets to assure their confidentiality, integrity and availability. Information Security Management System is operated in compliance with the internationally recognized standard for Information Systems Security - ISO/IEC 27001.

Other services provided by CDCP are: assigning ISIN, LEI and other codes; redemption of principal and yield/dividend at the request of issuer; administration of shareholders registry, Corporate Actions processing support (incl. tax, GM, information services), Pledge registry, Registry of transfers as collateral.

## G11Q002

CSD FUNCTIONALITY AND SERVICES, USE OF AGENTS. Certain functionalities and services reduce risk to an investor if provided in an efficient manner. The purpose of this section is to identify those functionalities that may potentially be offered by depositories and clearing systems around the world, and ascertain whether they are offered by your institution. For which of the following security types do you serve as a CSD or clearing system?

PFMI: n/a

- Government securities
- Equities
- Corporate bonds
- Corporate money market
- Not applicable
- ✓ OTHER: units of the unit trusts, cooperative units, investment certificates, state T-bills

G11Q003

Please name the other security types:

PFMI: n/a

units of the unit trusts, cooperative units, debt instruments (structured instruments - investment certificates), state T-bills, SICAV, other types of securities designated as such by a

01/07/1
G110004  Is the use of the CSD in your market compulsory by law or compulsory by market practice for the settlement or safekeeping of all instrument types in your market (e.g. equities, government securities, corporate bonds, money market instruments, warrants, derivatives etc).  PFMI: n/a
AGC: 27, 27c
Yes by law for settlement of all instrument types
Yes by law for safekeeping of all instrument types
Yes by market practice for settlement of all instrument types
Yes by market practice for safekeeping of all instrument types
Yes by law for settlement, but not for all instrument types
Yes by law for safekeeping, but not for all instrument type
Yes by market practice for settlement, but not for all instrument types
Yes by market practice for safekeeping, but not for all instrument types
Neither Neither
OTHER: The use of CDCP as depository for the settlement and the safekeeping of all instrument types is neither compulsory by law nor by market practice. In accordance with the law, all book- entry securities are settled in CDCP. Selected types of financial instruments such as warrants, derivates are not maintained and settled in CDCP.
G11Q005
Please list the instrument types for which it is not compulsory by law to: (i)settle in your CSD  PFMI: n/a
AGC: 27a. (i)  units of (book-entry) open-ended unit trust, other types of financial instruments different from book-entry securities (derivatives, etc)
G11Q006 (ii) safekeep in your CSD:
PFMI: n/a AGC: 27a. (ii)
units of (book-entry) open-ended unit trust, SICAV, other types of financial instruments different from book-entry securities (derivatives, etc)
G110007 Please list the instrument types for which it is not compulsory by market practice to: (i)settle in your CSD
PFMI: n/a
units of (book-entry) open-ended unit trust, other types of financial instruments different from book-entry securities (derivatives, etc)
G11Q008
(ii) safekeep in your CSD:
PFMI: n/a AGC: 27b. (ii)
units of (book-entry) open-ended unit trust, other types of financial instruments different from book-entry securities (derivatives, etc)
G110009 Settlement and Safekeeping Percentages 28a Please list by instrument type the percentage of the total market in your jurisdiction (either volume or value) settled within your institution, exclusive of your links with third parties.
PFMI: n/a AGC: 28 28a
100% of all securities types of book-entry securities registered in the CSD (except the units and SICAV); data on total market including book-entry securities registered and settled by entities other than CSD is not available to CSD;
G11Q010
Please list by instrument type the percentage of the total market in your jurisdiction (either volume or value) held in safekeeping within your institution.  PFMI: n/a
AGC: 28b.
100% of all securities types of book-entry securities registered in the CSD (except the units and SICAV); data on total market including book-entry securities registered and safekept by entities other than CSD is not available to CSD;
G110011  How are the rights of securities issuers and holders safeguarded by the rules, procedures and controls of the CSD?
PFMI: Q.11.1.1 AGC: n/a
The CDCP rules and procedures (as well as the legal regulation) contain several relevant measures, in particular - the way of maintaining the accounts, the segregation of the assets held in the CDCP, the rules for securing integrity of the issue, the reconciliation rules, risk management procedures. Furthermore, the general liability under the legal regulation applies.
G11Q012
In the event a participant's single or main account is blocked for any reason (e.g., insolvency, penalties, violations, liens), would securities held in any account or accounts on behalf of the participant's clients be accessible: By the participant's clients?
PFMI: Q.11.1.1 AGC: 44a
• Yes
○ No
O Not applicable

G11Q013 If yes, please describe briefly how clients of participants would access their securities and whether there would be any delay in their ability to do so:
PFMI: Q.11.1.1 AGC: 44b
The Clients would access their securities via transferring the securities to an account opened with other participant, or they can dispose of their securities on existing account. In both cases cooperation of relevant participant which opened the account is expected.
G11Q014  By the intervening authorities controlling insolvency or other proceedings?
PFMI: Q.11.1.1 AGC: 44d.
○ Yes
○ No
O Not applicable
Other: Only participant's own beneficial owner account can be accessed, but not an omnibus account.
G11Q015 If yes, please describe briefly under what conditions access would be granted to the intervening authorities:
PFMI: Q.11.1.1 AGC: 44e.
G11Q016 By the participant's creditors?
PFMI: Q.11.1.1
AGC: 44g, 44i
○ Yes
● No
O Not applicable
G11Q017 If yes, please describe briefly under what conditions access would be granted to the participant's creditors:
PFMI: Q.11.1.1 AGC: 44h
G11Q018 By the CSD's creditors?
PFMI: Q.11.1.1 AGC: 44j.
○ Yes
No No
○ Not applicable
С Кестариосыя
G11Q019 If yes, please describe briefly under what conditions access would be granted to the CSD's creditors:
PFMI: Q.11.1.1 AGC: 44k.
G11Q020
What is your document and record retention policy for documents and records described above in this section?  PFMI: Q.11.1.1
AGC: 47, 47a
○ 6 months or less
O 1 year
O 3 years
O 5 years
O 7 years
Other: The record keeping is provided through the information system and document retention terms are regulated by the internal guidelines complying with legal requirements.

G110021 Does the law protect participant assets from claims and liabilities of the CSD?
PFMI: Q.11.1.1 AGC: 54
○ Yes
○ No
O Not applicable
Other: The assets of the participants are protected under the applicable legislation. The CSD is entitled to handle the assets only in cases where the legal regulation or
the consent of the participant so provides.
G110022 Can the CSD assess a lien on participant accounts? (A lien would entitle the CSD to take and hold or sell the securities of the participant in payment of a debt.)
PFMI: Q.11.1.1 AGC: 55
○ Yes
<ul><li>No</li></ul>
O Not applicable
G11Q023
If yes, for what reasons are liens or similar claims imposed?
PFMI: Q.11.1.1 AGC: 55a
Fees and expenses
Collateralization of overdrafts
To secure payment for purchased securities
OTHER:
G11Q024 Please describe:
PFMI: 0.11.1.1 AGC: 55b
Legal regulation allows to register suspension of disposal right in certain circumstances, but only in relation to accounts of the final securities owners, not in relation to the accounts of the participant, where the data of the securities of participants clients are registered and only in connection with fees and expenses.
G110025 Please indicate the limits of this lien as indicated below:
PFMI: 0.11.1.1
AGC: 55c
The lien is limited to securities in the participant's proprietary account
The lien is limited to securities in the course of purchase and sale transactio
The lien may extend to settled client positions
G11Q026 Please explain:
PFMI: 0.11.1.1 AGC: 55d
G11Q027 If a lien is placed on a participant's account which has been designated for its clients, will the CSD select certain securities to be subject to the lien?
PFMI: Q.11.1.1 AGC: 55e
○ Yes
○ No
G110028 If yes, please indicate whether:
PFMI: Q.11.1.1 AGC: 551
The lien is placed on the most liquid securities in the account
The lien is placed on the securities with the greatest value in the account

G110029 Please explain:
PFMI: Q.11.1.1 AGC: 55g
G11Q030 If no, please indicate whether the entire account will be subject to the lien.
PFMI: Q.11.1.1 AGC: 55h
○ Yes
○ No
G11Q031 For accounts designated as client accounts, do procedures exist to restrict the placement of liens only to obligations arising from safe custody and administration of those accounts?
PFMI: 0.11.1.1 AGC: 55j
O Yes
O No
G110032 If yes, are the restrictions accomplished by:
PFMI: Q.11.1.1 AGC: 55k
Contract between the CSD and the participant

PFMI: Q.11.1.1 AGC: 55I
G110034 Transfer of Legal Ownership. Does the CSD have legal authority to transfer title to securities?
PFMI: Q.11.1.1 AGC: 56, 56e
○ Yes
○ No
O Not applicable
Other: No. The CSD may only dispose of its own securities.
When does title or entitlement to CSD securities pass between participants?
PFMI: Q.11.1.1 AGC: 56a
At the end of the business day on which the transfer occurs
When corresponding money or other consideration is transferred  When the transaction is processed on an intra-day basis
G11Q036 Please describe:  PFMI: Q.11.1.1
Title to securities pass immediately after securities are transferred on a DVP or FOP basis.
G110037 Where does title or entitlement to CSD securities pass between participants?
PFMI: Q.11.1.1 AGC: 56c
On the CSD books
On the registrars books
G11Q038 Please describe:
PFMI: 0.11.1.1 AGC: 56d

How do the CSD's rules, procedures and controls ensure that the securities it holds on behalf of participants are appropriately accounted for on its books and protected from risks associated with the other services the CSD may provide?

Asset protection is secured by the way and structure of account management within the CDCP records. Individual client segregation and omnibus client segregation apply. The assets of each participant and owner are segregated from the CDCP assets and of other participants and CP owners: The insolvency law also safeguards the assets of the CDCP clients. Detailed information CDCP publishes on its website.

In what form does the CSD maintain records identifying the assets of each participant? PFMI: Q.11.1.2 AGC: 45 Computer file Microfiche Hard copy Computer tape

In which format is the source data maintained?

OTHER:

XML

How does the CSD ensure that it has robust accounting practices? Do audits review whether there are sufficient securities to satisfy customer rights? How frequently are end-to-end audits conducted to examine the procedures and internal controls used in the safekeeping of securities?

All securities registered and held in CDCP are in dematerialised form and it is stipulated by law that all book-entry securities are settled in the securities central depository. CDCP has effective measures for protection of processed data, information systems and all related information assets that are critical for CDCP activities. CDCP is ensuring segregation of accounts and assets by use of omnibus and individual client segregation. With regard to securities issue integrity CDCP applies several controls (continual and periodic), principles of double-entry accounting in connection with transaction settlement and debit balance and account overdraft are not allowed. CDCP has in place daily reconciliation procedures and the issue integrity controls are integrated it the Settlement System. CDCP has stable and functional risk management system and the Internal Audit provides assurance also on reliability and integrity of financial and operational information, efficiency, effectiveness. Operational audit is performed at least on annual basis.

What are the CSD's internal procedures to authorise the creation and deletion of securities? What are the CSD's internal controls to prevent the unauthorised creation and deletion of securities?

AGC: n/a

Creation and deletion of securities is limited to employees of relevant department providing services related to the issuers and securities issues. To prevent unauthorised creation or deletion of securities CDCP conducts multilevel control in the system between the static data of given securities issue and processing of any request for change in data on the securities issue, issuance of securities, transaction settlement.

Does the CSD conduct periodic and at least daily reconciliation of the totals of securities issues in the CSD for each issuer (or its issuing agent)? How does the CSD ensure that the total number of securities recorded in the CSD for a particular issue is equal to the amount of securities of that issue held on the CSD's books?

PFMI: Q.11.1.5

Yes, CDCP conducts reconciliation regularly, on the end of each operation day. CDCP ensures the issue integrity through continuous control integrated it the Settlement System. This control ensures that unauthorised creation or deletion of securities is possible, due to multilevel control between the static data of given securities issue and processing of any request for change in data on the securities issue, issuance of securities, transaction settlement.

G11Q045
If the CSD is not the official registrar of the issues held on its books, how does the CSD reconcile its records with official registrar?

PFMI: Q.11.1.6 AGC: n/a

n/a

G11Q046

If the securities held with the CSD are recorded by book-entry at the registrar, what are the control features at the registrar for transfer of registrar positions to and from the CSD (e.g., authentication procedures, reconciliation, confirmation of position at registrar)? Please describe:

n/a

How does the CSD prevent overdrafts and debit balances in securities accounts?

PFMI: Q.11.2.1

CDCP prevents overdrafts through automatic system restriction of transferred securities, i.e. it is not possible to settle the transaction unless the securities to be transferred are on the account of transferor.

Are securities issued or maintained in a dematerialised form? What percentage of securities is dematerialised, and what percentage of the total volume of transactions applies to these securities?

PFMI: Q.11.3.1 AGC: n/a

Yes, CDCP provides services of initial registration of securities in the book-entry securities system ("registration services") only for dematerialised securities. 100% of securities is dematerialises and 100% of the transactions applies to these securities

04/00/0
G11Q049 How are CSD eligible securities held by the CSD?  PFMI: Q.11.3.1 AGC: 50, 50a
✓ In dematerialized form
In certificated form
OTHER:
G11Q050 If securities are issued as a physical certificate, is it possible to immobilise them and allow their holding and transfer in a book-entry system? What percentage of securities is immobilised, and what percentage of the total volume of transactions applies to immobilised securities?  PFMI: Q.11.3.2 AGC: n/a  The CDCP does not provide securities immobilisation services, because such a method of registration of securities is not used in the long term under CDCP conditions. The
national law of the Slovak Republic allows for a change of the form of securities.
G11:0051  If CSD eligible securities are certificated, can CSD eligible securities be held outside of the CSD?  PFMI: 0.11.3.2  AGC: 51
All eligible securities must be held in the CSD
Securities may move freely into and out of the CSD
Once entered into the CSD, eligible securities must remain in the CSD
Certain designated securities may be held outside the CSD
O Not applicable
Other: Generally, if the issue is held in paper form, it is not entered in the registry of the CSD and therefore it is not eligible for CSD operations. For registered shares in paper form, the CSD only administers the lists of shareholders.
G11Q052 If certain designated securities are held outside the CSD, please indicate under which conditions these securities would be held outside the CSD:
PFMI: Q.11.3.2 AGC: 51a

G110067 What incentives, if any, does the CSD provide to immobilise or dematerialise securities?
PFMI: 0.11.3.3 AGC: n/a
CDCP allows only dematerialised form of securities.
G11Q068 How do the CSD's rules and procedures protect assets against custody risk, including the risk of loss because of the CSD's negligence, misuse of assets, fraud, poor administration, inadequate recordkeeping or failure to protect participants' interests in their securities?
PFMI: Q.11.4.1 AGC: n/a
CDCP has stable and functional risk management system, consisting of organisation structure of CDCP with clearly defined responsibility lines, and effective procedures for identification, measuring, monitoring, reporting and managing of risks. Main principles and procedure CDCP applies to risk management and basic organisational framework for risk management are defined in the Risk Management Policy. In connection with confidentiality, integrity and availability of data processed electronically or in other form, CDCP has effective measures for protection of processed data, information systems and all related information assets that are critical for CDCP activities. Information Security Management System is implemented, operated and developed in compliance with internationally recognised standard for Information Systems Security - ISO/IEC 27001. CDCP is ensuring segregation of accounts and assets by use of omnibus and individual client segregation. With regard to securities issue integrity CDCP applies several controls (continual and periodic), has implemented principles of double-entry accounting in connection with transaction settlement and it does not allow debit balance and account overdraft.

### Participant default rules and procedures (PFMI Principle 13)

Summary narrative for PFMI Principle 13. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P13 AGC: n/a

CDCP rules contain all precautions that CDCP will perform in the event of a participant's failure. The precautions include solving of the participant's default, other participants and relevant

authorities and the measures to solve the operating failures.

The participant's default is defined as the situation when insolvency proceedings against participant have started as defined in Article 2 (j) of Directive 98/26/EC. It means a collective measure provided by relevant law of the participant's country or third country with the purpose of liquidation or reorganization of participant where such a measure involves the

temporary suspension or the imposition of a limitation on transfer or payments.

Operating failure is occurrence of incident that prevents a participant from fulfilling the obligations of a participant, unavailability of technical infrastructure of participant's communication service provider, or any other operational problem on the side of the participant.

CDCP measures include the immediate measures (restrictions on participants accounts, management of instructions and transactions affected by default) which might include suspending or limiting access of a failed participant to certain or all services, removing access, withdrawing access, whereas CDCP decision will depend on the assessment of all circumstances of the

or limiting access of a falled participant to Certain of an assistance, forming particular case.

CDCP performs testing of all possibly and available scenarios of a participant's default once a year, respectively in the event of a change in CDCP procedures. The participants are required to participate in the test. The test results are presented to the Risk Manager, the Board of Directors, the User Committee and the national authority.

The roles and responsibilities of each level of CDCP management are documented in internal directive on participant default. The key aspects of CDCP's participants default rules are

Do the CSD's rules and procedures clearly define an event of default (both a financial and an operational default of a participant) and the method for identifying a default? How are these events defined?

Yes. Financial default is defined as: the situation when a bankruptcy procedure against participant has been started as defined in Article 2 (j) of Directive 98/26/EC what means a collective measure provided by relevant law of the participants country or third country with the purpose of liquidation or reorganization of participant where such a measure involves the temporary suspension or limitation on transfer or payments. Operational failure is an existing occurrence that prevents a participant from fulfilling the obligations of a participant or its communications service with technical infrastructure or any other operational problems on the side of the participant.

How do the CSD's rules and procedures address the following key aspects of a participant default: a) the actions that the CSD can take when a default is declared, b) the extent to which the actions are automatic or discretionary, c) changes to normal settlement practices, d) the management of transactions at different stages of processing, e) the expected treatment of proprietary and customer transactions and accounts, f) the probable sequencing of actions, g) the roles, obligations and responsibilities of the various parties, including non-defaulting participants, and h) the existence of other mechanisms that may be activated to contain the impact of a default?

PFMI: Q.13.1.2 AGC: n/a

The CDCP rules include all precautions that CDCP will perform in the event of a participant failure, including informing other participants and relevant authorities on a default participant. CDCP measures include immediate measures (restrictions on participants accounts, management of instructions and transactions affected by default) which may include suspending or limiting access of failed participant to certain or all services, removing access or withdrawing access that CDCP will decide on upon assessment of all circumstances of the particular case. CDCP rules took into account the guidelines from EU supervisors. At the same time, CDCP applies the T2S rules in relation to the participant's failure.

G13Q004 During the past three years, has there been a situation where a participant defaulted which resulted in a significant loss?	
PFMI: Q.13.1.2 AGC: 77	
○ Yes	
<ul><li>No</li></ul>	
O Not applicable	

How was the situation resolved? Or if you answered "Other." then please explain:

C Equally, among participants
O Pro-rata based on participant's volume
Limited to participants with transactions with failing counterparty
G13Q013
Please explain:  PFMI: 0.13.1.4
AGC: 76d  Participant is liable for fulfilment of its obligations. Neither CSD nor its participants are liable for obligations of defaulting participant.
G13Q014  How do the CSD's rules and procedures address the replenishment of resources following a default?
PFMI: Q.13.1.5 AGC: n/a
n/a
G13Q015
Does the CSD's management have internal plans that clearly delineate the roles and responsibilities for addressing a default? What are these plans?  PFMI: Q.13.2.1
AGC: n/a
Yes. The internal directive on participants default clearly describes the roles and responsibilities of each level of CDCP management.

G13Q016
What type of communication procedures does the CSD have in order to reach in a timely manner all relevant stakeholders, including regulators, supervisors and overseers?

PFMI: Q.13.2.2

email, regular post

How frequently are the internal plans to address a default reviewed? What is the governance arrangement around these plans?

CDCP tests the internal plans at least once a year with the participants, respectively more often in case of a change in the internal plan. In the event of inconsistencies during testing, CDCP will update its internal plan to remove them.

How are the key aspects of the CSD's participant default rules and procedures made publicly available? How do they address: a) the circumstances in which action may be taken, b) who may take those actions, c) the scope of the actions which may be taken, including the treatment of both proprietary and customer positions, funds and assets, d) the mechanisms to address an CSD's obligations to non-defaulting participants, and e) where direct relationships exist with participants' customers, the mechanisms to help address the defaulting participant's obligations to its customers'

PFMI: Q.13.3.1

All aspects regarding the participants are publicly available in CDCP Rules of Operation.

How does the CSD engage with its participants and other relevant stakeholders in the testing and review of its participant default procedures? How frequently does it conduct such tests and reviews? How are these tests results used? To what extent are the results shared with the board, risk committee and relevant authorities?

PFMI: Q.13.4.1

CDCP test the participant's failure procedures once a year, respectively in the event of a change in CDCP procedure. Participants are required to participate the testing. The test results are presented to the risk manager, the board of directors, the user committee and the national authority.

What range of potential participant default scenarios and procedures do these tests cover? To what extent does the CSD test the implementation of the resolution regime for its participants?

PFMI: Q.13.4.2 AGC: n/a

CDCP performs testing of all possible and available scenarios of a participant's default.

Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P15

A financial audit is performed annually by an independent Audit company. CDCP has internal processes to assure sufficient own resources to cover possible loss incurred due to risk materialisation. Own resources (incl. retained earnings and reserves) are held in compliance with relevant regulations proportionally to the risks the Company is exposed to. CSD is holding liquid net assets covering 12 months operating expenses in average and in compliance with the regulation, CDCP holds only short time fixed deposits. CDCP has a plan for increase of additional equity if necessary (when assets are below 80% of the capital requirements).

Is a financial audit performed by an Audit Firm, Regulatory Authority, or other external party?

G15Q009 Please specify limit:  PFMI: Q.16.1.1 AGC: 29g.	
G15Q010  How does the CSD verify that these entities have robust accounting practices, safekeeping procedures, and internal controls that fully protect its and its participants' assets?  PFMI: Q.16.1.2  AGC: n/a	
CDCP deposits its own financial asset only in banks, which are regulated entities, supervised, obliged to implement relevant policies and procedures	
G15Q011 How has the CSD established that it has a sound legal basis to support enforcement of its interest or ownership rights in assets held in custody?  PFMI: Q.16.2.1 AGC: n/a	
CDCP deposits its own financial asset only in banks, which are regulated entities, supervised, obliged to implement relevant policies and procedures	
G15Q012  How does the CSD ensure that it has prompt access to its assets, including securities that are held with a custodian in another time zone or legal jurisdiction, in the event of participant default?  PFMI: Q.16.2.2  AGC: n/a	
Only domestic banks are used, own financial assets of CDCP are not held with the foreign custodians.	
G15Q013  How does the CSD evaluate and understand its exposures to its custodian banks? In managing those exposures, how does it take into account the full scope of its relationship with each custodian bank? For instance, does the CSD use multiple custodians for the safekeeping of its assets to diversify exposure to any single custodian? How does the CSD monitor concentration of risk exposures to its custodian banks?  PFMI: Q.16.3.1	
AGC: n/a  CDCP Risk Management procedures include also monitoring and assessing of the financial risks. Risk exposure to the bank is covered as well. CDCP implemented internal guidelines regulating capital adequacy, investment principles and concentration limits.	
G150014  Please describe briefly the arrangements / procedures / facilities you maintain to ensure that eligible securities held at the CSD are handled at least as efficiently as compared to securities held outside the CSD, particularly in relation to income, corporate actions and proxy services.	
PFMI: Q.16.3.1 AGC: 62 not applicable	
IIUL AUUIIUAUIG	

G15Q015
How does the CSD ensure that its investment strategy is consistent with its overall risk management strategy?

PFMI: Q.16.4.1a

All written procedures, investment and risk management policies are reviewed regularly by the relevant employees.

How and to whom does the CSD disclose its investment strategy?

PFMI: Q.16.4.1b AGC: n/a

The Investment Strategy is disclosed to the National Bank of Slovakia (the central bank)

How does the CSD ensure on an ongoing basis that its investments are secured by, or are claims on, high-quality obligors?

CDCP makes its investments in compliance with the investments policy.

G15Q018

How does the CSD consider its overall exposure to an obligor in choosing investments? What investments are subject to limits to avoid concentration of credit risk exposures?

The investments are limited to short terms investments only, are distributed in minimum 3 banks and value is maximum of 40% of total available amount.

PFMI: Q.16.4.3

G15Q019
Does the CSD invest participant assets in the participants' own securities or those of its affiliates?

PFMI: Q.16.4.4 AGC: n/a

No

How does the CSD ensure that its investments allow for quick liquidation with little, if any, adverse price effect?

PFMI: Q.16.4.5

The only investments made are short time fixed deposits and contract conditions.

## Operational risk (PFMI Principle 17)

Summary narrative for PFMI Principle 17. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P17

Operational Risk Management is part of CDCP's risk management system. CDCP identified sources of operational risk in area of IT systems, human resources, from site of the external service providers, in external frauds, natural disasters and external attacks. Operational risk management framework is approved by the Board of Directors and is regularly reviewed. Requirements of the CSDR Regulation and other applicable EU regulations have been implemented into CDCP policies, rules and practice. Activities

connected to the operational risks management are coordinated by the Risk Manager, who reports to the BoD and the Supervisory Board twice a year.

CDCP implemented practices for IT service management according to ITIL and information security standard ISO 27001. Before CDCP implements any major change of the IT systems, or starts to provide new service or product, detailed analysis is made. The operation environment has sufficient capacity to process all received transactions and volume stress-test are made at least annually. Each business process has assigned the recovery time what is reflected in relevant IT systems recovery plans, possible utilisation of secondary processing site is included. Business Continuity and Recovery plans are tested annually.

CDCP monitors operation of the key participants to mitigate related risks and with regard to connectivity of the participants to the CDCP Settlement System, their compliance

with relevant requirements is necessary. With regards to operational risk CDCP is exposed to by the service and utility providers, CDCP is performing detailed risk analyst If identified risk is not acceptable the contract is terminated or not concluded.

Adequacy, effectiveness and reliability of management, operational and information systems and processes are reviewed by the Internal Audit Department. The controls conducted by the Internal Audit are executed according to the plans of internal controls approved by the BoD and the Supervisory Board. The external audits may be performed by the regulator - the National Bank of Slovakia (on its discretion) or by the external independent auditor – ad-hoc, based on CDCP order.

What are the CSD's policies and processes for identifying the plausible sources of operational risks? How do the CSD's processes identify plausible sources of operational risks, whether these risks arise from internal sources (for example, the arrangements of the system itself, including human resources), from the CSD's participants or from external sources?

Operational risk management is an integral part of CDCP's risk management system. For details see answers in the part Comprehensive risk management.

What sources of operational risks has the CSD identified? What single points of failure in its operations has the CSD identified?

PFMI: Q.17.1.2

The plausible sources of operational risks identified by CDCP are IT systems, human resources, external service providers, natural disasters and external attacks.

How does the CSD monitor and manage the identified operational risks? Where are these systems, policies, procedures and controls documented?

PFMI: Q.17.1.3 AGC: n/a

Refer to Q.17.1.1

What policies, processes and controls does the CSD employ that are designed to ensure that operational procedures are implemented appropriately? To what extent do the CSD's systems, policies, processes and controls take into consideration relevant international, national and industry-level operational risk management standards?

All Operational Risk management requirements derived from CSDR Regulation and other applicable EU regulations have been implemented into CDCP policies, rules as well as practice. CDCP implemented internal control mechanisms to ensure compliance with mentioned policies and procedures and to ensure their compliance with relevant regulation.

### G16Q006

What are the CSD's human resources policies to hire, train and retain qualified personnel, and how do such policies mitigate the effects of high rates of personnel turnover or key-person risk? How do the CSD's human resources and risk management policies address fraud prevention?

CDCP has stable and functional system for remuneration /remuneration policy, remuneration committee/, providing for transparent, non-discriminatory and consistent method to set salaries for individual positions/functions. The remuneration policy is compliant with the business strategy, goals, values and long-term interest of the company. Measure preventing the conflict of interest are included (CDCP has separate regulation managing conflict of interests). CDCP adopted internal regulations for e.g. Training and education of employees, Organisation rules, Working regulations. CDCP has separate Human resources department.

How do the CSD's change management and project management policies and processes mitigate the risks that changes and major projects inadvertently affect the smooth functioning of the system?

PFMI: Q.17.1.6

Operational risk management is present in CDCP's change management and project management procedures. Without a detailed risk analysis neither a major change nor new product may be put into life.

G16Q008 How has the board of directors defined the key roles and responsibilities for operational risk management?

PFMI: Q.17.2.1 AGC: n/a

Risk manager is a key person who coordinates all activities in the area of operational risk management and reports to the board of directors as well as the supervisory board. Senior management as well as middle management are regularly involved.

Does the CSD's board explicitly review and endorse the CSD's operational risk management framework? How frequently does the board review and endorse the CSD's operational risk management framework?

Operational risk management framework as a part of comprehensive risk management is endorsed by the board. It reviews the framework semi-annually when the regular risk report is submitted by the Risk Manager.

How does the CSD review, audit and test its systems, policies, procedures and controls, including its operational risk management arrangements with participants? How frequently does the CSD conduct these reviews, audits and tests with participants?

PFMI: Q.17.2.3 AGC: n/a

Policies and procedures (notably BC plans and recovery plans) are tested annually. The operational risk management system is audited every year by internal and external auditors

### G160011

Internal Audit. Is an internal audit undertaken in vour CSD?

PFMI: Q.17.2.3 AGC: 14

### G16Q012

If yes, what areas does the audit cover (financials, operations, etc.) and which department in your CSD handles it?

PFMI: Q.17.2.3

The Internal Audit Department provides assurance on the risk management activities related to ensuring the adequacy and effectiveness of management, operational and information processes and systems in terms of achieving the objectives and tasks of the CSD, reliability and integrity of financial and operational information, efficiency, effectiveness and cost - asset protection and compliance with generally binding legislation, internal regulations, contracts, and recommendations for its improvement.

### G16Q013

Please list the date of your last internal audit and the period that the audit covered:

PFMI: Q.17.2.3 AGC: 14b.

Start date: 08/08/2021 End date: 23/09/2021 Audit date: 06/10/2021

G16Q014
How frequently does the internal audit occur?

PFMI: Q.17.2.3 AGC: 14c.

Two or more times a year

Annually

O Less than annually

G16Q015 If less than annually, please explain:
PFMI: Q.17.2.3
AGC: 14d.
G16Q016

personal ID card	

	G16Q035 Please explain:
	PFMI: Q.17.5.1 AGC: 74a.
	NO. 14d.
	G160036  Do the CSD's policies, processes, controls and testing appropriately take into consideration relevant international, national and industry-level standards for physical security?
	PFMI: Q.17.5.2
	AGC: n/a  Yes, CDCP takes in account relevant international and national standards.
	Yes, ODOP takes in account relevant international and national standards.
	G16Q037  What are the CSD's policies and processes, including change management and project management policies and processes, for addressing the plausible sources of
	information security vulnerabilities and threats on an ongoing basis?
	PFMI: Q.17.5.3
ŀ	AGC: n/a  CDCP has implemented practices for IT service management according to ITIL and information security standards according to ISO 27001 which covers also incident and
	change management and testing procedures. According to information security standards CDCP maintains plans for risk mitigation actions and monitoring activities which are regularly reviewed and updated (4 times per year).
	G16Q038 Regarding data security: Are passwords used by participants to access their accounts?
	PFMI: Q.17.5.3 AGC: 71 71a.
ŀ	AGO, II I I I
	• Yes
	○ No
	Not applicable
	- Tot applicatio
	G160039 Does each user have a unique user ID?
	PFMI: Q.17.5.3
	AGC: 71c.
	Yes
	○ No
	O Not applicable
	G16Q040
	Are passwords regularly changed?  PFMI: Q.17.5.3
	AGC: 71e.
	No.
	Yes
	○ No
	O Not applicable
	G16Q041
	How often?
	PFMI: Q.17.5.3 AGC: 71f.
	annually
	G160042
	Is there a user lock-out after a pre-set number of unsuccessful User ID attempts?  PFMI: 0.17.5.3
	AGC: 71h.
	○ Yes
	O No
	Not applicable
	G16O043
	How many?
	PFMI: O.17.5.3 AGC: 71i.

G160044  Do the CSD's policies, processes, controls and testing appropriately take into consideration relevant international, national and industry-level standards for information security?
PFMI: Q.17.5.4
AGC: n/a Yes, please refer to Q 540.
G160045  How and to what extent does the CSD's business continuity plan reflect objectives, policies and procedures that allow for the rapid recovery and timely resumption of critical operations following a wide-scale or major disruption?
PFMI: Q.17.6.1 AGC: r/a
CDCP categorizes all its processes. For every business process max allowed "return to operation time" is assigned and this is reflected in relevant IT systems recovery plans and processes in order to resume of critical operations following any disruption.
G160046  How and to what extent is the CSD's business continuity plan designed to enable critical IT systems to resume operations within two hours following disruptive events, and to enable the CSD to facilitate or complete settlement by the end of the day even in extreme circumstances?
PFMI: Q.17.6.2 AGC: n/a
All critical CDCP's business processes are identified and relevant IT systems recovery plans and processes are designed with the aim to resume operations within two hours after disruptive events and complete settlement by the end of the day.
G160047 How quickly can the main system be reactivated in the event of an outage?  PFMI: Q.17.6.2

n/a
G16Q069 In the past three years, has it been necessary to activate the recovery plan in a live situation?
PFMI: Q.17.6.8 AGC: 85
○ Yes
<ul><li>No</li></ul>
O Not applicable
G16Q070
If yes, how much time was needed to implement the recovery plan?  PFMI: 0.17.6.8
AGC: 85a.
O Less than 1 hour
0 1 - 2 hours
O Legacities Abouts
O Longer than 4 hours

G16Q071 How much time was needed to recover and restore business to normal operations?
PFM: Q.17:6.8 AGC: 85b.
0 1 - 4 hours
○ 4 - 8 hours
0 8 - 24 hours
C Longer than 24 hours
G160072 What was the impact to the market?
PFM: Q.17.6.8 AGC: 85c, 85d.
All securities settlements took place as scheduled on the same day with good value
All cash settlements took place as scheduled on the same day with good value
All securities settlements took place one business day late with good value
All cash settlements took place one business day late with good value
All securities settlements took place one business day late with value one day late
All cash settlements took place one business day late with value one day late
All securities settlements took place more than one business day late
All cash settlements took place more than one business day late
As a result of the system failure, all fines and penalties for late settlements were waived
Even though there was a system failure, all fines and penalties for late settlements were still assessed
✓ OTHER: no applicable
G16Q073 If no or other, please explain
PFM: Q.17.7.4 AGC: 40a.
G16Q074
What risks has the CSD identified to its operations arising from its key participants, other CSD, and service and utility providers? How and to what extent does the CSD monitor and manage these risks?
PFM: Q.17.7.1 AGC: n/a
Operational failure has been identified as a risk arising from key participants and CSDs. Therefore CDCP monitors operations of key participants and requires measures to be applied in terms of their connectivity to CDCP Settlement System and their participation on the failure testing.
Service and utility providers, namely key providers, expose CDCP to operational risks. Any arrangement undergos detailed risk analysis. If an unacceptable risk exposure has been recognized, the contract is refused or terminated and an alternative provider is searched for.
G160075 Are precedures and controls (firewalls) in place to avoid systemic collapse or contamination if one of the linked antities should experience business interruntions for whatever
Are procedures and controls (firewalls) in place to avoid systemic collapse or contamination if one of the linked entities should experience business interruptions for whatever reason?
PFMI: Q.17.7.1 AGC: 39
✓ Yes
□ No
☐ Not applicable
G16Q076 Please explain
PFMI: Q.17.7.1 AGC: 39a
Yes, there are two firewalls in place. Logs are reviewed on regular basis.
G160077 If the CSD has outsourced services critical to its operations, how and to what extent does the CSD ensure that the operations of a critical service provider meet the same reliability and contingency requirements they would need to meet if they were provided internally?
PFMI: 0.17.7.2 AGC: n/a
SLA parameters are defined in all contracts with critical service providers.

G160078  How and to what extent does the CSD identify, monitor and mitigate the risks it may pose to another FMI?

Access and participation requirements (PFMI Principle 18)	
Summary narrative for PFMI Principle 18. Please provide a summary narrative disclosure with sufficient detail and context, as well information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be including the principle.	ng questions as guidance for the points of

PFMI: Annex A - CSD disclosure template - IV.P18

CDCP has established legal, operational and financial criteria for access of participant. Criteria have been determined as measures to mitigate the potential risks of external entity – applicant for participation – on CDCP and its clients. The scope of entities that may become participants in the securities settlement system of CDCP is set by EU regulation. Legal criteria are established to demonstrate the applicant's legal status for granting the access and authorisation to access individual types of services, existence of an applicant as the entity, non-applicability of international sanctions, information on how confidentiality and data protection is ensured by the applicant and information that allows CDCP to assess the applicant from AML point of view. Operational criteria are established to allow CDCP to assess the applicant is operational capacity, adequacy of its operational risk management system and business continuity arrangements, the adequacy of its IT tools and communication with CDCP in connection with execution of activities as CDCP participant, management of the applicant's conflict of interest, arrangement of information safety by the applicant and the existence of necessary identification codes in order to identify the participant in the CDCP's system or for reporting purposes. Financial criteria are established to assess the applicant's ability to meet its contractual obligations towards CDCP and to perform activities of the participant. All access criteria are assessed by CDCP prior to granting the access of participant to the securities settlement system. The applicant will be granted the access to the settlement system only if it meets all participation criteria and it does not pose any material risks to CDCP and its clients. Participants must meet participation criteria on an ongoing basis. CDCP is authorised to regularly assess compliance of the participants with the participation criteria, this is done with annual frequency. The Participants are bound by the rules of CDCP and the agreement on participation to report any non-compliance with the participation criteria without any delay. Should CDCP itself identify any non-compliance with the participation criteria it may take remedial measures defined by the Rules of Operation of CDCP. The participation criteria are open and non-discriminatory and are publicly available on the CDCP's website to any interested party.

G17Q002
What are the CSD's criteria and requirements for participation (such as operational, financial and legal requirements)?

Legal criteria: existence of legal status for granting the access of participant; authorisation for access to individual types of services; identification of a supervisory body in case of an applicant from non-EU country; non-applicability of international and European sanctions to the applicant; information on confidentiality and data protection; AML; fulfilment of other legal requirements for granting the access of participant. Operational criteria: sufficient operational capacity; functional operational risk management system; risk management of the applicant which has access through an authorised participant (if applicable); management of conflict of interest; business continuity; BIC code, LEI code, MIC code in case of trading venue, appropriate IT tools and communication with CDCP, participation in testing of IT systems; information safety; meeting other operational requirements for granting the access of participant. Financial criteria: sufficient financial resources for meeting the contractual obligations; sufficient financial resources for execution of activities of a participant.

G17Q003 Are prospective participants subject to an initial review and approval process regarding compliance with eligibility requirements?
PFMI: Q.18.1.1 AGC: 19
• Yes
○ No
O Not applicable

G17Q004

How do these criteria and requirements allow for fair and open access to the CSD's services, including by direct and, where relevant, indirect participants and other CSD?, based on reasonable risk-related participation requirements?
PFMI: Q.18.1.2 AGC: n/a
Most of the participation criteria set by CDCP are risk-related, transparent - are publicly available on CDCP web site (in the Rules of Operation and the Executory Decree No.3, including the requirements on demonstration of participation criteria) and non-discriminatory - requirements and fees are not based on size or origin of the applicant.
G17Q005  How are the participation requirements for the CSD justified in terms of the safety and efficiency of the CSD and its role in the markets it serves, and tailored to and commensurate with the CSD's specific risks?
PFMI: Q.18.2.1 AGC: n/a
The participation criteria were set as mitigation measures in order to minimise the risks that CSD and its clients might be exposed to by the external entities - i.e. by the participants.
G17Q006 Are there participation requirements that are not risk-based but required by law or regulation? If so, what are these requirements?
PFMI: Q.18.2.2 AGC: n/a
Yes - provision of a BIC, LEI and MIC code;
G17Q007 What governs the relationship between the CSD and the participants?
PFMI: Q.18.2.2
AGC: 20
Relevant law and regulation
Standard participation contract
Established terms and conditions of participation
By-laws of the CSD
Rules of the CSD
Not applicable
OTHER:
G170008 Please explain:
PFMI: Q.18.2.2 AGC: 20a
n/a
G17Q009
Are all classes of participants subject to the same access criteria? If not, what is the rationale for the different criteria (for example, size or type of activity, additional requirements for participants that act on behalf of third parties, and additional requirements for participants that are non-regulated entities)?
PFMI: Q.18.2.3 AGC: n/a
No, but the differences between participation criteria are minimal and they apply to one specific class of applicants for access (other market infrastructure).
G17Q010 PARTICIPANTS AND PARTICIPATION. The purpose of this section is to understand issues relating to participation in the CSD, including eligibility requirements, conditions of participation, and supervision of participants. What types of entities are eligible to become participants and how many of each type are there currently?
PFMI: Q.18.2.3 AGC: 17, 17q
✓ Banks
✓ Brokers
☐ Individuals
Foreign Institutions

G170045
What are the CSD's policies for conducting enhanced surveillance of, or imposing additional controls on, a participant whose risk profile deteriorates?
PFMI: Q.18.3.2 AGC: n/a
A manager responsible for identification and monitoring of risks within his/her competence should identify the risks on a continuous basis and during regular assessment of participant's compliance with the participation criteria. The manager should enter any identified risk in the catalogue of risks. Catalogue of risks contains also proposed measures for mitigation of the risk exposure to the acceptable level or description of measures that are being implemented and the status of their implementation. If the manager identifies an increase of the risk level during the continuous identification and measuring the risks resulting from access of participant, he/she informs the risk manager. If at the same time the breach of the Rules of Operations is identified, it is reported to the Committee for measures and sanctions of CDCP and it is further dealt with by this committee. The same procedures apply also in case of regular assessment of compliance with the participation criteria.
G17Q046 What are the CSD's procedures for managing the suspension and orderly exit of a participant that breaches, or no longer meets, the participation requirements?
PFMI: 0.18.3.3 AGC: n/a
Suspension of access to services or exit of participant are the measures that can be imposed by CDCP in compliance with its Rules of Operations in case that any other measures imposed on participant were not fulfilled. Details of suspension of access to services are specified in the Rules of Operation, part II Article 14 and the details of withdrawal of access of participant are specified in Article 16. Both measures can be proposed by the Committee for measures and sanctions of CDCP and they must be approved by the Board of Directors. Suspension of access to services can apply to all services or part of services that participant executes pursuant to granted access and depending on the reason of suspension. Suspension of access to services can be imposed on participant for a limited period of one year. From the moment when the withdrawal of the participant's access becomes effective, the participant is obligated to settle all his obligations that resulted from provision of services to which it was granted the access. From this moment the participant is authorised to execute only the actions that lead to settlement of his obligations resulting from his position of participant or actions stipulated in the Rules of Operation. The participant has to transfer the assets of clients/owners of accounts kept with another CSD or another participant of the CSD. Participant is not authorised to process the new instructions or to submit requests for services unless otherwise stipulated by the Rules of Operation.
G17C047 What enforcement actions are available to the enforcement authority?  PFMI: Q.18.3.3 AGC: 24
Fines
Restrictions on participation
Suspension of participation

of access to services (all mentioned measures precede the final measure that is termination of participation).
G170049 Has there been any such enforcement actions in the last three years?
PFMI: Q.18.3.3 AGC: 25
O Yes
● No
G170050 If yes, please explain, including information relative to any suspensions of CSD participants:
PFMI: Q.18.3.3
AGC: 25a.

How are the CSD's procedures for managing the suspension and orderly exit of a participant disclosed to the public?

PFMI: Q.18.3.4

Suspension of a participant is publicly disclosed on the day of approval of such decision by CDCP; it is disclosed by means of publishing the announcement on the CDCP's website. Withdrawal of access (i.e. exit of participant) is announced by CDCP to all participants, other market infrastructures that have been granted access to CDCP and to regulator and this fact is also published on the CDCP's website.

### Tiered participation (PFMI Principle 19)

Summary narrative for PFMI Principle 19. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P19 AGC: n/a

CDCP does not recognise concept of an indirect participantion in its rules; nevertheless clients of CDCP direct participants should be disclosed to CDCP when instructions of the participant's clients processed by the participant reach certain percentage on total volume/value of instructions processed by direct participant.

G18Q002

Does the CSD have any tiered participation arrangements? If so, describe these arrangements.

PFMI: Q.19.1.1 AGC: n/a

No.

How does the CSD gather basic information about indirect participation? Which information is collected and how frequently is it updated?

PFMI: Q.19.1.2

The information on clients of direct participants is collected through the participants if participant exceeds some limits on transaction volumes and values instructed by the clients of participant. Data is updated semi-annually and information on the participant's client contains: its commercial name, registered seat, company ID number, BIC, LEI, percentage of volume and/or value of settled instructions of participant's client contains. Its common tall and/or value of instructions settled by the participant in assessed period. Details on limits are included in the Executory Decree No.4 to the Rules of Operation.

G18Q004

How does the CSD evaluate its risks arising from these arrangements?

PFMI: Q.19.1.3

AGC: n/a

G18Q005
What material risks to the CSD arising from tiered participation arrangements has the CSD identified? How has it mitigated these risks?

PFMI: Q.19.1.4

n/a

How does the CSD identify material dependencies between direct and indirect participants that might affect the CSD?

PFMI: Q.19.2.1

AGC: n/a

By analysing the settled instructions submitted by the clients of participants.

Has the CSD identified (a) the proportion of activity that each direct participant conducts on behalf of indirect participants in relation to the direct participants' capacity, (b) direct participants that act on behalf of a material number of indirect participants, (c) indirect participants responsible for a significant proportion of turnover in the system, and (d) indirect participants whose transaction volumes or values are large relative to the capacity of the direct participant through which they access the CSD to manage risks arising from these transactions?

PFMI: Q.19.3.1 AGC: n/a

a) Yes;

b) No:

c) No:

d) No

What risks to the CSD arise, and how does the CSD manage these risks arising from key indirect participants?

PFMI: Q.19.3.2 AGC: n/a

n/a

What are the CSD's policies for reviewing its rules and procedures in order to mitigate risks to the CSD arising from tiered participation? How frequently is this review conducted?

PFMI: Q.19.4.1

n/a

G18Q010
What criteria does the CSD use to determine when mitigating actions are required? How does the CSD monitor and mitigate its risks?

PFMI: Q.19.4.2

### Links (PFMI Principle 20)

Summary narrative for PFMI Principle 20. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P20 AGC: n/a

When creating a link with the investor CSD, CDCP conducts assessment of the requesting CSD against participation criteria and it follows the same procedure as in case of admitting the participant. CDCP grants access to its settlement system to requesting CSD if all participation criteria have been met and if the applicant does not pose any risks to CDCP and its clients that would be deemed unacceptable. In case CDCP as the investor CSD considers to create a link with an issuer CSD, CDCP first makes a due dilligence of the issuer CSD that creates a basis for assessment of risks resulting from potential link for CDCP and its clients. Potential risks are assessed by the respective departments and in general they cover legal, operational and financial risks. If no unacceptable risks were identified, CDCP shall submit the application for participation in the settlement system to the issuer CSD. The link has to comply with requirements on CSD links stipulated by the CSDR regulation.

What process is used to identify potential sources of risk (such as, legal, credit, liquidity, custody and operational risks) arising from prospective links? How does this affect the CSD's decision whether to establish the link?

Relevant heads of departments of CDCP assess the information and documents provided by the other CSD and evaluate the risks stemming from the future link based on the catalogue of risks maintained by each department. The process is ruled by the internal directive regulating the management of risks of access of participant and CSD links.

G19Q003
What links have been established with other CSD? How does the CSD identify, monitor and manage the risks arising from an established link on an ongoing basis?

PFMI: Q.20.1.2

CDCP currently has four links with investor CSDs. Risks undertaken in the links are monitored and managed according to standard procedure applicable to risk management at CDCP

### G190004

Please list all depositories or settlement systems to which you have an electronic link.

PFMI: Q.20.1.2 AGC: 38

None

How does the CSD ensure that link arrangements are designed so that it is able to remain observant of the other principles? How frequently is this analysis conducted?

PFMI: Q.20.1.3

CDCP currently maintains standard links pursuant to the Rules of Operation of CDCP and the agreement on CSD link, Applicable PFMI principles have been implemented by CSDR regulation. Compliance of rules and procedures of CDCP with legislation is monitored by the Compliance Department. Analysis of compliance is done prior to any change in the link arrangement or prior to any change of legislation. According to CSDR the link arrangements are reviewed annually.

In which jurisdictions has the CSD established links? What are the relevant legal frameworks supporting the established links?

PFMI: Q.20.2.1

n/a

### G190007

How does the CSD ensure that its links have a well founded legal basis that support its design and provide it with adequate protection in all relevant jurisdictions? How does the CSD ensure that such protections are maintained over time?

As an issuer CSD, CDCP concludes a special agreement on link with investor CSD. The agreement is ruled by domestic legislation only.

G19Q008
What processes are in place to measure, monitor and manage credit and liquidity risks arising from any established links?

PFMI: Q.20.3.1 AGC: n/a

n/a

If a CSD extends credit to a linked CSD, what processes exist to ensure that credit extensions to the linked CSD are fully covered by high-quality collateral and that credit limits are appropriate?

PFMI: Q.20.3.2 AGC: n/a

n/a

Are provisional transfers of securities allowed across the link? If so, what arrangements make provisional transfers necessary, and is the retransfer of these securities prohibited until the first transfer is final?

Nο

G19Q011

For any established link, how has the investor CSD determined that the rights of its participants have a high level of protection?

Investor CSD is entitled to disclose the legal and operational terms and conditions of the link to its participants in order to allow them to assess and manage the risks involved

G19Q012

How frequently is reconciliation of holdings conducted by the entities holding the securities in custody?

PFMI: Q.20.5.2 AGC: n/a

Daily

How does the investor CSD provide a high-level of protection for the rights of its participants (including segregation and portability arrangements and asset protection provisions for omnibus accounts)?

PFMI: Q.20.5.3

If the CSD uses an intermediary to operate a link, what are the criteria used by the CSD to select the intermediary or intermediaries? Are these criteria risk-based?

PFMI: Q.20.6.1 AGC: n/a

The CSD that submitted an application for access to CDCP can appoint only an intermediary that is already a CDCP participant. The participant is subject to the same participation criteria set by CDCP as criteria applicable to the CSD.

What are the respective liabilities of the two linked CSDs and the intermediaries?

PFMI: Q.20.6.2 AGC: n/a

Liabilities of linked CSD are detailed in the agreement on CSD link and agreement with the intermediary.

What processes exist to measure, monitor and manage the risks arising from use of the intermediary?

PFMI: Q.20.6.3

If the CSD linked to CDCP uses an intermediary, according to CSDR the linked CSD has to manage the risks arising from such an arrangement. These processess are not disclosed in detail to CDCP.

### Efficiency and effectiveness (PFMI Principle 21)

Summary narrative for PFMI Principle 21. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P21 AGC: n/a

CDCP structure, systems and processes are compliant with the requirements of EU and national legal regulations, relevant international standards are applied where suitable. The Internal Audit Department provides assessment and consultancy that helps to increase the added value and to improve the business activities of CDCP; it also helps CDCP to maintain the efficient control mechanisms by assessment of their effectivity and efficiency. The IA Department gives assurance on efficiency and effectiveness of management, operation and information processes and systems in relation to achievement of CDCP goals, reliability and integrity, assets protection and compliance with legal or internal regulations, it evaluates effectiveness of risk management processes. Where necessary the department proposes improvements of the

processes, procedures and systems.

All changes in processes and information systems and also implementation of new services is discussed with the participants via the User Committee, what helps CDCP to understand needs of its clients; on the other side the User Committee can propose changes to the CDCP operation systems and services. The IA Department informs the User Committee on result of the audit in certain cases: if finding relates to processes that have impact on the users of the central depository, including access of the issuers or participants to the CSD securities settlement system, and if finding can impact provision of services, incl. business continuity

How does the CSD determine whether its design (including its clearing and settlement arrangement, its operating structure, its delivery systems and technologies, and its individual services and products) is taking into account the needs of its participants and the markets it serves?

CDCP provides all main services according to the CSDR so they meet requirements and needs of the market. Also it is the right of the User Committee to submit the proposals for change. All changes in the CDCP Rules of Operation and to the IT system are presented and communicated with the User Committee (the participants). CDCP also implements new regulatory requirements and observes international standards (e.g. communications standards).

AGC and PFMI answers World Forum of CSDs How does the CSD determine whether it is meeting the requirements and needs of its participants and other users and continues to meet those requirements as they change (for example, through the use of feedback mechanisms)? PFMI: Q.21.1.2 AGC: n/a Monitoring of regulatory requirements and participants' requirements. G20Q004
What are the CSD's goals and objectives as far as the effectiveness of its operations is concerned? PFMI: Q.21.2.1 To deacrease risk exposure and increase the effectiveness of operations are two main goals of the new CDCP Strategy fro the period 2021 - 2023. Continual increasing of the effectivenes of operations through digitization of services and implementation of new or improved services is essential. How does the CSD ensure that it has clearly defined goals and objectives that are measurable and achievable? PFMI: Q.21.2.2 By monitoring the strategy, regulatory requirements and market requirements. To what extent have the goals and objectives been achieved? What mechanisms does the CSD have to measure and assess this? PFMI: Q.21.2.3 AGC: n/a G200007
What processes and metrics does the CSD use to evaluate its efficiency and effectiveness? PFMI: Q.21.3.1 AGC: n/a G20Q008
How frequently does the CSD evaluate its efficiency and effectiveness? PFMI: Q.21.3.2 AGC: n/a G20Q009 filecount - Add relevant appendices for this group 0 Communication (PFMI Principle 22) Summary narrative for PFMI Principle 22. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the PFMI: Annex A - CSD disclosure template - IV.P22 CDCP uses ISO20022 in communication with T2S which is fully accepted as a standard. Communication between CDCP and it's participants via CDCP system is based on ISO20022 as well, however messages in this channel were complemented with proprietary elements and messages which are needed for Slovak market due to market practice and legislative reasons. CDCP also uses ISO150022 for some messages. Does the CSD use an internationally accepted communications procedure and, if so, which one(s)? If not, how does the CSD accommodate internationally accepted communication procedures? PFMI: Q.22.1.1

Yes, is based on ISO20022 and ISO150022 (for some messages). See explanation above.

Security Control. How do participants receive information (view actual settlement of trades, movement of securities on their accounts, etc.) and see the status of their accounts? # Transparency and disclosure (PFMI Principle 23)

Summary narrative for PFMI Principle 23. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the

PFMI: Annex A - CSD disclosure template - IV.P23

With respect to transparency and disclosure, CDCP distinguishes two types of information: information available to public, e.g. the Rules of Operation, Scale of Fees, Annual Report, statistics, Governance and Management System, Risk management policy, and information available to the participants, i.e. information published on the web page but protected with the password. The documents governing processes, procedures, access conditions and requirements are discussed with the Participants (via the User Committee) before these are approved and published. The User Committee convenes usually quarterly to discuss changes in the services and rules, the Scale of Fees, Annual Report, statistics, Governance and Management System, Risk management policy, and information available to the participants, i.e. information published on the web page but protected with the password. The documents governing processes, procedures, access conditions and requirements are discussed with the Participants (via the User Committee) before these are approved and published. The User Committee convenes usually quarterly to discuss changes in the services and rules, the Scale of Fees, Annual Report, statistics, Governance and Management System, Risk management policy, and information available to the participants, i.e. information published on the web page but protected with the password. The documents governing processes, procedures, access conditions and requirements are discussed with the Participants, i.e. information information published on the web page but protected with the password. The documents governing processes, procedures, access conditions and requirements are discussed with the Participants, i.e. information information information published on the web page but protected with the password. The documents governing processes, procedures, access conditions and requirements are discussed with the Participants, i.e. information information information published on the web page but protected with the password. The documents govern

What documents comprise the CSD's rules and procedures? How are these documents disclosed to participants?

The CDCP Rules of Operation including the Executory Decrees and, in case of some services, also the general terms and conditions are publicly available on the CDCP website

How does the CSD determine that its rules and procedures are clear and comprehensive?

CDCP takes into account the legal regulations, regulatory requirements and market requirements so that its rules and procedures can fully address all CDCP activities.

What information do the CSD's rules and procedures contain on the procedures it will follow in non-routine, though foreseeable, events?

PFMI: Q.23.1.3

CDCP Rules of Operation contain information on procedures mainly in the following events: failure of a participant, participant in crisis situation, withdrawal of access of participant, T2S operation recovery. More detailed information is provided in Executory Decree no 1. Communication of the Participant and other Market Infrastructure with IS CDCP and Executory Decree no 2: Procedure details in provision of services during the operational failure of a person with granted access.

How and to whom does the CSD disclose the processes it follows for changing its rules and procedures?

PFMI: Q.23.1.4 AGC: n/a

CDCP Rules of Operation are always discussed with the User Committee before approval of relevant changes and updated version is disclosed 15 days before coming into

How does the CSD disclose relevant rules and key procedures to the public?

By publishing them on the CDCP web site

What documents comprise information about the system's design and operations? How and to whom does the CSD disclose the system's design and operations?

PFMI: Q.23.2.1

The elementary rules for operating the settlement system are included in the CDCP Rules of Operation. CDCP also provides the paricipants with relevant manuals regarding the system's design and operation.

How and to whom does the CSD disclose the degree of discretion it can exercise over key decisions that directly affect the operation of the system

PFMI: Q.23.2.2

Major changes in the IT system, the Rules of Operation or the Scale of Fees are discussed with the Participants (the User Committee)

What information does the CSD provide to its participants about their rights, obligations and risks incurred through participation in the CSD?

PFMI: Q.23.2.3 AGC: n/a

This information is provided in the Rules of Operation of CDCP as well as in the agreement between the participant and CDCP.

How does the CSD facilitate its participants' understanding of the CSD's rules, procedures and the risks associated with participating?

PFMI: Q.23.3.1

CDCP provides training to participants that facilitates understanding of the documents.

Is there evidence that the means described above enable participants' understanding of the CSD's rules, procedures and the risks they face from participating in the CSD?

PFMI: Q.23.3.2

n/a

In the event that the CSD identifies a participant whose behaviour demonstrates a lack of understanding of the CSD's rules, procedures and the risks of participation, what remedial actions are taken by the CSD?

PFMI: Q.23.3.3 AGC: n/a

In the event that the conduct of participant does not constitute a serious violation when it comes to applying measures and sanctions, it alerts the participant to misconceptions.

Does the CSD publicly disclose its fees at the level of its individual services and policies on any available discounts? How is this information disclosed?

Yes, all fees of individual services are specified in the Scale of Fees published on the web site.

How does the CSD notify participants and the public, on a timely basis, of changes to services and fees?

PFMI: Q.23.4.2

In the event of change in fees the updated version of the Scale of Fees is published on the CDCP website 15 days before coming into effect and discussed with the participants prior to their approval.

Does the CSD provide a description of its priced services? Do these descriptions allow for comparison across similar CSD??

PFMI: Q.23.4.3

The Scale of Fees distinguishes the services and allocates the fee to each service.

G22Q016

Does the CSD disclose information on its technology and communication procedures, or any other factors that affect the costs of operating the CSD?

PFMI: Q.23.4.4 AGC: n/a

The description of technology and communication system is included in the Executory Decree No. 1 on Communication of Participant and Other Market Infrastructure with IS CDCP that creates the part of the CDCP Rules of Operation is the Executory Decree No. 1 on communication of participant and other market infrastructure with IS CDCP. This document is publicly available on the CDCP website.

When did the CSD last complete the PFMI Disclosure framework for financial market infrastructures? How frequently is it updated? Is it updated following material changes to the CSD and its environment and, at a minimum, every two years?

In accordance with the requirements of the CSDR Regulation, CDCP discloses documents such as the Rules on Operation, Scale of Fees, Business terms and conditions, Complaints Procedures, Conflict of interest, Note on Segregation of Assets, Risk Management Policy, AML Policy and other documents; some of these are published in the

The WFC Disclosure form was completed for the last time in November 2021 - AGC and PFMI part. It is updated annually.

What quantitative information does the CSD disclose to the public? How often is this information updated?

PFMI: Q.23.5.2

Monthly and Annual Statistics, Annual Report and Key Performance Indicators (KPIs). Report on KPIs is published monthly.

G22Q019
What other information does the CSD disclose to the public?

PFMI: Q.23.5.3 AGC: n/a

password protected area of the website intended only for participants to access.

Capital. Are annual financial statements publicly disclosed?

Yes

PFMI: Q.23.5.3 AGC: 13

O No

Relevant RSSS recommendations
G24Q001  Confirmation of trades between direct market participants should occur as soon as possible after trade execution, but no later than trade date (T+0). Where confirmation of trades by indirect market participants (such as institutional investors) is required, it should occur as soon as possible after trade execution, preferably on T+0, but no later than T+1.
PFMI: 2 - Trade confirmation AGC: na
In trades concluded in the trading venue system, the T + 0, respectively T +1 cycle is used.
G240002 Rolling settlement should be adopted in all securities markets. Final settlement should occur no later than T+3. The benefits and costs of a settlement cycle shorter than T+3 should be evaluated.
PFMI: 3 - Settlement cycles AGC: n/a
The T + 2 cycle is used (applied to trades concluded at trading venues, resp. If so agreed between the parties in transactions concluded outside of a trading venue).
G240003 Securities lending and borrowing (or repurchase agreements and other economically equivalent transactions) should be encouraged as a method for expediting the settlement of securities transactions. Barriers that inhibit the practice of lending securities for this purpose should be removed.
PFMI: 5 - Securities lending AGC: n/a
AUU. 182 CDC9 does not provide Securities landing/barraying sequice

G24Q004

Securities should be immobilised or dematerialised and transferred by book entry in CSDs to the greatest extent possible.
PFMI: 6 - Central securities depositories (CSDs) AGC: n/a
All securities registered and held in CDCP are in dematerialised form and it is stipulated by law that all book-entry securities are settled in the securities central depository.
G24Q005 Entities holding securities in custody should employ accounting practices and safekeeping procedures that fully protect customers' securities. It is essential that customers' securities be protected against the claims of a custodian's creditors.
PFMI: 12 - Protection of customers' securities AGC: n/a
CDCP keeps registry of data on securities and accounts which make possible to each participant to segregate securities of the participant from securities of clients of the participant, from securities of other participant and from securities in ownership of CDCP. In compliance with article 38 of CSDR, CDCP is providing to the participants options to select and use omnibus client segregation and individual client segregation. In case of individual clients segregation special condition of membership granted to the participant must be fulfilled.
