1. Introductory Word of the Managing Director

Dear Ladies and Gentlemen,

we may consider the year 2021 as difficult, but also successful and remarkable for Centrálny depozitár cenných papierov SR, a.s. ("CDCP" or "central depository") for several reasons. As regards the value of book-entry securities, we have exceeded the level of 100 billion EUR. We achieved the economic result after taxation in amount of 6 million EUR. It means that also this year we can pay dividends to our shareholder - Burza cenných papierov in Bratislava, a.s. (BCPB). The economic result was markedly influenced by cancelled provisions for major legal disputes, that we are successfully eliminating gradually. Despite decrease in revenues, compared to 2020, and apart from the impact of cancelled provisions, we achieved profit of 0.8 million EUR.

Regardless of continuing COVID-19 pandemic we maintained stable operation and ensured stable provision of the central depository services.

We successfully realised the depositories unification project, met the specified deadlines and from 15 November 2021 CDCP provides services also to clients whose assets were transferred from Národný centrálny depozitár cenných papierov, a.s. (hereinafter "NCDP") to CDCP, as the single central securities depository on the Slovak market.

We also accomplished implementation of the penalty mechanism, what will assist in achieving a higher settlement discipline. The penalty mechanism was put to operation after performing the dry-run tests with our settlement system participants. Additionally, we are proceeding with implementation of digitisation and automation of processes.

I would like to thank to all clients who decided to use our services during the last year and this way loyally support functionality of basic infrastructures of the capital market. I also want to extend thanks to all colleagues from CDCP for accepting necessary measures flexibly and responsibly and for their contribution to achieved results. Recognition belongs also to colleagues from the Board of Directors and the Supervisory Board for constructive co-operation. We are grateful to the NBS for placing trust in us and for support from our shareholder - Burza cenných papierov in Bratislava, a.s. This calls for our responsibility also in the future. It's my privilege and honour to co-operate with competent team, dedicated to the company. Thanks to you, today I can proudly present achieved results and view the future with optimism.

Yours faithfully

A handwritten signature in blue ink, consisting of a stylized 'M' followed by 'Wiedermann'.

Martin Wiedermann
Chairman of the Board and the Managing Director of CDCP

2. Core Activities

2.1. Processing of Transfer Instructions

During 258 operating days in 2021, the total value of transfers reached 49 494 million EUR, what represented decrease by 22.46 % compared to the year 2020. The average daily value of processed transfers reached 192 million EUR. On the contrary, the number of transfers increased by almost 251.67 % (53 246 transfers) compared to the year 2020. The daily average raised to 206 transfers.

2.2. Value of Securities in CDCP Registry

2.2.1. Year-end Balance in Owner's Accounts

As of 31 December 2021, the book-entry securities with the total nominal value of 102 304 million EUR were held in the owners' accounts, clients' accounts and holders' accounts. The highest share of that value was represented by bonds in the total value of 64 115 million EUR. The total value of shares registered in the accounts was 37 615 million EUR and the value of the other securities, which include also issues of government treasury bills, reached total value of 484 million EUR. Total number of issues of book-entry shares issued in CDCP as of 31 December 2021 amounted to 2 073 issues. The number of issues of bonds was 571, and 223 issues of co-operative units were registered. The number and value of issues of book-entry units of the unit trust did not change in the course of the year 2021 - 16 issues with the total value of 3.35 million EUR were registered. In the category of Other Securities was registered 55 issues at the end of December 2021.

The total value of book-entry securities issued in CDCP increased by 8.04 % compared to the previous year, and the increase expressed in the nominal value equals 7 613 million EUR. In the year 2021, the biggest increase was recorded in value of the bonds which rose by 8 920 million EUR. The nominal value of Other securities dropped by 1 968 million EUR. Value of issues of book-entry shares increased by 660.8 million EUR and the value of co-operative units fell by 0.05 million EUR. In 2021 the units of the unit trust did not show any change compared to the previous year and their value was 3.35 million EUR.

2.3. Issuer's Registers, Lists of Shareholders and Other Services

2.3.1. Administration of Issuer's Registry

As of 31 December 2021, CDCP kept issuer's register for 1 641 issuers of book-entry securities and in a special registry is registered an issue for one foreign issuer. Out of the mentioned number of issues issued by domestic issuers at least one security was credited to the owner's account, client account or holder's account. The number of issuers for whom CDCP administered an issuer's register increased by 227 (16.05 % y-o-y) compared to 2020.

2.3.2. Issuers of Physical Shares

In 2021, the central depository administered a list of shareholders for 3 931 issuers of paper-form shares, which represents an increase by 229 issuers (increase by 6.19 % y-o-y) compared to the previous year.

Issuer's Registers and Lists of Shareholders	2021	2020	2019
Number of Issuers for whom the CDCP administers the issuer's register	1 641	1 414	1426
Number of Issuers of registered paper shares for whom the CDCP administers the List of Shareholders	3 931	3 702	3681

2.3.3. Services based on Written Request

In the year 2021, CDCP handled a total of 11 376 written requests concerning birth registration number or Company ID submitted by authorised persons pursuant to the Article 110 of Act No.566/2001 Coll. on Securities and Investment Services as amended. This figure involves requests by the courts, executors, requests delivered from PF/NBS/NSA and tax and customs offices to which the services are provided free of charge. Compared to 2020, CDCP handled 4 124 requests less what makes a year-on-year decrease by 26.61 %.

In the year 2021, CDCP also handled a total of 16 985 written requests submitted by natural persons and legal entities for the services such as change in owner, account statement or change in personal data and the like.

3. CDCP Information Systems

In the year 2021, CDCP ensured that services of IT systems essential for provision of services to the clients were available and reliable all the year round. As regards innovation and development, services for Simple Joint-stock Companies were introduced as a part of the preparation for migration of assets of NCDGP's clients; implemented was batch of functionalities related to the penalty mechanism, upgraded set of LEI services and impact of T2S 5.0 on the IT system of CDCP was incorporated.

The remaining modules – portal and DMS with activated integration links to other elements of IT infrastructure of CDCP were launched within the innovative digitalisation project at the beginning of 2021.

As regards transfer of assets of NCDGP's clients in digital form the preparatory works were conducted from June 2020 till November 2021 in co-operation with NCDGP and the supplier of the information systems. Arranged were 34 meetings of the project team, author testing and 2 rounds of organised acceptance testing.

Date of the migration of NCDGP clients' assets was agreed and announced in advance; the migration took place in the days from 8 November till 12 November 2021:

- a) The first two days were dedicated to the pre-migration phase, during which the static data were migrated, i.e. the client register was transferred to CDCP, empty securities accounts were opened and securities were registered.
- b) On Friday 12 November 2021 the migration weekend activities were performed; the main goal was to transfer assets of the clients, i.e. current balances on accounts in NCDGP to CDCP.
- c) Over the weekend 13 – 14 November 2021 the post-migration activities were performed, e.g. service archives were migrated from NCDGP and important check-ups of migration results in CDCP were conducted.

3.1. Information Security

In area of preventive measures against cyber threats CDCP performed series of actions in 2021, primarily iterative penetration testing of the critical information system, which confirmed good resistance to cyber-attacks, IT infrastructure penetration testing and staff test in order to identify weak points and possibilities of potential penetration or simpler penetration to CDCP infrastructure.

Standard activity in the year 2021 included also a disaster simulation and functional testing of the critical information system operation switch from the primary to back-up locality with the participants involved.

Substantial security incidents that might threaten availability, integrity or confidentiality of services or information assets of CDCP were not recorded in course of the year 2021.

4. Compliance

4.1. Compliance Department Activities

In the year 2021 CDCP maintained compliance of the internal organisation, rules, processes and provision of services with legal regulations valid on both the national and the European level. The compliance function with respect to legal regulations and internal control was performed and coordinated by the Compliance Department.

The Compliance and Internal Control Function is part of the internal control system of CDCP falling under the off-process control. Therefore, on one hand, the purpose of this control activity is to ensure compliance, i.e. control and assessing if CDCP executes its activities in compliance with the legal regulation, whether the internal regulations and processes are compliant with the applicable regulation and sufficiently implement such regulation, timely identification of discrepancies and shortcomings and their consequent removal. On the other hand, purpose of the internal control is to ascertain actual status of controlled areas, i.e. whether the employees of CDCP perform their duties in compliance with valid regulation, internal rules and other rules of CDCP, and subsequent removal of identified shortcomings. In the year 2021 the control activities focused on different areas of the regulation / rules of CDCP so that execution of obligations under respective legal regulation is applied, regulation for IT area, risk management and provision of selected CDCP services. Performed controls contributed to removal of identified shortcomings, and also to improvement of processes in controlled areas.

In 2021 the Compliance Department always acted according to adopted rules governing the area of conflict of interests, prevention of legalisation of proceeds of criminal activity and terrorist financing (AML), international

sanctions, protection of anti-social activity whistle-blowers, fraud prevention. Fulfilment of other tasks was ensured equally, namely continuous monitoring of legislation, staff education, examination of motions / solicitations from the National Bank of Slovakia with respect to consumer protection on the financial market. We can state that materialisation of the compliance risk was not identified in course of the year 2021.

4.2. Local and European Legislation

As regards impact to CDCP activities, the most important was implementation of CSDR provisions related to the settlement discipline and respective Commission Delegated Regulation (EU) of 25 May 2018 supplementing Regulation (EU) No 909/2014 of the European Parliament and of the Council with regard to regulatory technical standards on settlement discipline effective from 1 February 2022. The rules in case of settlement failure and the rules for application of the penalty mechanism were incorporated to the Rules of Operation during the implementation.

Important part of the implemented regulations was legal regulation related to the COVID-19 pandemic.

In the future CDCP expects implementation of significant proposed and the existing regulations that will affect CDCP activities. Principal will be implementation of the act on the central register of accounts based on which CDCP will have obligation to send data from CDCP register to the account register from 1 January 2023; proposed legislative intent to recodify commercial companies law; preparation for implementation of proposed Regulation of the European Parliament and of the Council on digital operational resilience for the financial sector and amending Regulations (EC) No 1060/2009, (EU) No 648/2012, (EU) No 600/2014 and (EU) No 909/2014 (DORA), that will harmonise the rules for financial entities regarding consolidation and modernising of requirements for information and communication technologies. CDCP at the same time takes steps in connection with implementation of legal regulations allowing access of CDCP to the Register of Natural Persons and the Register of Legal Persons, what will enable automatic update of data in CDCP register. CDCP activities will be significantly affected also by proposed legislative regulation enhancing the EU rules for AML area.

5. Risk Management

CDCP in compliance with the applicable Slovak law, while respecting requirements of legal regulations of the European Union, has developed and established the Risk Management System, which is explicitly stipulated and identified in the strategy for risk management area, risk appetite and ethical principles of CDCP. As regards the risk management system, CDCP applies requirements of relevant binding legal regulations, namely the act No 566/2001 Coll. on Securities and Investment Services and on amendments and supplements of certain laws, Regulation (EU) No 909/2014 of the European Parliament and of the Council on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012 and relevant implementing regulations.

CDCP provides for stable and functional risk management system that includes mainly clear organisational structure with strictly defined transparent and consistent responsibility lines and effective procedures for identification, monitoring, reporting and management of risk to which CDCP is or may be exposed.

As regards the risk management, CDCP takes in account all known risks it is or may be exposed to, including risks posed by the external entities (namely key participants in the securities settlement system which are linked to CDCP, external suppliers, other central depositories or another market infrastructures). In doing so, CDCP considers mainly possible impact of respective risk to ability of CDCP to provide services in approved form and value of possible economic loss of CDCP.

The Board of Directors is liable for development of effective and efficient risk management system. Risk Management efficiency is monitored by the Supervisory Board of the company. In CDCP was established an independent function of the Risk Manager liable for risk management area. The Risk Manager coordinates the risk management processes in CDCP, ensures implementation of and monitors adherence to approved strategy and risk management processes. The Risk Committee is established in CDCP and is acting as an advisory body of the Board of Directors. The Risk Committee offers recommendations and opinions to the Board of Directors in

all issues related to the risk management, primarily regarding approach of CDCP to present and future risks that CDCP is or can be exposed to, or risks that CDCP poses to its clients.

Risk management in CDCP is stable, functional and effective risk management system which creates part of effective internal control system, including implementation of strategies for management of particular risks.

6. Internal Audit

The Internal Audit Function is part of the internal control system of Centrálny depozitár cenných papierov SR, a.s. It is, together with the Compliance and Internal Control Function, the off-process part of the internal control ensuring a control independent from operational and business processes. The Internal Audit Department assesses effectiveness of the risk management processes and contributes to their improvement, helps the company to maintain effective control mechanisms by assessing their effectiveness and efficiency, and by facilitating their continual improvement.

In course of the year 2021 the internal audit in CDCP aimed to provision of assurance on risk management procedures related to securing of adequacy and effectiveness of managerial, operational and informational processes and systems as regards the goals and objectives of the central depository, reliability and integrity of financial and operational information, efficiency, effectiveness and economy of operations, protection of assets and adherence to generally binding legal regulations, internal regulations and agreements.

In compliance with the Internal Audit operative plan, four proper audits and one follow-up audit were conducted in course of the year 2021. The first audit focused on risks related to administration of records and creation of billing supporting documents at the Settlement System Operation Department and control processes related to customer invoices. The second audit was conducted at the 1.A.3 Department – Security, and was aimed to IT systems and the business continuity management; the audit was performed also to meet the SWIFT requirement to conduct regular independent assessment of compliance with the security measures according to applicable SWIFT Customer Security Controls Framework in 2021. Purpose of the third audit at the Department 7.1 – Compliance Section was to verify the client care processes pursuant to provisions of the Act No 297/2008 Coll. of 1 November 2020. The last planned audit in the year 2021 at the Division 3 – Economics was focused to procedures relevant to meeting the capital requirements pursuant to the Regulation (EU) of the EP and of the Council No 909/2014 and the Commission Delegated Regulation (EU) 2017/390.

The Internal Audit asserts, that final statement on the risk management was “effective” in three cases and “sufficiently effective” in one case. The follow-up audit performed at the end of the year showed, that all reported completed corrective measures were realised such way, that they met requirements for elimination of identified risks.

Audits conducted in 2021 proved that the risk management in audited areas is sufficiently effective in Centrálny depozitár cenných papierov SR, a.s. Internal control procedures and processes are set and functional, and in business continuity area a significant progress was made with respect to quality of business continuity plans and disaster recovery plans. Audit showed good results of the financial institution in field of prevention against legalisation of proceeds of criminal activity and terrorist financing. Regarding the personal data protection, procedures are set up adequately.

The internal audit states that internal processes in Centrálny depozitár cenných papierov SR, a.s. are performed in compliance with approved internal company management rules and breach of the Act 566/2001 Coll. on Securities and Investment Services as amended and of the Regulation (EU) No 909/2014 on improving securities settlement in the European Union and on central securities depositories was not identified by the internal audit. When performing its function, the Head of the Section of the Internal Audit didn't observe any activities contra the Internal Audit which could actually or apparently threatened independence and objectivity of the internal audit in CDCP. Neither breach of the Act No 297/2008 Coll. on the prevention of legalization of proceeds of criminal activity and terrorist financing as amended has been identified by the audit.

7. International Standards

CDCP assigns the ISIN code to issues of book-entry securities and paper-form securities which allows identification of an issue of securities or other financial instruments. ISIN code is assigned in compliance with the international standard ISO 6166 which stipulates specific structure and mechanism for generation of this code. ISIN code is used as a basic identifier of an issue not only in the central depository register, but also in any information system processing securities. ISIN codes assigned to securities issued in the Slovak Republic begin with the prefix "SK". The ISO standard 6166 was amended in February 2021 and according to requirements from ANNA, the NNAs shall report the mandatory changes from February 2023 at the latest.

Moreover, CDCP allocates the CFI and FISN codes as identifiers required for all book-entry and paper-form securities to which ISIN code was allocated. The ISIN code is assigned in the moment when it is generated. CDCP assigns CFI code in accordance with the international standard ISO 10962, and it is not a unique code identifying a particular issue of securities, but the code which identifies the category of securities and their relevant attributes in detail. CFI code is assigned due to existing need for consistent and uniform approach to categorisation of securities into groups mainly in cross-border trading. This standard was amended in May 2021 by new requirements of the markets and supervisory authorities; the implementation date for ANNA is the same as in case of the standard ISO 6166, i.e. February 2023.

CDCP assigns FISN code in compliance with the international standard ISO 18774. FISN code identifies in detail the short name of the financial instrument and is assigned in order to ensure consistent and uniform approach to standardisation of the issuer's short name and description of securities. FISN code together with ISIN and CFI codes give clear identification of and information on securities to the capital market participants making the financial transactions, both at national and international level.

In the Slovak Republic ISIN, CFI and FISN codes are assigned by CDCP acting as the National Numbering Agency. In 2014 CDCP started to assign LEI codes according to the international standard ISO 17442. From 21 May 2014 when CDCP was approved as the Local Operating Unit, it is possible to use the LEI codes assigned by CDCP for identification of entities within the EU legislation (e.g. EMIR, MIFIR, SOLVENCY I. and II.) and also other standards for regulation of international financial market.

On 30 January 2018 CDCP has received a certificate from the GLEIF (Global Legal Entity Identifier Foundation), which confirms successful accreditation of CDCP for allocation of the LEI codes to legal entities from Slovakia and the Czech Republic. Accreditation is process during which the GLEIF assesses preparedness of the organisation interested in operating within the LEI Global System and wants to assign the LEI codes, and manage the reference data of entities with allocated LEI code. The GLEIF performs annual assessment of the accreditation. In CDCP the annual accreditation assessment process was performed in lesser degree thanks to the superior quality of data delivered from May until August 2021 and the assessment was successfully completed by the final report dated 4 August 2021.

Several new regulations were adopted in 2021 related to data content and structure, initiated by the Regulatory Oversight Committee. Changes resulted to completely new structure of delivered files, which is valid from 31 March 2022. Changes will affect also the governmental institutions, funds or corporate actions. In September 2021 CDCP started the accreditation process for allocation of LEI codes to the investment funds for the Slovak Republic jurisdiction.

8. Human Resources

In the year 2021 the total number of employees in CDCP was 71 persons. The average number of employees was 67 persons. The long-term trend is decreasing the quantity of employees and increasing the effectivity. This development is supported also by effective distribution of activities among positions as well as by costs reduction. Fluctuation rate was 4%.

Average number of employees:

Structure of employees in the year 2021:

Average number of employees	67
Out of that:	32 men
	35 women
and	3 women – maternity leave
Entries	2 employees
Terminations	3 employees
Average age of all employees	46 years
Average age of new employees	24 years

8.1. Education

The employees are regarded the most valuable asset which directly affects the quality of CDCP results. We are interested in employing competent employees who understand their function, thus are performing it well. We expect mainly competence, loyalty and client-oriented approach from our current employees and also from the applicants.

To provide our employees with the opportunity to improve continually, we invest into education activities and support both professional and personal growth of our proficient employees. 20 employees attended 73 educational activities in course of the year 2021, namely seminars, trainings, conferences, and workshops that had mainly on-line form due to measures with regard to spreading of virus COVID-19. The education expenses reached value of 5 248 EUR. The amount dropped by 46% compared to the previous year.

8.2. Employee Benefits

We do our best to acquire and maintain the proficient employees by co-ordinating the benefits and corporate culture, and our goal is to achieve balance between their private and working life. In 2021, each employee was granted 5 days of leave in addition to the leave entitled under the Labour Code. We care about good relationships among the colleagues; however, mutual relations and eventual teambuilding activities were largely restricted by

COVID-19 pandemic. Based on measures imposed by the Government of SR possibility to perform work from home was implemented also in our company, and this regime was applicable to 45 employees in form of supplement to the employment contract.

9. Strategic Vision

CDCP plays important part in maintaining trustworthy infrastructures providing for activities performed before and after conclusion of trades in securities, which protect financial markets and give confidence to market participants that transactions with securities will be processed properly and timely also in moments of extreme turmoil. Therefore, its interlocked with the BSSE functions, together creating the basis of the Slovak capital market infrastructure.

The securities settlement system operated by the securities central depository is systemically important for functioning of the capital market due to its fundamental position in the settlement process. Due to CDCP's key role in the securities holding system through which the participants inform on securities held by the investors, the securities settlement system operated by CDCP serves as the primary instrument for verification of the security issue integrity what prevents inadequate creation or deletion of issued securities, so it plays essential part in maintaining the trust of investors.

Moreover, the securities settlement system operated by the central depository tightly participates in realisation of collateral for purposes of the monetary policy operations, and also among the credit institutions, thus CDCP is a critical actor in the securing process.

In 4Q 2021 the company's governing bodies and the shareholder approved reviewed strategy of CDCP for years 2021 – 2023, which is formed by following synopses:

1. To ensure continuous fulfilling of conditions to retain the authorisation to act as a central depository according to the requirements under the CSDR, ZoCP and proceed with harmonisation of the market standards in view of the harmonisation of the EU capital markets.
2. To maintain the economic surplus in long-term horizon and create adequate resources for financing of development and innovations.
3. To decrease risk exposure, primarily to find solution for termination of long-term litigations, reduce provisions as well as the need to create reserves to contingency items.
4. To prepare and realise development projects bringing higher effectiveness and comfort to the capital market participants as regards provided services.
5. Actively support objectives of the Memorandum of Understanding and Mutual Co-operation dated 28 June 2018 concluded among BSSE, SZRB, CDCP and NCDP in sense of the amendment of 30 October 2019, i.e. to create one functional central securities depository in the SR built on latest technologies, that will be client oriented, cost-effective and will respect interests of clients and participants of the financial or capital market.

The unchanging strategy of CDCP in next period of time remains enhancing of services and increasing of efficiency in achieving positive economic result. The aim is to simplify provided services and make them more attractive in order to bring added value to our clients and also address new clients. That requires favourable conditions on the market and consistent legislative environment attractive for the investors. CDCP wants to contribute by stable (safe, trustworthy and foreseeable) infrastructure. We want to be reliable partner for our members (participants in the settlement system), clients and suppliers.

The central depository is the systemically important institution in given segment of the European Union market, irrespective of size and current intensity of activities. This importance is given by its functions among which dominates legal security of registered ownership of specific assets.

CDCP business orientation is not primarily a profit maximisation. However, CDCP pursues the balanced economy, ensures growth of the shareholder value and offers solutions based on real needs and expectations of the capital or the financial market and investors. It is essential that each core service of the central depository is competitive

and each information affecting ownership relations, and is guaranteed by the central depository, is provided in a legally sustainable and transparent way.

The central depository faces several challenges. It has to respond not only to a crisis caused by the COVID-19 virus and be prepared for changes of the landscape due to the crisis, but also to development in the area of post-trade services. For these services are characteristic strong harmonisation demands from the side of the European institutions (CMU – Capital Markets Union, i.e. the vision of the capital market unification) to provide a yet wider scope of services by a standardised method, tendency to concentrate certain services to single entities with Pan-European or world-wide impact, increasing requirements to regulate activities of the central depositories, issuers and other participants in the capital market. An important factor in the area of post-trade services is application of trends from the field of information technologies as are robotization, DLT - block-chain or artificial intelligence. Last but not least, the company has to take into consideration also the specificity of the local capital market, low interest of issuers of shares to enter the regulated market, non-standard method of provision of certain services and high-cost infrastructure due to low possibility to apply economies of scale.

As a consequence, becoming one of the best financial institutions in Slovakia has to be CDCP's ambition and strategic goal.

10. List of CDCP Participants

CDCP provides services mainly through its participants. In compliance with the Act No 566/2001 Coll. on Securities and Investment Services as amended and in compliance with the CSDR Regulation, the bank, foreign bank, securities broker, foreign securities broker, central counterparty, clearing agent, clearing house, operator of a settlement system or payment system, state administration body, company with a guarantee provided by the state in connection with participation in the settlement system or in the payment system, and a central depository may become a participant.

In connection with preparation to migration of assets of NCDCP clients and start of provision of services to this group of clients, CDCP granted access of a participant to the securities settlement system and the membership in the central depository to the company Across Private Investments, o.c.p., a.s. with the effect from 8 November 2021. On 1 October 2021 became effective a withdrawal of the access of a participant and membership granted to the company OTP Banka Slovensko, a.s. and on 17 December 2021 became effective a withdrawal of the participant access of Arca Brokerage House o.c.p., a.s. On 6 December 2021 became effective a withdrawal of participant's access granted to the linked depository Národný centrálny depozitár cenných papierov, a.s. what means that also the standard and interoperable link of this depository to CDCP ceased to exist. As a result, at the end of 2021 CDCP had 24 participants (13 banks, including the National Bank of Slovakia; 6 securities brokers; 4 foreign central depositories, Debt and Liquidity Management Agency).

In 2021, CDCP in compliance with the Executory Decree No. 3 to the Rules of Operation conducted annual monitoring of compliance of the participants and entities that were granted access of other market infrastructure with the participation criteria during the period from January to December 2020. All entities reviewed by CDCP as regards compliance with the participation criteria demonstrated that they were meeting the applicable participation criteria during the evaluated period.

Foreign central depositories:

- Centrální depozitář cenných papírů, a. s. (the Czech Republic)
- Clearstream Banking S.A. (Luxemburg)
- Clearstream Banking AG (Germany)

Other:

- Debt and Liquidity Management Agency (ARDAL)

CDCP Participants in 2021

11. Economic Results - year 2021

a) Economic result:

In the year 2021 CDCP retained the positive trend of the economic results achieved in previous years, with sum of 6.04 million EUR after taxation.

The year-on-year change of the economic result was affected by decrease in revenues by 16 percent, which in 2021 were affected mainly by revenues from own services which dropped by 15 % compared to previous year and concurrent decrease of gross expenses by 1%.

Economic results for years 2017 – 2021 (thousand EUR):

Economic results (millions EUR):

	2017	2018	2019	2020	2021
Profit / Loss	0.57	0.56	0.79	7.52	6.04

Compared to the previous year the total revenues decreased by 16% and in the year 2021 were affected primarily by the sales from own services which dropped by 15%.

These are, similarly as in last years affected mostly by revenues from registration services for issuers of book-entry securities that fell by 35% compared to the previous year, administration of securities owner's accounts that fell by 6% compared to the previous year and business services to issuers of paper form securities which are around the level of the year 2020. These 3 groups of revenues altogether create 83% of total revenues in CDCP.

Other revenues from economic activity decreased by 55% in comparison to the previous accounting period as re invoicing of depositories unification project costs ended.

Financial revenues fell by 8 % compared to the previous year due to lower available liquidity and lower interest rates of fixed-term deposits.

In 2021 the year-to-year decrease in total costs of CDCP by 1% was caused mainly by decrease of the income tax expenses which are lower by 36% compared to the previous period, by 3% fall of operation costs caused by cancellation of provisions for terminated litigations decided in favour of CDCP and by lower adjusting entries to receivables and also by decrease in area materials and energies consumption by 15%.

On the other hand, CDCP recorded growth in costs for services by 10%, depreciation grew by 27%, taxes and fees by 66%.

Costs and Revenues for the years 2012 – 2021 (thousand EUR):

	2017	2018	2019	2020	2021
EXPENSES	9.31	8.02	7.93	1.98	1.96
REVENUES	9.89	8.58	8.72	9.50	8.00

b) Financial position of CDCP

In the year 2021 the total capital of CDCP decreased by 8 % compared to the year 2020.

Current assets fell by 16 % in comparison to previous year, whereas the long-term receivables decreased by 34%, short term receivables decreased by 1%, and financial accounts increased by 18 %.

The financial situation of CDCP was stable whole year. Current and capital costs were covered by own resources. Year-on-year increase in own capital by 17 % was affected by positive economic result of 6.04 million EUR. Liabilities fell by 33 % compared to previous year.

c) Investment activities

The capital investments of CDCP in the year 2021 reached value of 2.47 million EUR. The investments were directed primarily to acquisition of valuable rights (migration of assets from NCDP) and modifications of the production software and the digitalisation project.

Distribution of 2021 profit

The General Meeting shall decide on distribution of profit for the 2021 accounting period in the amount of 6.04 million EUR. The proposal of statutory body to the General Meeting is the following:

- contribution to the statutory reserve fund (10%) 0.6 million EUR,
- contribution to the social fund 0.02 million EUR,
- contribution to forwarded profit 3.83 million EUR,
- dividends paid to the shareholder 1.58 million EUR.

12. Additional Information

a) Impact of the accounting entity on the environment

The accounting entity does not have special impact on the environment. From the year 2018 CDCP uses recycled office paper.

b) Research and development expenses

The company did not have expenses for research and development in the year 2021.

c) Own shares

The company didn't acquire own shares in the year 2021 and does not have any own shares.

d) Foreign branch of the company

The company does not have a foreign branch.

e) Events of special importance that occurred after the accounting period for which the Annual Report is prepared

The company adheres to approved internal regulations and measures for purpose of fulfilment of obligation under the Act No 289/2016 Coll. on exercise of international sanctions as amended; included are also international sanctions and restrictive measures with regard to current military conflict in Ukraine. CDCP does not assume that sanctions will have significant impact to CDCP activities or provision of CDCP services.

f) EBITDA 3 year's development

Much like the economic result, also the EBITDA development in the year 2021 is influenced by lower revenues compared to 2020, lessened cancellation of provisions for legal disputes decided to favour of CDCP and low adjusting entries to receivables.

g) Capital adequacy development

According to the CSDR, the company monitors this indicator (compliance with the capital requirements), i.e. CDCP verifies whether it is adequately capitalised against the risks it is exposed to and that it is able to perform an orderly winding-down or restructuring of its activities if necessary.

The indicator is ratio of capital requirements and own resources. Increased ratio in the year 2021 is result of higher capital requirement compared to the previous year.

13. Independent Auditor's Report and Financial Statements as of 31 December 2021

13.1. Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

on audit of proper individual financial statements
of 31 December 2021

Centrálny depozitár cenných papierov SR, a.s.

ul. 29. augusta 1/A, 814 80 Bratislava
ID: 31 338 976

Bratislava, March 2022

INDEPENDENT AUDITOR'S REPORT

To the shareholder, the Supervisory Board, and the Board of Directors of the company
Centrálny depozitár cenných papierov SR, a.s.

Report on audit of the financial statements

Opinion

We have performed the audit of the financial statements of the company Centrálny depozitár cenných papierov SR, a.s. ("the Company") which consists of the balance sheet as of 31 December 2021, the profit and loss statement for the year ending on the same date, and notes which include overview of relevant accounting principles and accounting methods.

In our opinion, the financial statements present true and reliable image of the financial situation of the Company as of 31 December 2021 and of its economic result for the year which ended on stated date in compliance with the Act No. 431/2002 Coll. on Accounting as amended (hereinafter only „Act on Accounting“).

Basis for opinion

We have performed the audit in compliance with the International Standards on Auditing (ISA). Our responsibility pursuant the standards is defined in section Auditor's responsibility for audit of the financial statements. We are independent from the Company in accordance with the provisions of the Act No. 423/2015 Coll. on Statutory Audit and on Amendments and Supplements to the Act No. 431/2002 Coll. on Accounting as amended (hereinafter only "Act on Statutory Audit") with respect to ethics, including Auditor Code of Conduct, relevant for our audit of the financial statements, and we were compliant also with other requirements of these provisions related to ethics. We are convinced that obtained audit evidence is providing sufficient and acceptable basis for our opinion.

Other fact

The financial statements for the year 2020 were audited by other Auditor, who in its report dated 26 March 2021 presented unmodified opinion on that financial statement.

Responsibility of the statutory body, and those charged with governance, for the financial statements

The management of the Company is responsible for the preparation of these financial statements so that it provides true and authentic image pursuant to the Act on Accounting and for the internal controls regarded necessary for preparation of the financial statements that are free from material incorrectness, whether due to fraud or error.

At preparing the financial statements, the statutory body is responsible for assessment of Company's ability to operate as a going concern, for description of facts related to continuous pursuit of activities if necessary, and for application of the going concern assumption in the accounting, unless it has an intention to liquidate the Company or discontinue the operation, or it would not have other realistic option than to do so.

The persons charged with governance are responsible for supervision over the Company's financial reporting process.

Auditor's responsibility for audit of the financial statements

Our responsibility is to obtain adequate assurance that the financial statements as a whole does not includes material incorrectness, whether due to fraud or error and to issue auditor report, including the opinion. Reasonable assurance is assurance of high level, but is not guarantee that audit performed in compliance with the International Standards on Auditing shall always disclose material incorrectness if existent. Incorrectness can arise in consequence of fraud or error, and are deemed material in case of reasonable expectation that these could have, individually or cumulatively, impact on economic decisions of users made on basis of these financial statements.

Within audit performed pursuant to the International Standards for Auditing, we apply expert judgment and retain professional scepticism during whole audit. Beyond that:

- We identify and assess risks of material incorrectness in the financial statements, whether due to fraud or error, propose and exercise audit procedures reacting to these risks and are obtaining audit evidence which is sufficient and suitable to provide basis for our opinion. Risk that material incorrectness is not detected is higher in case of fraud than in case of error, because fraud can include collusion, falsification, intentional omission, untrue declaration or avoidance of internal control.
- We get acquainted with internal controls relevant for audit to be able to propose audit procedures appropriate for given circumstances, but not to provide opinion on effectiveness of internal controls of the Company.
- We are assessing suitability of applied accounting principles and accounting methods and adequacy of accounting estimations and related information made by the statutory body.
- We make conclusion if the statutory body properly applies the going concern assumption in the accounting, and based on obtained audit evidence conclusion whether material uncertainty in connection with events or circumstances which could cast significant doubts on ability of the Company to pursue its activities continuously exists. If we come to conclusion that material uncertainty exists, in our auditor report we have to call attention to related information stated in the financial statements, or to modify our opinion if the information is not sufficient. Our conclusions are based on the audit evidence obtained before date of the audit report. However, future events or circumstances may cause that the Company shall cease to operate as a going concern.
- We are assessing overall presentation, structure and content or the financial statements including information stated in it, and also whether the financial statements reflect realised transactions and events in a way allowing true representation.

We communicate with those charged with governance also on planned extent and timing of the audit work and on material audit findings, including all significant internal control deficiencies identified during our audit.

Report on other requirements arising from the acts and other legal regulations

Report on information stated in the Annual Report

The Statutory body is responsible for information stated in the Annual Report prepared in compliance with requirements of the Act on Accounting. Our above stated opinion to the financial statements does not apply to other information in the Annual Report.

In connection with audit of the financial statements our responsibility is to obtain knowledge on information stated in the Annual Report and to assess whether there is no significant discrepancy between contained information and the financial statements or our knowledge we have obtained during audit of the financial statements, or whether these are not notably incorrect in any other way.

The Annual Report of the Company was not at our disposal on the date when the auditor report on audit of the financial statements was issued.

After receiving the Annual Report, we will assess if the Annual Report of the Company includes information required by the Act on Accounting and based on work performed during audit of the financial statements we shall give our opinion whether:

- information stated in the Annual Report for 2021 is compliant with the financial statements for given year
- the Annual Report includes information pursuant to the Act on Accounting.

In addition, we will state whether we have found material incorrectness in the Annual Report based on our knowledge on the accounting unit and situation obtained during audit of the financial statements.

A. INFORMATION ON THE COMPANY

1. Establishment of the Company

The company Centrálny depozitár cenných papierov SR, a.s. (hereinafter only the "Company") was established on 12 November 1992 and incorporated in the Companies Register on 22 December 1992 (Companies Register of the District Court Bratislava I., Section Sa, Insertion No. 493/B).

2. Core activities of the Company are:

- Initial recording of securities in book-entry system („notary service“).
- Providing and maintain securities accounts at the top tier level („central maintenance service“).
- Operating a securities settlement system („settlement service“).
- Services related to the settlement service, such as: settlement matching, instruction routing, trade confirmation, trade verification.
- Services related to the notary and central accounts maintenance services, such as: services related to shareholders' registers; supporting the processing of corporate actions, including tax, general meetings and information services; new issue services, including allocation and management of ISIN codes and similar codes; instruction routing and processing, fee collection and processing and related reporting.
- Establishing CSD links, providing, maintaining or operating securities accounts in relation to the settlement service, collateral management, other ancillary services.
- Other services: providing information required by legal regulation; providing information, data and statistics to market/census bureaus or other governmental or inter-governmental entities; keeping of pledge registry; keeping of special registry of collateral transfers; keeping of list of shareholders of registered paper-form shares; services relating to allocation and management of LEI codes.

3. Number of employees

Data on the number of employees for the current accounting period and prior accounting period are shown in the following table:

	Current accounting period	Prior accounting period
Average number of employees	67	67
Number of staffs at balance sheet date of which:	65	67
Management	5	5

Notes: Úč POD 3 - 01

Company ID

Tax ID

			3	1	3	3	8	9	7	6
2	0	2	0	3	1	2	8	3	3	

4. Test of group size of the accounting unit

The accounting unit is included in the "large accounting unit" group if it meets, in two consequent account periods, at least two of three conditions – net sum of assets exceeded 4 000 000 EUR, net turnover overreached 8 000 000 EUR and average full-time-equivalent exceeded 50 during the accounting period.

Item	Current accounting period	Prior accounting period	Yes/No
Net to assets – total	31 358 956	34 166 703	Yes
Net to turnover – total	7 804 906	9 146 694	Yes
Number of employees	67	67	Yes

The accounting unit meets size requirements to be included to size group – large accounting unit, therefore it compiles the financial statement pursuant to methodology for this size group (Measure No. MF/23377/2014-74).

5. Data on unlimited liability

The Company is not a shareholder with unlimited liability in other legal entities under Section 56(5) of the Commercial Code.

6. Legal reason for preparing the financial statements

The Company's financial statements as of 31 December 2019 have been prepared as ordinary financial statements under Section 17(6) of the National Council of the Slovak Republic Act No. 431/2002 Coll. on Accounting for the accounting period from 1 January 2021 to 31 December 2022.

7. Date of approving the financial statements for the previous accounting period

The General Meeting of the Company approved the Company's financial statements as of 31 December 2020, i.e. for the previous accounting period, on 29 June 2021.

8. Approval of the auditor

On 14 October 2021 the General Meeting approved the company ACCEPT AUDIT & CONSULTING, s.r.o. as an auditor of the financial statements for the accounting period from 1 January 2021 to 31 December 2021.

C. INFORMATION ON THE COMPANY PARTNERS

The structure of the Company's shareholders as of 31 December 2021:

Partner, shareholder	Share in the registered capital		Share in voting rights	Other share in equity items other than registered capital
	absolute	in %	in %	in %
a	b	c	d	e
Burza cenných papierov v Bratislave, a.s.	10 489 304	100	100	-
Total	10 489 304	100	100	-

According to the Slovak Act on Accounting, the parent company Burza cenných papierov v Bratislava, a.s. (Bratislava Stock Exchange) is not compiling the consolidated financial statements for the year 2021 (§22 of the Act 431/2002 Coll.).

D. INFORMATION ON ADOPTED PROCEDURES

1. Financial statement basis

The financial statements were prepared under assumption that the Company shall pursue its activities continuously. Management of the Company continually reasonably expects that the Company has resources to continue its operation next 12 months and that assumption of continuous pursuing of its activities is correct.

2. Application of estimations and conclusions

Preparation of the financial statements requires that management of the Company makes conclusions, estimations and assumptions. Estimations and related conclusions are based on previous experience and other factors considered adequate as regards the circumstances, based on which are structured data for estimation of accounting values for assets and liabilities that are not evident from other sources. Therefore, real results may vary from estimations. As for estimations and assumptions the Company did not identify uncertainty implying significant risk that their considerable adjustments would be required in next accounting period.

Provisions for receivables – the key assumption for calculation of receivables provisions are trend analyses of previous receivables and expected impact of COVID pandemics to payments of receivables by natural persons and legal entities.

Reserves for litigations – calculation of the reserve is based on the risk and probability of non-/success of individual litigations from view of the Company. The data are verified by external lawyer and the company's risk manager.

3. Long-term intangible and tangible assets

Purchased long-term assets are valued with purchase price that includes purchase price and procurement costs (transport, installations). The company did not create the long-term assets by own activity. Amortisation of long-term assets is given based on estimated utilisation period and depletion. The Company begins to amortise the assets in the month when it is recorded. The Company applies only linear depreciation method. The Company records tangible assets with value up to 1 700 EUR as expenses, intangible assets with value up to 2 400 EUR are recorded as expenses too, but are recorded in operational records. Estimated life span, amortisation method and amortisation rate are specified in following table:

Notes: Úč POD 3 - 01

Company ID

Tax ID

			3	1	3	3	8	9	7	6
2	0	2	0	3	1	2	8	3	3	

	Estimated life span / years	Amortisation method	Annual amortisation rate in %
Software	10	linear	10
Valuable Rights	5 - 20	linear	20 - 5
Trademark	10	linear	10
Buildings	40	linear	2.5
Machines, Equipment, Devices	4 - 8	linear	12,5 – 25
Vehicles	4	linear	25

4. Stock/Supplies

The company values stocks with purchase price. The purchase price includes price of stocks, reduced by discounts and credit notes. Decrease in stocks is booked according to FIFO method (first price used to evaluate first supplies of given asset is used as the first price to value decrease in supplies of given asset).

5. Long term financial assets

The company books units and shares in associated accounting units, units and shares with shareholder participation and other negotiable securities as long-term financial assets.

6. Receivables

Receivables are valued by the nominal value at the moment of their origination. Transferred claims and claims acquired by contribution to registered capital are valued by purchase price including costs related to provision. This valuation is reduced by dubious and unredeemable claims.

Decrease in valued of Receivables

Real value of receivables is assessed on each day when the final accounts are prepared in order to identify objective evidence for decreasing of their value. The objective evidence for decreasing of value includes failure to settle debt or illegal acting of a debtor, restructuring of receivables of the Company under conditions that would not be considered under normal state. The correcting entry shall be cancelled if consequent increase in estimated future economic benefit can be objectively related to event that occurred after booking the correcting entry.

7. Financial accounts

Financial accounts are created by cash, valuables, current accounts balances, and are valued by the nominal value. Decrease in their values is made by correcting entry.

8. Deferred expenses and accrued revenues

Deferred expenses and accrued revenues are recorded in amount necessary to comply with matching time period principles in given accounting period.

9. Decreasing of asset value and correcting entries

Correcting entries are created based on prudential principle if there is a reason to assume that value of the asset, compared to its price in accounting, decreased. The correcting entry is accounted in value of reasoned estimation of decreased asset value in comparison to its book value.

Notes: Úč POD 3 - 01

Company ID

Tax ID

			3	1	3	3	8	9	7	6
2	0	2	0	3	1	2	8	3	3	

10. Reserves

Reserve is a liability representing existing obligation of the Company arising from past events and is probable that it will decrease its economic benefits. The reserves are liabilities with indefinite time limit or amount and are value is set by estimation in amount required to meet existing obligation on the day when the financial statements are prepared.

11. Benefits to employees

Wages, payrolls, allowances to government pension and insurance funds, paid annual leave and paid sick leave, bonuses and other non-cash benefits are reported in related time and matching accounting period

12. Deferred taxes

Deferred taxes (deferred tax receivable and deferred tax liability) relate to temporary differences between accounting value of assets and accounting value of liabilities reported in statements and their tax basis. An income tax rate, which is assumed to be valid at the moment of deferred tax settlement is applied to calculate the deferred tax. The deferred tax receivable and deferred tax liability are reported separately in the final statement. In case the deferred income tax concerns the same tax entity and the same tax office, only the final balance of the account 481 – deferred tax liability or deferred tax receivable can be reported.

13. Deferred costs

Deferred costs and Accrued Revenues are recorded in amount required to comply with the matching and time period principles of given the accounting period.

14. Leasing

Operative leasing (the Company as a leaseholder) – assets leased based on operative leasing are reported as asset by the owner, not the leaseholder. Leasing in form of the operative leasing is accounted in expenses continuously during the leasing contract.

15. Foreign currency

The assets and liabilities recorded in a foreign currency are converted to euro on the day when the final statements are prepared; applied is referential exchange rate set and published by the European Central Bank or NBS on the day when the final statements are prepared and these are recorded with impact on economic result.

16. Revenues

Revenues from services do not include VAT. The revenues are also decreased by discounts the clients were entitled to. The revenues from services are reported in the accounting period during which they were provided.

17. Comparable data

In case data for previous accounting period are not comparable in respective parts of the final statements due to change in accounting procedures and principles, explanation on incomparable values is provided in accounting notes.

18. Correcting entries for previous years

In case the Company detects in current accounting period a significant error related to previous accounting periods, it will correct such error through account Retained Earnings and Retained Loss, i.e. without impact on economic result of the current accounting period. Corrections of insignificant errors of previous accounting periods are recorded in the current accounting period on respective costs or expenses account. In the year 2021 the Company did not make correcting entry due to significant errors of previous years

K. INFORMATION ON OFF-BALANCE SHEET ACCOUNTSProperty leased from other parties

Item	Current accounting period	Prior accounting period
Rented assets	-	-
Assets under operating lease	20 045	18 742
Assets taken in custody	-	-
Receivables from derivatives	-	-
Liabilities from option derivatives	-	-
Receivables written-off	-	-
Receivables from the lease	-	-
Liabilities from the lease	-	-
Other items	-	-

The property in lease

- 6 copy machines. Annual costs for the rent, including print-out invoicing in the year 2021 are 10 229 EUR. The contracts are concluded for the period of 48 months with automatic prolongation by 12 months. The notice period is 3 months.
- 1 leased car. Annual rental costs for the year 2021 are 9 816 EUR.

L. INFORMATION ON OTHER ASSETS AND OTHER LIABILITIES

Currently the Company participates in several litigations resulting from transactions effected in the past periods with the total claimed amount of 9 325 833 EUR (including extras). The Company created reserves for litigations in 100 % of the amount. Material part of litigations lasts for longer period and decisions may not be made yet for several years. It is not possible to predict with sufficient adequacy the final result of these litigations. The final decision in these litigations to the detriment of the Company may have unfavourable impact on its financial results, liquidity. As of 31 December 2021, the Company created reserves on risks from litigations in the amount of 9 325 833 EUR. Estimation of probable loss done by the management of the Company was based on available information on status of such litigations, advice of external legal advisors, and internal assessment of probable result of litigations. The management of the Company estimated reserves only for cases where it expects the possible loss for the Company. The Company also registers disputes for which a probability, respectively the amount of loss, at this stage cannot be determined or estimated. For litigations, where the company expects decision made in favour of the Company, the Company has created a reserve for (share) bonus in favour of external defence attorney in the amount of 827 907 EUR.

Due to the fact that many areas of Slovak tax law have not been sufficiently tested in practice, there is an uncertainty on how the tax authorities will apply them. It is not possible to quantify the level of such uncertainty and it shall cease only when legal precedents or official interpretations of the relevant authorities are available. The management of the Company is not aware of any circumstances that would result to a material cost in the future.

P. INFORMATION ON POST-BALANCE SHEET EVENTS

No events with significant impact on fair presentation of facts subject to accounting occurred after 31 December 2021.

We assessed potential impact of COVID 19 to our business activities and we concluded that they have not major impact to our ability to continue to operate as a going concern and function as sound entity for next 12 months.

The company has in place approved and adheres to the internal regulations and measures for purpose of fulfilment of obligation under the Act No 289/2016 Coll. on exercise of international sanctions as amended; included are also international sanctions and restrictive measures with regard to current military conflict in Ukraine. CDCP does not assume that sanctions will have significant impact to CDCP activities or provision of CDCP services.

Cash

Cash means cash on hand, cash equivalents, and cash in current bank accounts, an overdraft facility, and the part of Cash in transit which relates to transfer between current account and cash register or between two bank accounts.

Cash equivalents

Cash equivalents are short-term financial assets that are readily convertible to a known amount of cash, and which are subject to insignificant risk of changes in value during the next three months after the financial statements preparation date, for example term deposits on bank accounts with a maximum of a three-month notice, liquid securities held for trading, or preference shares that the accounting unit has acquired and which are due within three months after the financial statements date.

Bratislava, April 2022

SUPPLEMENT TO THE INDEPENDENT AUDITOR'S REPORT

To the shareholder, the Supervisory Board, and the Board of Directors of the company
Centrálny depozitár cenných papierov SR

Add part II - Report on information stated in the Annual Report

We have audited the financial statements of the company Centrálny depozitár cenných papierov SR, a.s. (hereinafter also „Company“) as of 31 December 2021 stated²⁹ on pages 34 – 83 of the Annual Report of the Company on which we issued the report of the Independent Auditor's Report on 15 March 2022, which is on pages 29-32 of the Annual Report of the Company. This Supplement was prepared pursuant to section 6 of the article 27 of the Act 423/2015 Coll. on Statutory Audit and on amendments and supplements of the Act 431/2002 Coll. on Accounting as amended (hereinafter only „Act on Statutory Audit“).

Based on works performed and specified in the part II of the Report of the Independent Auditor – Report on information stated in the Annual Report, based on our opinion:

- information stated in the Annual Report for 2021 is compliant with the financial statements for given year
- the Annual Report includes information pursuant to the Act on Accounting.

In addition, based on our knowledge on the accounting unit and its situation we have obtained during the audit of the financial statements, we have to state whether we have identified material incorrectness in the Annual Report. In this connection we state that we didn't identify material incorrectness in the Annual Report.

15. Glossary

CFI code (ISO 10962 - Classification of Financial Instruments): The CFI consists of six alphabetical characters, assigned in compliance with the standard ISO 10962 Classification of Financial Instruments (CFI code). The CFI reflects characteristics of a financial instrument defined at issuance of the security and remain unchanged during its entire lifetime. CFI code is assigned by the agency which assigned the ISIN code to the financial instrument.

Central securities depository (CSD): An entity that: 1) enables securities transactions to be processed and settled by book entry; 2) provides custodial services (e.g. the administration of corporate actions and redemptions); and 3) plays an active role in ensuring the integrity of securities issues.

Clearing: The process of transmitting, reconciling and, in some cases, confirming transfer instructions prior to settlement, potentially including the netting of instructions and the establishment of final positions for settlement.

Dematerialisation: The elimination of physical certificates or documents of title indicating ownership of financial assets, such that the financial assets exist only as accounting records.

Delivery versus payment (DVP): A securities settlement mechanism which links a securities transfer and a funds transfer in such a way as to ensure that delivery occurs if – and only if – the corresponding payment occurs.

Financial Market Infrastructure (FMI): A multilateral system among participating institutions, including the operator of the system, used for the purposes of clearing, settling, or recording payments, securities, derivatives, or other financial transactions.

FISN code (ISO 18774 - Financial Instrument Short Name): code with 35 alphanumeric characters issued in compliance with standard ISO 18774 Financial Instrument Short Name. ISO standard implements consistent and uniform approach to standardize short names for financial instruments.

Free-of-payment delivery (FOP): Type of instruction for transfer specified by delivery of securities which is not linked to a corresponding transfer of funds.

GLEIF - The Global LEI Foundation: GLEIF is a not-for-profit organization established in June 2014 under view of ROC as operational branch of the global LEI system supporting the implementation and use of the Legal Entity Identifier (LEI). GLEIF grants accreditation and is monitoring Local Operating Units involved in the GLEIS system. GLEIF also makes available the technical infrastructure required for unification of publicly available information on LEI published by the Local Operating Unit.

GLEIS - Global Legal Entity Identifier System: GLEIS is a federated system including Local Operating Units (LOUs), end users and other partners collaborating with GLEIF in LEI codes allocation, data maintenance and publishing.

ISIN code (ISO 6166 International securities identification numbering system): 12-digit alphanumeric code for identification of securities and financial instruments issued in compliance with standard ISO 6166 International numbering system for identification of securities. The Registration Authority for standard ISO 6166 is Association of National Numbering Agencies (ANNA). ISIN code in compliance with the standard ISO 6166 and ANNA Guidelines is assigned by the National Numbering Agencies (NNA) associated in ANNA.

LEI – Legal Entity Identifier: LEI is standardised 20-digit, alpha-numeric code with structure defined by the international standard (ISO 17442). The code enables clear, unmistakeable and unique identification of legal entity in global scale.

LOU – Local Operating Unit: Entity accredited by (ROC) as Local Operating Unit authorised to allocate LEI codes. In first phase of creating of the international system of LEI codes – GLEIS all entities authorised to allocate LEI are identified as pre-LOU.

Participant: An entity which is identified / recognised by a transfer system and – either directly or indirectly – is allowed to send transfer instructions to that system and is capable of receiving transfer instructions from the system.

Securities Settlement System (SSS): A system which allows the transfer of securities, either free of payment (FOP) or against payment (delivery versus payment).

Settlement: The completion of a transaction or of processing with the aim of discharging participants' obligations through the transfer of funds and/or securities.

TARGET2-Securities (T2S): The Eurosystem's single technical platform enabling central securities depositories (CSDs) and national central banks to provide core, borderless and neutral securities settlement services in central bank money in Europe. T2S went live in the year 2015.
