Executive summary (This section should summarise the key points from the disclosure framework, including a brief overview of the CSD, its participants, its legal and regulatory framework, its primary risks, and its key risk management and other relevant practices.)

PFMI: I.
AGC: n/a

CDCP, established in 1992, is a for-profit, joint stock company fully owned by the Bratislava Stock Exchange. The main activities of CDCP are: initial recording of securities in book-entry system, providing and maintaining securities accounts at the top tier level, operating a securities settlement system, services related to the settlement service, services related to the notary and central accounts maintenance services including new issue services, allocation and management of ISIN codes, establishing CSD links, providing, maintaining or operating securities accounts in relation to the settlement service, collateral management, other ancillary services and other services such as providing information required by legal regulation, providing information, data and statistics to market/census bureaus or other governmental or inter-governmental entities, keeping of pledge registry, keeping of special registry of collateral transfers, keeping of list of shareholders of registered paper-form shares and services relating to allocation and management of LEI codes. Security of client's assets, whether these are specific financial instruments or protected information, is one of the top priorities of CDCP with implemented measures compliant with ISO/IEC 27001. CDCP has implemented and maintains stable and functional risk management system and established the Risk Manager function. Next to that CDCP maintains the system for provision of business continuity of its services with several specific business continuity and disaster recovery plans in place. CDCP has implemented the internal audit to perform the assessment and consultancy activity that helps to increase the added value and to improve the business activities of CDCP; it also helps CDCP to maintain the efficient control mechanisms by assessment of their effectivity and efficiency. Independent Compliance Function assures that all CDCP activities are compliant with applicable regulation. The procedures for prevention and early detection of potential fraud or unauthorised acquiring of protected client's data, and for prevention of legalisation of proceeds of criminal activity and terrorist financing are implemented. Adequate documents and processes are implemented to manage potential conflict of interests. Governance arrangements are stipulated by the Articles of Association of CDCP and a comprehensive scheme of the governance and management system is maintained. The scheme is published on CDCP's website, link: https://www.cdcp.sk/cdcpweb/wp-content/uploads/2022/02/Scheme_Governance_and_Management_System_NEW.jpg. There are two committees established as the advisory bodies of the Board of Directors – the Risk Committee and the User Committee; there is the Audit Committee as an independent expert advisory committee of the Supervisory Board and the Remuneration Committee is an independent expert advisory body of both the Board of Directors and Supervisory Board. As regards requirements on persons nominated to the company's Board of Directors, a set of requirements applicable to members of the Board are specified by the Articles of Association and the legal regulations. Requirements on members of the top management are detailed by the internal guidelines of CDCP. As of 31 October 2022 CDCP had 24 participants in the securities settlement system. All participants and other market infrastructures (2) to which CDCP granted access to its settlement system must comply with a set of participation criteria that mitigate the legal, operational and financial risks CDCP might be exposed to from participants or other market infrastructures. Out of 24 participants there are 12 commercial banks, 6 stock brokers, 4 foreign CSDs, National bank of Slovakia, State Debt and Liquidity Management Agency. The other local CSD (NCDPCP) terminated its participation in CDCP in December 2021 due to its waiver of the authorisation to act as a CSD. CDCP has granted access to its settlement system to other market infrastructures – The Bratislava Stock Exchange (SK) and MTS S.p.A Italy - in order to support the settlement of trades executed on the respective trading venue. Securities registered by CDCP are available through the link with four investor CSDs that have established a link with CDCP as an issuer CSD. Operations and organisation of CDCP are ruled by the REGULATION (EU) No 909/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012 ("CSDR") and by local Act No. 566/2001 Coll. on Securities and Investment Services as amended. Details of execution of services are stipulated in the Rules of Operation of CDCP and related Executory Decrees.

G01Q018

Summary of major changes since the last update of the disclosure (This section should summarise the major changes to the CSD's organisation, services, design, rules, markets served and regulatory environment since its last disclosure. The CSD should note the sections in its disclosure where such changes are reflected.)

PFMI: II.
AGC: n/a

In compliance with CSDR and the Delegated Regulation (EU) 2018/1229, CDCP launched the settlement discipline regime (SDR) on 01 February 2022, i.e. implemented the CSDR regulatory technical standard on settlement discipline. The amended wording of the Rules of Operation (RoO) that include the rules for the penalty mechanism was approved by the Board of Directors and became effective on 1 February 2022.

From the 15 November 2021 CDCP is the only central depository operating on the Slovak capital market as Národný centrálny depozitár cenných papierov, a.s. (NCDPCP) had decided to waive its authorisation to act as a CSD. On 12-14 November 2021 all assets of NCDPCP clients were successfully migrated to the register of CDCP which started provision of central depository services also to all former clients of NCDPCP. The migration was executed in compliance with the legislation and the Agreement on transfer of NCDPCP clients' assets concluded between CDCP and NCDPCP.

In May 2021 CDCP introduced new services for simple joint-stock companies (a hybrid form of company with features of a limited company and of a joint-stock company) – registration of shares of JSC, right to participate in transfer of shares and right to demand transfer of shares.

In September 2020 CDCP started to provide services in compliance with Shareholders Rights Directive II (SRD II) related to identification of shareholders and delivery of information on general meetings to intermediaries in ISO 20022 format. In the first phase of implementation only the messages with general meeting notification (including its changes and cancellations) and confirmations of entitlement to exercise shareholders rights in a general meeting were implemented; remaining messages will be implemented at a later stage.

On 5 October 2020 CDCP and all CSDs participating in Target2-Securities introduced a 60-day recycling period for matched failed instructions. After elapse of this period instructions will be automatically cancelled by the system operator.

CDCP also participates in the Eurosystem project of harmonisation of collateral called Eurosystem Collateral Management System (ECMS) planned to be implemented in November 2023.

CDCP works on digitalisation of its internal processes with view of implementation of digital processes into provision of services to its clients.

G01Q019

General description of the CSD and the markets it serves (This section should provide basic, concise descriptions of the services offered and functions performed by the CSD? It should also provide an overview of the markets the CSD serves and the role it fulfils within those markets. Further, the section should include basic data and performance statistics on its services and operations. A CSD should provide, for example, basic volume and value statistics by product type, average aggregate intraday exposures of the CSD to its participants, and statistics on the CSD's operational reliability.)

PFMI: III.1.
AGC: n/a

CDCP acts as a depository for equities, corporate and government bonds, government treasury bills and other types of book-entry securities. Services provided by the depository are initial recording of securities in book-entry system, providing and maintaining securities accounts at the top tier level, operating a securities settlement system, services related to the settlement service, services related to the notary and central accounts maintenance services including new issue services, allocation and management of ISIN codes, establishing CSD links, providing, maintaining or operating securities accounts in relation to the settlement service, collateral management, other ancillary services and other services such as providing information required by legal regulation, providing information, data and statistics to market/census bureaus or other governmental or inter-governmental entities, keeping the pledge registry, keeping the special registry of collateral transfers, keeping the list of shareholders of registered paper-form shares and services related to allocation and management of LEI codes. CDCP does not provide credit facilities. According to the Act on Securities all issues of dematerialised securities are held at securities depository. Regarding the account structure the client may choose between omnibus and segregated accounts held at the CSD. The Rules of Operation and the Scale of Fees of CDCP are available to the public on CDCP web page. CDCP provides its settlement services via Target2-Securities. Thereby is ensured that settlement of DVP/DWP transactions is executed as concurrent final transfer of securities between the securities accounts and transfer of funds between the cash accounts (dedicated cash accounts) during the day in real time.

General organisation of the CSD (This section should provide an overview of the organisational and governance structure of the CSD? including a description of the CSD's governance policies, governance structure and management structure.)

PFMI: III.2

AGC: n/a

CDCP is a joint-stock, private company fully owned (100%) by the Bratislava Stock Exchange from 16 March 2006, and is regulated by the National Bank of Slovakia. Activities of CDCP are governed by the Act No. 566/2001 Coll. on Securities and Investment services and by the EU Regulation No. 909/2014 CSDR. CDCP governance bodies are the Supervisory Board and the Board of Directors and both convene regularly. Members of the Board are elected by the General Meeting – the supreme governing body. Advisory bodies of the Boards are the Risk Committee, Audit Committee, Remuneration Committee and also the User Committee which consists of representatives of CDCP Participants, the issuers, employees of CDCP nominated by CDCP BoD, various industry professionals and representative of the Bratislava Stock Exchange. CDCP has implemented required internal documents covering all important areas as Conflict of Interests, Capital Adequacy, Risk Management Policy, Risk Management Strategy and Procedures, Internal Audit Methodology, Business Continuity Plan, Business Recovery Plans and Compliance guidelines. The Annual Report consisting of information on corporate status, statistical data, financial results and further development is published on the CDCP webpage.

G01Q021

Legal and regulatory framework (This section should provide an overview of the CSD's legal and regulatory framework, including the legal and ownership structure of the CSD, the legal basis for each material aspect of the CSD's activities, and the regulatory, supervisory and oversight framework for the CSD.)

PFMI: III.3

AGC: n/a

CDCP SR was established and performs its activities in the jurisdiction of the Slovak Republic and it is fully subject of the Slovak legal regulations, EU regulation (mainly CSDR Regulation) and international agreements legally binding on the Slovak Republic.

Basic legal framework:

- Regulation (EU) No 909/2014 of the European Parliament and of the Council on improving securities settlement in the European Union and on central securities depositories (CSDR) and related delegated and implementation regulations
- Act No. 566/2001 Coll. on securities and investments services and on changes and supplements to some acts
- Separate acts containing the regulation of individual types of securities mainly the Act No. 530/1990 Coll. on bonds as amended, the Act No.203/2011 coll. on collective investment as amended
- Act No.513/1991 Coll. Commercial Act as amended
- Act No.7/2005 Coll. on bankruptcy and resolution and on changes and supplements to some acts
- Act No. 40/1964 Coll. Civil Code as amended
- Act No. 747/2004 Coll. on supervision of financial market and on changes and supplements to some acts as amended

CDCP is 100 % owned by the Bratislava Stock Exchange, j.s.c.

G01Q022

System design and operations (This section should explain the CSD's design and operations. It should include a clear description of the typical lifecycle of the transaction process. The information should highlight how the CSD processes a transaction, including the timeline of events, the validation and checks to which a transaction is subjected, and the responsibilities of the parties involved.)

PFMI: III.4

AGC: n/a

Processing of transactions is fully automated and includes technical and business validation (incl. Account access rights of the person submitting the instruction), matching, allocation, verification and blocking of transferred securities, optimisation and settlement. Fully automatic is also possible maintenance of the instruction. Due to settlement system design, processing of the instruction is fully automated during whole life cycle of the instruction and no intervention of any party (transferor, transferee, person submitting the instruction, CDCP) is required.

AGC: n/a

CDCP performs its activities in the jurisdiction of the Slovak Republic where it is located and it is fully subject to the Slovak legal bindings, the EU regulation (mainly CSDR Regulation and delegated legislation) and the international agreements legally binding in Slovakia. CDCP does not perform a business in multiple jurisdictions. CDCP has determined the law of the Slovak Republic as the applicable law in the frame of the rules governing all its operations, including the securities settlement system. According to collision rules, the rights and obligations of the participants in the settlement system (who carry out securities transactions) are governed by the law of the securities settlement system which in this case is law of the Slovak Republic.

All the rules, contracts are been prepared by legal department of CDCP in order to ensure clear and understandable documents in compliance with the relevant law. The court of the Slovak Republic as the competent court for settling disputes which might occur between contractual parties, including foreign entities, is guaranteed by the legal department of CDCP. For ensuring that all rules, contracts and documents are consistent with the relevant law, control mechanism such as internal audit and internal control applies. In addition, all rules and procedures of CDCP are subject to supervision of the National Bank of Slovakia as the national competent authority.

<p>G02Q006 What are the material aspects of the CSD's activities that require a high degree of legal certainty (for example, rights and interests in financial instruments, settlement finality, netting, interoperability, immobilisation and dematerialisation of securities, arrangements for DvP, PvP or DvD, collateral arrangements (including margin arrangements), and default procedures)?</p> <p>PFMI: Q.1.1.1 AGC: n/a</p> <p>Regulatory framework (rights and obligations): CDCP is located in the Slovak Republic therefore all activities of CDCP are being performed in jurisdiction of the Slovak Republic and in compliance with the legally binding European Union regulations. In particular, the activities are regulated mostly by Act no. 566/2001 Coll. on Securities and Investment services - "Act on Securities" (SR) and by CSDR Regulation (EU).</p> <p>Asset protection: Is regulated by CSDR Regulation and has been implemented to CDCP 's rules and procedures. The relevant jurisdiction is the jurisdiction of the Slovak Republic. CDCP observes the requirements regarding the account segregation and protection of the clients in accordance with CSDR.</p> <p>Settlement Finality: The Finality Directive 98/26/EC and CSDR Regulation have been implemented to the national law (Act on Securities). The relevant jurisdiction is the jurisdiction of the Slovak Republic.</p> <p>Contractual framework: Individual contracts with the clients contain the provision under which the rights and obligations of the parties are governed by the law of the Slovak Republic and therefore their enforceability is guaranteed within the Slovak jurisdiction. Moreover, the contracts concluded between CDCP and its clients are fully covered by the Rules of Operation, which refer to the law of the Slovak Republic in its provisions with regard to the clients.</p> <p>Default of participants: The Finality Directive 98/26/EC and CSDR Regulation have been implemented to the national law (Act on Securities). The specific rules which take into account the guidelines regarding T2S from the relevant authorities are set in The Rules of Operation, which are binding on CDCP participants.</p> <p>Immobilisation of securities CDCP does not perform immobilisation of securities.</p> <p>Collateral arrangements Regulated by the law of the Slovak Republic (mostly by the Act on Securities).</p>
<p>G02Q007 What are the relevant jurisdictions for each material aspect of the CSD's activities?</p> <p>PFMI: Q.1.1.2 AGC: n/a</p> <p>CDCP Slovakia performs its activities in the jurisdiction of the Slovak Republic.</p>
<p>G02Q008 How does the CSD ensure that its legal basis (that is, the legal framework and the CSD's rules, procedures and contracts) provides a high degree of legal certainty for each material aspect of the CSD's activities in all relevant jurisdictions? In particular, how does the CSD ensure that its legal basis supports the immobilisation or dematerialisation of securities and the transfer of securities by book entry? In addition, if the CSD has a netting arrangement, how does the CSD ensure that its legal basis supports the enforceability of that arrangement? Where settlement finality occurs in the CSD, how does the CSD ensure that its legal basis supports the finality of transactions, including those of an insolvent participant? Does the legal basis for the external settlement mechanisms the CSD uses, such as funds transfer or securities transfer systems, also support this finality?</p> <p>PFMI: Q.1.1.3 AGC: n/a</p> <p>CDCP SR was established and performs its activities in the jurisdiction of the Slovak Republic and it is fully subject to the Slovak legal bindings, EU regulation (mainly CSDR Regulation and delegated regulations) and international agreements legally binding on the Slovak Republic. According to collision rules contained in the Slovak regulation, the rights and obligations of the participants in the settlement system (who carry out securities transactions) are governed by the law of the settlement system of securities transactions. The Rules of Operation in accordance with the local legislation (Act on Securities) and with concluded contracts are binding for all CDCP's participants. The rules and the contracts further clarify the governing law under which the legal relationship and the settlement system operated by CDCP are governed.</p>
<p>G02Q009 How has the CSD demonstrated that its rules, procedures and contracts are clear and understandable?</p> <p>PFMI: Q.1.2.1 AGC: n/a</p> <p>CDCP has determined the Slovak law as the applicable law in the frame of the rules governing its operations, including the settlement system of securities transactions, in particular in the Rules of Operation and in the relevant contracts with clients. The Slovak law as the applicable law is also determined for selected issues according to the Slovak act on securities. All these rules, contracts are prepared by the Legal department of CDCP in order to ensure clear and understandable documents in compliance with the relevant law. CDCP Rules of Operation are publicly available and its changes are always discussed in advance with the CDCP participants. The Compliance Department performs control to ensure that all rules, procedures and contracts comply with the legislation and provides the co-operation when necessary.</p>

G02Q010

How does the CSD ensure that its rules, procedures and contracts are consistent with relevant laws and regulations (for example, through legal opinions or analyses)? Have any inconsistencies been identified and remedied?

PFMI: Q.1.2.2
AGC: n/a

This is ensured by preparation the documents by the legal department in compliance with the relevant law. There have been no inconsistencies yet. There are also internal control mechanisms (compliance and internal control, internal audit) applied. CDCP is monitoring legislation through the Compliance Department in order to identify new legislation or amendments of legislation, and then implements the relevant changes to its rules, procedures etc. All rules and procedures are subject to supervision by the National Bank of Slovakia.

G02Q011

Are the CSD's rules, procedures and contracts reviewed or assessed by external authorities or entities?

PFMI: Q.1.2.2
AGC: n/a

All rules and procedures are subject to supervision by the National Bank of Slovakia.

G02Q012

Do the CSD's rules, procedures and contracts have to be approved before coming into effect? If so, by whom and how?

PFMI: Q.1.2.3
AGC: n/a

CDCP's rules and procedures are always approved before coming into effect by the Board of Directors or General Meeting, depending on character of the rules being approved. Contracts are always signed by two members of the Board of Directors. The CDCP Rules of Operation and the Scale of Fees are always discussed in advance with the user committee (whose members are the CDCP participants and issuers).

G02Q013

How does the CSD articulate the legal basis for its activities to relevant authorities, participants and, where relevant, participants' customers?

PFMI: Q.1.3.1
AGC: n/a

The CDCP publishes the basic information on its website, in particular: a) information that CDCP performs its activities on the basis of the granted authorization and in accordance with the relevant legislation and the scope of CDCP activities; b) CDCP Rules of Operation, which contains the determination of the applicable law which manages the settlement system and other CDCP activities; c) segregation of accounts under the conditions of the CDCP. The CDCP also provides information per request of the authorized person.

G02Q014

How does the CSD achieve a high level of confidence that the rules, procedures and contracts related to its operations are enforceable in all relevant jurisdictions identified in PFMI Principle 1 key consideration 1 (for example, through legal opinions and analyses)?

PFMI: Q.1.4.1
AGC: n/a

The rules, procedures and contracts are governed by the Slovak regulation. In the sense of the contractual relationships (including contracts with foreign entities) the court of the Slovak Republic is the competent court for settling disputes. This is also guaranteed by preparation of the documents by the legal department in compliance with the relevant law.

G02Q015

How does the CSD achieve a high degree of certainty that its rules, procedures and contracts will not be voided, reversed or subject to stays? Are there any circumstances in which a CSD's actions under its rules, procedures or contracts could be voided, reversed or subject to stays? If so, what are those circumstances?

PFMI: Q.1.4.2
AGC: n/a

CDCP is not aware of any circumstances under which the rules, procedures or contracts could be terminated with the exception of the standard commercial law that allows termination of a contractual relationship and situation where the CDCP may potentially be subject to certain control action by its national authority (the National bank of Slovakia) in relation to its rules and procedures.

G02Q016

Has a court in any relevant jurisdiction ever held any of the CSD's relevant activities or arrangements under its rules and procedures to be unenforceable?

PFMI: Q.1.4.3
AGC: n/a

No

G02Q017

If the CSD is conducting business in multiple jurisdictions, how does the CSD identify and analyse any potential conflict-of-laws issues? When uncertainty exists regarding the enforceability of a CSD's choice of law in relevant jurisdictions, has the CSD obtained an independent legal analysis of potential conflict-of-laws issues? What potential conflict-of-laws issues has the CSD identified and analysed? How has the CSD addressed any potential conflict-of-laws issues?

PFMI: Q.1.5.1
AGC: n/a

CDCP is not conducting business in multiple jurisdictions, it performs its activities only under the Slovak regulations including legally binding EU regulation.

CDCP is a private joint-stock company based in territory of the Slovak Republic. Effective from 16 March 2006, Bratislava Stock Exchange has become a 100-percent shareholder of CDCP, as a result of deposit of a state property interest in CDCP business into the Stock Exchange's registered capital.

The governance arrangements of CDCP are specified in the Articles of Association. The Board of Directors includes one non-executive and independent member, and two non-executive and independent members in the Supervisory Board with appropriate skills for their roles. The composition of the Board of Directors, the Supervisory Board and also the Sole Shareholder of CDCP are published on the official Commercial Register website and it is publicly available. The current governance and management system is presented on CDCP website and provides clear and direct lines of responsibility and accountability.

In compliance with CSDR Regulation, CDCP has established the following committees:

Risk Committee – the advisory body of the Board of Directors that provides recommendations and opinions on all issues related to risk management;

- Audit Committee – the independent expert advisory body of the Supervisory Board of the company which purpose is to help the Supervisory Board to perform its control duties;
- Remuneration Committee – the independent expert advisory body of the Supervisory Board and the Board of Directors which purpose is to control and assess remuneration of the employees of CDCP and members of its governing bodies.

The roles, responsibilities and composition of these committees are described in relevant internal statutes. There is also the User Committee through which CDCP regularly consults relevant substantial questions and changes with the participants. The statute on the User Committee is disclosed to the public on the CDCP website.

Another object of the CDCP regulation is conflict of interest. It is based primarily on CSDR requirements and it is managed by compliance officers. The processes of identifying and addressing the conflicts are included in the internal directive on managing of conflicts of interest.

PFMI: n/a
AGC: 18

Yes
 No
 Not applicable

G03Q008	If yes, what fixed amount is required or what formula is used to determine the appropriate contribution level?
PFMI: n/a AGC: 18a.	
G03Q009	What are the CSD's objectives, and are they clearly identified?
PFMI: Q.2.1.1 AGC: n/a	
	Yes, the objectives are identified in the document CDCP Strategy for the period 2021-2023. This document is subject to approval of the Board of Directors.
G03Q010	How does the CSD assess its performance in meeting its objectives?
PFMI: Q.2.1.1 AGC: n/a	
	All objectives, specially financial aspects and economic activities of CDCP are at least annually assessed by the Board of Directors.
G03Q011	How do the CSD's objectives place a high priority on safety and efficiency? How do the CSD's objectives explicitly support financial stability and other relevant public interest considerations?
PFMI: Q.2.1.2 AGC: n/a	
	Security of client's assets, whether these are specific financial instruments or protected information, is of high priority and is inseparably connected to protection of CDCP as such. Important preventive instrument is Information Security Management System, implemented, operated and further developed in compliance with ISO/IEC 27001. CDCP has in place effective measures to protect processed data, information systems and all relating information assets critical for performance of CDCP activities, particularly in sense of securing confidentiality, integrity and availability of data processed electronically, or in other form. Special attention is dedicated to integrity of book-entry securities issues registered in CDCP. Procedures are implemented for prevention and early detection of illegal activity, primarily potential fraud or unauthorised acquiring of protected client's data, and for prevention of legalisation of proceeds of criminal activity and terrorist financing. Independent Compliance Function assures that all CDCP activities are compliant with the regulations. Adequate documents and processes are implemented to manage potential conflict of interests.
G03Q012	What are the governance arrangements under which the CSD's board of directors (or equivalent) and management operate? What are the lines of responsibility and accountability within the CSD? How and where are these arrangements documented?
PFMI: Q.2.2.1 AGC: n/a	
	The governance arrangements are governed by the Articles of Association. The current scheme of governance and management system is presented on CDCP website and provides clear and direct lines of responsibility and accountability. CDCP has implemented the requirements on the governance arrangements under Regulation CSDR to its documents.
G03Q013	For central bank-operated systems, how do governance arrangements address any possible or perceived conflicts of interest? To what extent do governance arrangements allow for a separation of the operator and oversight functions?
PFMI: Q.2.2.2 AGC: n/a	
	N/A
G03Q014	How does the CSD provide accountability to owners, participants and other relevant stakeholders?
PFMI: Q.2.2.3 AGC: n/a	
	The accountability to the CDCP owners is governed mostly by the national legislation (Commercial Code) and by the Articles of Association. The CDCP regularly consults the relevant substantial questions and changes with the its participants, especially in the User Committee. The current CDCP processing implemented CSDR requirements in relation to information provided to participants/user committee.
G03Q015	How are the governance arrangements disclosed to owners, relevant authorities, participants and, at a more general level, the public?
PFMI: Q.2.2.4 AGC: n/a	
	The scheme of governance and management system of CDCP is publicly available on the CDCP website. The composition of the Board of Directors, Supervisory board and also the Sole Shareholder of the CDCP is published in the Commercial Register website and it is publicly available.
G03Q016	What are the roles and responsibilities of the CSD's board of directors (or equivalent), and are they clearly specified? Please provide details of the structure and composition of your Board together with their industry experience and responsibilities in governing the CSD. What are the qualifications to become a board member?
PFMI: Q.2.3.1 AGC: 7d	
	The composition of the Board of Directors, Supervisory Board and also the Sole Shareholder of the CDCP is published in the Commercial Register website and it is publicly available. The members of the Board of Directors and Supervisory Board must have good reputation, professional experience in the financial industry. Also the rules regulating conflict of interest and noncompetition are applied to the members in accordance with the relevant regulation. The elementary scope of tasks and obligations of the boards are defined by the legal regulations (Commercial Code, CSDR Regulation) and internal statutes of CDCP.
G03Q017	What are the board's procedures for its functioning, including procedures to identify, address and manage member conflicts of interest? How are these procedures documented, and to whom are they disclosed? How frequently are they reviewed?
PFMI: Q.2.3.2 AGC: n/a	
	Management of conflict of interest is based primarily on CSDR requirements. Conflicts of interest are managed by the compliance officers and the processes for identification and addressing of the conflicts are included in the internal directive on managing of conflicts of interest. All potential or real conflicts are identified in a registry and it can be disclosed to the national authority if requested. The conflicts are reviewed at least annually. But the internal directive does not apply to members of the boards. With respect to the board members the specific rules and procedures are included in the Articles of Association and any conflicts of interest are resolved by the competent board or the General Meeting.

CDCP recognizes operational (includes risks of internal processes, information systems, human resources, security risks, risks of business continuity), legal, financial, investment, custody and general business risks. CDCP adopted the Risk Management Policy, internal regulations for management of borne risks and internal regulations for management of risks which bear participants and other CDCP's customers. CDCP's risk management systems fully respect requirements of the Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU, COMMISSION DELEGATED REGULATION (EU) 2017/392 of 11 November 2016 supplementing Regulation (EU) No 909/2014 of the European Parliament and of the Council with regard to regulatory technical standards on authorisation, supervisory and operational requirements for central securities depositories and the Regulation No 236/2012 referred to in article 26 and further provisions. Risk manager reviews and updates risk management policies and procedures annually. Comprehensive risk management cycle is performed on an annual basis too. Fluctuation in risk exposures is taken into account within risk mitigation actions (adjusting of internal controls mechanism). Risks that CDCP bears from and poses to other entities are fully included in CDCP's risk management system. If necessary, CDCP can exercise its right to impose restricted access to services or cancel participation. CDCP takes into consideration also risks to which it is exposed to by external entities (primarily key participants in the settlement systems, external suppliers, other CSDs or other market infrastructures). CDCP maintains catalogue of provided services, including information on maximum tolerable time in case of disruption of the services. Basic objectives, obligations and procedures related possible emergency situation are included in the Business Continuity Policy, Business Continuity Plans, Recovery Plans, Procedures in case of lack of capital, Plan for restructuring of activities and services of CDCP and other internal regulations.

G04Q002
 What types of risk arise in or are borne by the CSD?
 PFMI: Q.3.1.1
 AGC: n/a

CDCP recognizes:

1. **Operational risks** include risks, the source of which are deficiencies in internal processes, in information systems, in the failure of human resources or events in the external environment (e.g. an operational risk event at a participant or in the market infrastructure, connection failure, cyber attack from the outside, failure of an external supplier etc.)

Within operational risks, the CDCP distinguishes the following subcategories:

1a. Internal process risks are risks resulting from improperly or incorrectly set internal processes. The occurrence of a risk event can also be caused by an insufficient or ineffective system of internal controls and faulty or missing implementation of valid legal regulations.

1b. Risks of information systems are risks arising from deficiencies in information systems that may result in deterioration, limitation or interruption of CDCP's activities. These shortcomings can be in the form of insufficient computer equipment, insufficient SW / HW capacity, inappropriate connection of systems, failure of technology (information, telecommunications, etc.), information system outages, data loss, insufficient support for system users, incorrect information provided by IS, missing backups etc. This group also includes risks arising from unauthorized or incorrect access to information systems and insufficient security of databases against leakage of protected data.

1c. Human resource risks represent potential impacts caused by inattention, unintentional error, mistake or lack of knowledge of internal processes on the part of employees. This group also includes the possible effects of unauthorized (unauthorized) or even unlawful intentional actions by employees, misuse of information on their part, breach of confidentiality or abuse of their powers. The source of these risks can also be missing key employees, excessive concentration of responsibilities among some employees, employee protest actions, etc.

1 d. Security and environmental risks include risks related to the physical security of the CDCP. Their consequence can be damage to material and financial assets of CDCP (damage, destruction, theft, impairment, etc.), as well as threats to the health and safety of employees and other persons. This subcategory also includes fraud and other attacks directed at the CDCP from the external environment.

1e. Continuity risks represent potential consequences/losses caused by CDCP's inability to ensure the necessary continuity of activities and/or restoration of resources in case of crisis events (unavailability of the building, employees, information technology, financial resources, external services). This group also includes the risk of not being able to handle the process of possible termination of the activity.

1 f. Other operational risks. This group includes all operational risks that do not fall into the previous subcategories.

2. **Legal risks** are the risks of loss due to a violation or non-fulfillment of a legal standard by the CDCP and the risks of loss due to deficiencies or mistakes in legal actions performed by the CDCP. Legal risks also result from the possible unexpected application of a legal norm or regulation or their unforeseen change; from legal disputes (both passive and active); from CDCP's failure to document, enforce or comply with contractual agreements; from the conclusion of a legally unsatisfactory contract; from insufficient provision of contractually unregulated rights/claims or from the inability to fulfill contractually unregulated obligations.

3. **Investment risks** are risks resulting from the placement of CDCP funds, or their investment, especially in financial instruments. In terms of the CDCP, these risks are primarily of the nature of credit risk - the inability of the counterparty to fulfill its financial obligations in the agreed manner.

4. **General business risk** represents, in the terms of the CDCP, the possibility of economic losses resulting from inappropriate or faulty management and operation of the company as a business and from an incorrect business strategy.

5. **Custody risk** is related to the possible loss of assets that CDCP manages for other entities, mainly due to inappropriately kept records, negligence, fraud, insufficient care or insolvency.

6. **Other risks** - All other identified risks to which the CDCP is exposed and which cannot be classified in any of the categories 1 to 5 will be included in this category.

G04Q007

What are the CSD's policies, procedures and controls to help identify, measure, monitor and manage the risks that arise in or are borne by the CSD?

PFMI: Q.3.1.2
AGC: n/a

CDCP adopted the Risk Management Policy, internal regulations for management of borne risks and internal regulations for management of risks which bear participants and other CDCP's customers. In principle, the Risk Manager and Senior manager are responsible for identification of risks within the company's processes/areas of activity in its competence, i.e. against which is in the position of a risk guarantor. Identified risks are summarised in a catalogue of risk, which is updated at least on annual basis within a period determined by the CEO proposed by the Risk Manager. The Risk Manager and Senior manager are also required to identify risks arising from the external environment, especially from CDCP's connections (namely key participants, market infrastructures and other central depositories) external suppliers, the market environments, etc.

G04Q008

What risk management systems are used by the CSD to help identify, measure, monitor and manage its range of risks?

PFMI: Q.3.1.3
AGC: n/a

CDCP's risk management systems fully respect requirements of the Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU, COMMISSION DELEGATED REGULATION (EU) 2017/392 of 11 November 2016 supplementing Regulation (EU) No 909/2014 of the European Parliament and of the Council with regard to regulatory technical standards on authorisation, supervisory and operational requirements for central securities depositories and the Regulation No 236/2012 referred to in article 26 and further provisions.

G04Q009

How do these systems provide the capacity to aggregate exposures across the CSD and, where appropriate, other relevant parties, such as the CSD's participants and their customers?

PFMI: Q.3.1.4
AGC: n/a

Control and risk maps for all processes and business areas were made out. They are revised semi-annually. All arose risk incidents are taken into account when a risk exposure is evaluated. The risk map is compiled from risk catalogues. Risk catalogues are developed for each process / area separately. The catalogue of risks contains mainly following data:

- a) name of the risk,
- b) risk category (possibly also the name of the subcategory),
- c) name of the relevant process/area,
- d) name and surname of the risk guarantor, name of the relevant organizational unit,
- e) definition of the source of risk, including information on whether the source is internal or external,
- f) description of possible impacts (including the amount of potential loss/damage)
- g) information on whether the risk is local or systemic (impacts on market functioning),
- h) assessment of the size of the residual risk, i.e. the magnitude of the risk considering all existing mitigation measures; the assessment is carried out by the risk guarantor,
- i) a proposal for measures, in case adopting of measures is necessary in order to reduce relevant risk exposure to an acceptable level, or a description of the measures that are already being implemented and the implementation status.

G04Q010

What is the process for developing, approving and maintaining risk management policies, procedures and systems?

PFMI: Q.3.1.5
AGC: n/a

Risk manager is responsible for developing risk management policies, procedures and systems. Policies and other internal regulations related to the risk management are approved by the Board of Directors.

G04Q011

How does the CSD assess the effectiveness of risk management policies, procedures and systems?

PFMI: Q.3.1.6
AGC: n/a

The assessment of effectiveness of risk management policies, procedures and systems is performed by the Board of Directors and the Supervisory Board on the basis of semi-annual risk reports.

G04Q012

How frequently are the risk management policies, procedures and systems reviewed and updated by the CSD? How do these reviews take into account fluctuation in risk intensity, changing environments and market practices?

PFMI: Q.3.1.7
AGC: n/a

Risk Manager reviews and updates the Risk Management Policies and procedures annually. Comprehensive risk management cycle is performed on an annual basis too. Fluctuation in risk exposures is taken into account within risk mitigation actions (adjusting of internal controls mechanism) and business continuity plans, recovery plans and procedures in case of lack of capital are tested annually. Test results are incorporated in updated plans.

G04Q013

What information does the CSD provide to its participants and, where relevant, their customers to enable them to manage and contain the risks they pose to the CSD?

PFMI: Q.3.2.1
AGC: n/a

Participants and clients are required to meet the criteria and requirements contained in the Rules of Operation. If irregularities are found out or incidents occurred, CDCP is empowered to call for appropriate measures or impose sanctions.

G04Q014

What incentives does the CSD provide for participants and, where relevant, their customers to monitor and manage the risks they pose to the CSD?

PFMI: Q.3.2.2
AGC: n/a

On annual basis, CDCP submits to participants a questionnaire composed of questions related to the management of their own risks that might pose risks also for CDCP, CDCP evaluates this questionnaire accordingly and submits it to the Board of Directors.

G04Q015

How does the CSD design its policies and systems so that they are effective in allowing their participants and, where relevant, their customers to manage and contain their risks?

PFMI: Q.3.2.3
AGC: n/a

CDCP systematically identifies, measures, manages and monitors all risks faced by participants and clients regarding the use of CDCP services. On request, CDCP provides necessary information to participants and clients.

G04Q016 How does the CSD identify the material risks that it bears from and poses to other entities as a result of interdependencies? What material risks has the CSD identified? PFMI: Q.3.3.1 AGC: n/a	Risks that CDCP bears from and poses to other entities are fully included in CDCP's risk management system. If necessary, CDCP can exercise its right to impose restricted access to services or cancel participation.
G04Q017 How are these risks measured and monitored? How frequently does the CSD review these risks? PFMI: Q.3.3.2 AGC: n/a	Risks are assessed by management as well as by the risk manager. All risk incidents are recorded, the significance is evaluated and the corrective actions are monitored. The risk manager is responsible. Complete risk management cycle is performed annually or more frequently, depending on the significance.
G04Q018 What risk management tools are used by the CSD to address the risks arising from interdependencies with other entities? PFMI: Q.3.3.3 AGC: n/a	Risks arising from interdependencies are an ordinary part of risks treated within the regular risk management cycle.
G04Q019 How does the CSD assess the effectiveness of these risk management tools? How does the CSD review the risk management tools it uses to address these risks? How frequently is this review conducted? PFMI: Q.3.3.4 AGC: n/a	Internal audit carries out regular inspections of risk management tools and their effectiveness, and implements the frequency of inspections according to current needs.
G04Q020 How does the CSD identify scenarios that may potentially prevent the CSD from providing its critical operations and services? What scenarios have been identified as a result of these processes? PFMI: Q.3.4.1 AGC: n/a	The following scenarios were identified: damage to the building, various kind of IT failures, failure of a critical provider, absence of key employees and the unavailability of other adequate human resources, shortage of the capital and withdrawal of CSD license. For all the scenarios a Business Continuity Plan or a Recovery Plan is in place.
G04Q021 How do these scenarios take into account both independent and related risks to which the CSD is exposed? PFMI: Q.3.4.2 AGC: n/a	All continuously identified risks are considered in document revisions.
G04Q022 What plans does the CSD have for its recovery or orderly wind-down? PFMI: Q.3.4.3 AGC: n/a	Refer to PFMI: Q.3.4.1
G04Q023 How do the CSD's key recovery or orderly wind-down strategies enable the CSD to continue to provide critical operations and services? PFMI: Q.3.4.4 AGC: n/a	The information is confidential
G04Q024 How are the plans for the CSD's recovery and orderly wind-down reviewed and updated? How frequently are the plans reviewed and updated? PFMI: Q.3.4.5 AGC: n/a	The plans are reviewed annually by the BC manager

Credit risk (PFMI Principle 4)

G05Q001 Summary narrative for PFMI Principle 4. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.) PFMI: Annex A - CSD disclosure template - IV.P4 AGC: n/a	CDCP does not have a banking licence, thus it does not offer (intraday) credits to cover payment obligations in the settlement process. Therefore CDCP is not exposed to the credit risk in the securities settlement system. CDCP does not offer intraday or other type of credit for settling of trade, neither it guarantees settlement of the trade as CDCP does not act as the central counterparty.
---	---

G05Q002
Does the CSD have a banking license?

PFMI: n/a
AGC: n/a

- Yes
 No

G05Q003
Irrespective of whether or not the CSD has a banking license, can it offer cash accounts and/or credit to its participants?

PFMI: n/a
AGC: n/a

- Yes
 No

G05Q004
Please explain:

PFMI: n/a
AGC: n/a

G05Q005
What is the CSD's framework for managing credit exposures, including current and potential future exposures, to its participants and arising from its payment, clearing and settlement processes?

PFMI: Q.4.1.1
AGC: n/a

CDCP does not have special framework for management of the credit risk as CDCP is not exposed to such risk during securities settlement.

G05Q006
How frequently is the framework reviewed to reflect the changing environment, market practices and new products?

PFMI: Q.4.1.2
AGC: n/a

n/a

G05Q007
How does the CSD identify sources of credit risk? What are the sources of credit risk that the CSD has identified?

PFMI: Q.4.2.1
AGC: n/a

Credit risks come from issuers, participants and individual account holders as they could not be able pay for provided services. CDCP is not exposed to any other credit risk.

G05Q008
How does the CSD measure and monitor credit exposures? How frequently does and how frequently can the CSD recalculate these exposures? How timely is the information?

PFMI: Q.4.2.2
AGC: n/a

N/A

G05Q009
What tools does the CSD use to control identified sources of credit risk (for example, offering an RTGS or DvP settlement mechanism, limiting net debits or intraday credit, establishing concentration limits, or marking positions to market on a daily or intraday basis)? How does the CSD measure the effectiveness of these tools?

PFMI: Q.4.2.3
AGC: n/a

CDCP provides settlement on DVP principle (Model 1) and via RTGS mechanism. CDCP does not offer any credits to its participants and efectivity of these tools is regularly measured by default reports on settlement or settlement fails.

G05Q010
How does the SSS cover its current and, where they exist, potential future exposures to each participant? What is the composition of the CSD's financial resources used to cover these exposures? How accessible are these financial resources?

PFMI: Q.4.3.1
AGC: n/a

CDCP does not provide the participants in the settlement system with any credit, neither it guarantees the settlement. Therefore CDCP does not have financial reserve to be used to fulfil payment obligations of defaulted member.

G05Q011
Does the CSD have a guaranty fund independent of stock exchange or other market guarantees?

PFMI: Q.4.3.1
AGC: 78

- Yes
 No
 Not applicable

G05Q012
If yes, please respond to the following questions: What is the size of the fund?

PFMI: Q.4.3.1
AGC: 78a.

G05Q013
How is the size of the fund determined?

PFMI: Q.4.3.1
AGC: 78b.

- By participant volume
- By asset value
- A fixed amount

G05Q014
How is the fund financed?

PFMI: Q.4.3.1
AGC: 78d.

- Contributions from owner
- Contributions from participants
- Funding from retained earnings
- Other: N/A

G05Q015
If so, what is the amount or percentage per owner?

PFMI: Q.4.3.1
AGC: 78e.

G05Q016
If so, what is the amount or percentage per participant?

PFMI: Q.4.3.1
AGC: 78f.

G05Q017
Who is covered by the fund?

PFMI: Q.4.3.1
AGC: 78h.

- Direct CSD participants only
- The beneficial owner also
- OTHER: N/A

G05Q018
When is the guaranty fund used?

PFMI: Q.4.3.1
AGC: 78j.

- When a broker defaults
- When a direct participant defaults
- OTHER: N/A

G05Q019
To what extent do these financial resources cover the payment system's or SSS's current and potential future exposures fully with a high degree of confidence? How frequently does the payment system or SSS evaluate the sufficiency of these financial resources?

PFMI: Q.4.3.2
AGC: n/a

CDCP does not provide the participants in the settlement system with any credit, neither it guarantees the settlement. Therefore CDCP does not have financial reserve to be used to fulfil payment obligations of defaulted member.

G05Q020
If the payment system or SSS is a DNS system in which there is no settlement guarantee, do its participants face credit exposures arising from the payment, clearing and settlement processes? If there are credit exposures in the system, how does the system monitor and measure these exposures?

PFMI: Q.4.3.3
AGC: n/a

n/a - CDCP does not operate DNS SSS

G05Q021
Does the CSD have insurance to cover losses in the event of Default on settlement commitments by the CSD or a participant?

PFMI: Q.4.3.3
AGC: 91

- Yes
- No
- Not applicable

G05Q022
 What is the amount of the coverage?
 PFMI: Q.4.3.3
 AGC: 91a

G05Q023
 What is the amount of the deductible?
 PFMI: Q.4.3.3
 AGC: 91b

G05Q024
 Please explain other loss or default protections:
 PFMI: Q.4.3.3
 AGC: 79a
 N/A

G05Q025
 Does the CSD accept liability (independent of any insurance coverage) for the following: Any direct damages or losses to participants caused by the CSD in its capacity as a central counterparty?
 PFMI: Q.4.3.3
 AGC: 66q.

Yes
 No
 Not applicable

G05Q026
 If yes, please check all of the following that apply:
 PFMI: Q.4.3.3
 AGC: 66r.

Financial limits are imposed on the amount of liability assumed by the CSD
 The CSD assumes liability for direct losses
 The CSD assumes liability for indirect or consequential losses
 OTHER:

G05Q027
 If the payment system or SSS is a DNS system in which there is no settlement guarantee and has credit exposures among its participants, to what extent does the payment system's or SSS's financial resources cover, at a minimum, the default of the two participants and their affiliates that would create the largest aggregate credit exposure in the system?
 PFMI: Q.4.3.4
 AGC: n/a
 n/a - CDCP does not operate DNS SSS

G05Q028
 How do the CSD's rules and procedures explicitly address any credit losses it may face as a result of any individual or combined default among its participants with respect to any of their obligations to the CSD? How do the CSD's rules and procedures address the allocation of uncovered credit losses and in what order, including the repayment of any funds a CSD may borrow from liquidity providers?
 PFMI: Q.4.7.1
 AGC: n/a
 CDCP does not provide the participants with credits so it is not exposed to the credit risk in case of participant's default. CDCP does not borrow cash funds to settle trades in case of participant's default, neither it gurantees the settlement.

G05Q029
 What are the CSD's rules and procedures on the replenishment of the financial resources that are exhausted during a stress event?
 PFMI: Q.4.7.2
 AGC: n/a
 n/a - CDCP does not use own or borrowed financial resources to fulfil the obligation for defaulted participant.

Liquidity risk (PFMI Principle 7)

G07Q001 Summary narrative for PFMI Principle 7. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.) PFMI: Annex A - CSD disclosure template - IV.P7 AGC: n/a	CDCP is not directly exposed to the liquidity risk. The participants can be exposed to the liquidity risk. The liquidity risk is limited by providing the settlement services via T2S, settlement in central bank money and application of RTGS principle, use of DVP method and different incentives for early settlement (night settlement and surcharge for day-time settlement). CDCP provides its participants with tool for tracking their obligations and claims resulting from settlement of their instructions via automatic processing of the instruction and automatic delivery of information (a) on each change of processing and settlement status of instruction and (b) on their cash obligations and claims resulting from settlement, whereas this information is available also for the payment banks.
G07Q002 What is the CSD's framework for managing its liquidity risks, in all relevant currencies, from its participants, settlement banks, nostro agents, custodian banks, liquidity providers and other entities? PFMI: Q.7.1.1 AGC: n/a	CDCP did not identify liquidity risk of the settlement system it operates in relation to any of specified parties as CDCP does not guarantee settlement. In case any participant shall not deliver required cash, instructions of that participant shall not settle.
G07Q003 What are the nature and size of the CSD's liquidity needs, and the associated sources of liquidity risks, that arise in the CSD in all relevant currencies? PFMI: Q.7.1.2 AGC: n/a	n/a
G07Q004 How does the CSD take into account the potential aggregate liquidity risk presented by an individual entity and its affiliates that may play multiples roles with respect to the CSD? PFMI: Q.7.1.3 AGC: n/a	n/a
G07Q005 What operational and analytical tools does the CSD have to identify, measure and monitor settlement and funding flows? PFMI: Q.7.2.1 AGC: n/a	n/a
G07Q006 How does the CSD use those tools to identify, measure and monitor its settlement and funding flows on an ongoing and timely basis, including its use of intraday liquidity? PFMI: Q.7.2.2 AGC: n/a	n/a
G07Q007 How does the payment system or SSS determine the amount of liquid resources in all relevant currencies to effect same day settlement and, where appropriate, intraday or multiday settlement of payment obligations? What potential stress scenarios (including, but not limited to, the default of the participant and its affiliates that would generate the largest aggregate payment obligation in extreme but plausible market conditions) does the payment system or SSS use to make this determination? PFMI: Q.7.3.1 AGC: n/a	N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore, CDCP is not holding any liquid sources that could be used to finalize securities settlement.
G07Q008 What is the estimated size of the liquidity shortfall in each currency that the payment system or SSS would need to cover? PFMI: Q.7.3.2 AGC: n/a	N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP is not monitoring potential lack of liquidity in EUR - the settlement currency.

G07Q009

How does the CCP determine the amount of liquid resources in all relevant currencies to settle securities-related payments, make required variation margin payments and meet other payment obligations on time? What potential stress scenarios (including, but not limited to, the default of the participant and its affiliates that would generate the largest aggregate payment obligation in extreme but plausible market conditions) does the CCP use to make this determination?

PFMI: Q.7.4.1
AGC: n/a

n/a

G07Q010

What is the estimated size of the liquidity shortfall in each currency that would need to be covered, following the default of the participant and its affiliates that would generate the largest aggregate payment obligation to the CCP in extreme but plausible market conditions? How frequently does the CCP estimate this?

PFMI: Q.7.4.2
AGC: n/a

n/a

G07Q011

Do any of the CCP's activities have a more complex risk profile (such as clearing financial instruments that are characterised by discrete jump-to-default price changes or that are highly correlated with potential participant defaults)? Is the CCP systemically important in multiple jurisdictions?

PFMI: Q.7.4.3
AGC: n/a

n/a

G07Q012

If the CCP is involved in activities with a more complex risk profile or is systemically important in multiple jurisdictions, has the CCP considered maintaining additional resources sufficient to cover a wider range of stress scenarios that would include the default of the two participants and their affiliates that would generate the largest aggregate payment obligation to the CCP in extreme but plausible market conditions?

PFMI: Q.7.4.4
AGC: n/a

n/a

G07Q013

What is the size and composition of the CSD's qualifying liquid resources in each currency that is held by the CSD? In what manner and within what time frame can these liquid resources be made available to the CSD?

PFMI: Q.7.5.1
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

G07Q014

What prearranged funding arrangements has the CSD established to convert its readily available collateral and investments into cash? How has the CSD established that these arrangements would be highly reliable in extreme but plausible market conditions? Has the CSD identified any potential barriers to accessing its liquid resources?

PFMI: Q.7.5.2
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

G07Q015

If the CSD has access to routine credit at the central bank of issue, what is the CSD's relevant borrowing capacity for meeting its minimum liquid resource requirement in that currency?

PFMI: Q.7.5.3
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

G07Q016

To what extent does the size and the availability of the CSD's qualifying liquid resources cover its identified minimum liquidity resource requirement in each currency to effect settlement of payment obligations on time?

PFMI: Q.7.5.4
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

G07Q017

What is the size and composition of any supplemental liquid resources available to the CSD?

PFMI: Q.7.6.1
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

G07Q018

How and on what basis has the CSD determined that these assets are likely to be saleable or acceptable as collateral to obtain the relevant currency, even if this cannot be reliably prearranged or guaranteed in extreme market conditions?

PFMI: Q.7.6.2
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.

G07Q019

What proportion of these supplemental assets qualifies as potential collateral at the relevant central bank?

PFMI: Q.7.6.3
AGC: n/a

N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement. CDCP does not have access to central bank liquidity.

<p>G07Q020 In what circumstances would the CSD use its supplemental liquid resources in advance of, or in addition to, using its qualifying liquid resources?</p> <p>PFMI: Q.7.6.4 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.</p>
<p>G07Q021 To what extent does the size and availability of the CSD's supplemental liquid resources, in conjunction with its qualifying liquid resources, cover the relevant liquidity needs identified through the CSD's stress test programme for determining the adequacy of its liquidity resources (see key consideration 9)?</p> <p>PFMI: Q.7.6.5 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement.</p>
<p>G07Q022 Does the CSD use a liquidity provider to meet its minimum required qualifying liquidity resources? Who are the CSD's liquidity providers? How and on what basis has the CSD determined that each of these liquidity providers has sufficient information to understand and to manage their associated liquidity risk in each relevant currency on an ongoing basis, including in stressed conditions?</p> <p>PFMI: Q.7.7.1 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement.</p>
<p>G07Q023 How has the CSD determined that each of its liquidity providers has the capacity to perform on its commitment in each relevant currency on an ongoing basis?</p> <p>PFMI: Q.7.7.2 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement.</p>
<p>G07Q024 How does the CSD take into account a liquidity providers potential access to credit at the central bank of issue?</p> <p>PFMI: Q.7.7.3 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement.</p>
<p>G07Q025 How does the CSD regularly test the timeliness and reliability of its procedures for accessing its liquid resources at a liquidity provider?</p> <p>PFMI: Q.7.7.4 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. CDCP does not have any liquidity provider, from who it could receive sources required to finalize securities settlement.</p>
<p>G07Q026 To what extent does the CSD currently have, or is the CSD eligible to obtain, access to accounts, payment services and securities services at each relevant central bank that could be used to conduct its payments and settlements and to manage liquidity risks in each relevant currency?</p> <p>PFMI: Q.7.8.1 AGC: n/a</p>
<p>CDCP has access to the cash accounts (DCA) administered by the central bank for the participant and is ancillary participant in the payment system operated by the central bank.</p>
<p>G07Q027 To what extent does the CSD use each of these services at each relevant central bank to conduct its payments and settlements and to manage liquidity risks in each relevant currency?</p> <p>PFMI: Q.7.8.2 AGC: n/a</p>
<p>CDCP is using accounts opened by the central bank (DCA) for the participants in the cash leg of the settlement process.</p>
<p>G07Q028 If the CSD employs services other than those provided by the relevant central banks, to what extent has the CSD analysed the potential to enhance the management of liquidity risk by expanding its use of central bank services?</p> <p>PFMI: Q.7.8.3 AGC: n/a</p>
<p>n/a</p>
<p>G07Q029 What, if any, practical or other considerations to expanding its use of relevant central bank services have been identified by the CSD?</p> <p>PFMI: Q.7.8.4 AGC: n/a</p>
<p>n/a</p>
<p>G07Q030 How does the CSD use stress testing to determine the amount and test the sufficiency of its liquid resources in each currency? How frequently does the CSD stress-test its liquid resources?</p> <p>PFMI: Q.7.9.1 AGC: n/a</p>
<p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.</p>

<p>G07Q031 What is the process for reporting on an ongoing basis the results of the CSD's liquidity stress tests to appropriate decision-makers at the CSD? for the purpose of supporting their timely evaluation and adjustment of the size and composition of the CSD's liquidity resources and liquidity risk management framework?</p> <p>PFMI: Q.7.9.2 AGC: n/a</p> <p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. Therefore CDCP is not holding any liquid sources that could be used to finalize securities settlement and is not making stress test.</p>
<p>G07Q032 What scenarios are used in the stress tests, and to what extent do they take into account a combination of peak historic price volatilities, shifts in other market factors such as price determinants and yield curves, multiple defaults over various time horizons, simultaneous pressures in funding and asset markets, and a spectrum of forward-looking stress scenarios in a variety of extreme but plausible market conditions?</p> <p>PFMI: Q.7.9.3 AGC: n/a</p> <p>N/A CDCP did not identify liquidity risk of securities settlement system it operates. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)</p> <p>PFMI: Annex A - CSD disclosure template - IV.P8 AGC: n/a</p> <p>CDCP is providing its settlement services via T2S. That ensures that DVP/DWP transactions settlement is concurrent final transfer of securities between the securities accounts and transfer of cash funds between the cash accounts (dedicated cash accounts) during the day in real time.</p>
<p>G08Q002 At what point is the settlement of a payment, transfer instruction or other obligation final, meaning irrevocable and unconditional? Is the point of settlement finality defined and documented? How and to whom is this information disclosed?</p> <p>PFMI: Q.8.1.1 AGC: n/a</p> <p>The settlement is final and irrevocable when relevant transaction is made in the settlement system (transfer of securities between the accounts of the transferor and transferee and in case of DVP also transfer of cash funds between cash accounts of the participants, or their settlement banks). This issue is clearly described in the Rules of Operation that are available to the public.</p>
<p>G08Q003 How does the CSD's legal framework and rules, including the applicable insolvency law(s), acknowledge the discharge of a payment, transfer instruction or other obligation between the CSD and its participants, or between participants?</p> <p>PFMI: Q.8.1.2 AGC: n/a</p> <p>CDCP is providing its settlement services via T2S and the settlement of the instruction is finished and irrevocable upon its settlement in T2S. The finishing of the settlement is provided through a fully automatic process in the CDCP system, and follows immediately after receipt of the confirmation of the settlement of the instruction from T2S. T2S is sending messages on different phases of the settlement process to CDCP/CDCP participant.</p>
<p>G08Q004 How does the CSD demonstrate that there is a high degree of legal certainty that finality will be achieved in all relevant jurisdictions (for example, by obtaining a well reasoned legal opinion)?</p> <p>PFMI: Q.8.1.3 AGC: n/a</p> <p>CDCP is providing its settlement services via T2S whereby it is ensured that settlement finality is compliant with the T2S documentation, also in case of cross-CSD settlement. The settlement is final and irrevocable when relevant transaction is made in the settlement system (transfer of securities between the accounts of the transferor and transferee, and in case of DVP also transfer of cash funds between cash accounts of the participants, or their settlement banks). This issue is clearly described in the Rules of Operation that are available to the public. Each link to another CDS is assessed by the European Central Bank. CDCP has no link to foreign CSD nowadays.</p>
<p>G08Q005 How does the CSD ensure settlement finality in the case of linkages with other CSD?? a) For an SSS, how is consistency of finality achieved between the SSS and, if relevant, the LVPS where the cash leg is settled? b) For a CCP for cash products, what is the relation between the finality of obligations in the CCP and the finality of the settlement of the CCP claims and obligations in other systems, depending on the rules of the relevant CSD/SSS and payment system?</p> <p>PFMI: Q.8.1.4 AGC: n/a</p> <p>CDCP is providing its settlement services via Target2-Securities whereby it is ensured that settlement finality also in case of cross-CSD settlement in compliance with T2S documentation</p>
<p>G08Q006 Is the CSD designed to complete final settlement on the value date (or same day settlement)? How does the CSD ensure that final settlement occurs no later than the end of the intended value date?</p> <p>PFMI: Q.8.2.1 AGC: n/a</p> <p>Yes, CDCP settles the instructions in batches (night settlement) and in real time in compliance with T2S principles. That is ensured by the system which is providing the settlement process on fully automatic basis.</p>
<p>G08Q007 Has the CSD ever experienced deferral of final settlement to the next business day that was not contemplated by its rules, procedures or contracts? If so, under what circumstances? If deferral was a result of the CSD's actions, what steps have been taken to prevent a similar situation in the future?</p> <p>PFMI: Q.8.2.2 AGC: n/a</p> <p>No. CDCP did not experience such situation.</p>
<p>G08Q008 Does the CSD provide intraday or real-time final settlement? If so, how? How are participants informed of the final settlement?</p> <p>PFMI: Q.8.2.3 AGC: n/a</p> <p>CDCP is provides only final settlement in real time. That is ensured by the system which is providing the settlement process on fully automatic basis. The participants are informed automatically via "Settlement confirmation" notification.</p>
<p>G08Q009 If settlement occurs through multiple-batch processing, what is the frequency of the batches and within what time frame do they operate? What happens if a participant does not have enough funds or securities at the settlement time? Are transactions entered in the next batch? If so, what is the status of those transactions and when would they become final?</p> <p>PFMI: Q.8.2.4 AGC: n/a</p> <p>Batch processing is made in compliance with the T2S schedule for night settlement. In case of lack of funds or securities the instructions are postponed to next batch or to real time settlement. As long as the transaction is not settled, its status is "unsettled", or waiting for settlement.</p>

G08Q010
 If settlement does not occur intraday or in real time, how has the LVPS or SSS considered the introduction of either of these modalities?

G08Q011
 How does the CSD define the point at which unsettled payments, transfer instructions or other obligations may not be revoked by a participant? How does the CSD prohibit the unilateral revocation of accepted and unsettled payments, transfer instructions or obligations after this time?
 PFMI: Q.8.3.1
 AGC: n/a
 CDCP defines the moment of irrevocability, which is given by the moment when the instructions are matched. From that moment is possible only to cancel the settlement instruction bilaterally. The system control shall assure that unilateral cancellation of the instruction is not possible.

G08Q012
 Under what circumstances can an instruction or obligation accepted by the system for settlement still be revoked (for example, queued obligations)? How can an unsettled payment or transfer instruction be revoked? Who can revoke unsettled payment or transfer instructions?
 PFMI: Q.8.3.2
 AGC: n/a
 The instruction can be cancelled as long it is not settled, or is not being settled. Cancellation of the instruction is possible through the system by respective instruction in sense of ISO 20022. Instruction can be cancelled by
 a) person who placed the instruction (trading venue, participant) under conditions set for the bilateral cancellation,
 b) CDCP after lapse of the defined recycling period for matched instructions (60 business days).

G08Q013
 Under what conditions does the CSD allow exceptions and extensions to the revocation deadline?
 PFMI: Q.8.3.3
 AGC: n/a
 CDCP does not allow exceptions and extensions to the cancellation deadlines.

G08Q014
 Where does the CSD define this information? How and to whom is this information disclosed?
 PFMI: Q.8.3.4
 AGC: n/a
 This information is defined in the publicly available Settlement System Rules.

CDCP serves as a central depository and operates the settlement system for debt securities (government, corporate), equities, units of unit trust, cooperative units, investment certificates and state T-bills. All securities issued in book-entry form and registered in CDCP registry are held and settled in CDCP. The paper form securities are not registered in CDCP, but CDCP is administering lists of shareholders.

Protection of assets of participants is governed by the national legislation (Act No. 566/2001 on Securities and Investment services, the insolvency law) and by EU regulation 909/2014 CSDR. Asset protection is ensured via the structure of accounts CDCP offers to its participants and clients, individual client segregation and omnibus client segregation are recognized. The assets of participants, owners and CDCP are segregated from each other. The segregation of participant's own securities from securities of their clients is mandatory, thus the participants are permitted to open unlimited number of securities accounts in structure most suitable for them.

CDCP has in place required daily reconciliation procedures and the issue integrity controls are integrated in the Settlement System. Debit balance and account overdraft are not allowed and the principles of double-entry accounting in connection with transaction settlement are implemented.

CDCP has stable and functional risk management system. CDCP has effective measures for protection of processed data, information systems and all related information assets to assure their confidentiality, integrity and availability. Information Security Management System is operated in compliance with the internationally recognized standard for Information Systems Security - ISO/IEC 27001.

Other services provided by CDCP are: assigning ISIN, LEI and other codes; redemption of principal and yield/dividend at the request of issuer; administration of shareholders registry, Corporate Actions processing support (incl. tax, GM, information services), Pledge registry, Registry of transfers as collateral.

G11Q038
Please describe:

PFMI: Q.11.1.1
AGC: 56d

G11Q039
How do the CSD's rules, procedures and controls ensure that the securities it holds on behalf of participants are appropriately accounted for on its books and protected from risks associated with the other services the CSD may provide?

PFMI: Q.11.1.2
AGC: n/a

Asset protection is secured by the way and structure of account management within the CDCP records. Individual client segregation and omnibus client segregation apply. The assets of each participant and owner are segregated from the CDCP assets and of other participants and CP owners: The insolvency law also safeguards the assets of the CDCP clients. Detailed information CDCP publishes on its website.

G11Q040
In what form does the CSD maintain records identifying the assets of each participant?

PFMI: Q.11.1.2
AGC: 45

- Computer file
- Microfiche
- Hard copy
- Computer tape
- OTHER:

G11Q041
In which format is the source data maintained?

PFMI: Q.11.1.2
AGC: 45b

G11Q042
How does the CSD ensure that it has robust accounting practices? Do audits review whether there are sufficient securities to satisfy customer rights? How frequently are end-to-end audits conducted to examine the procedures and internal controls used in the safekeeping of securities?

PFMI: Q.11.1.3
AGC: n/a

All securities registered and held in CDCP are in dematerialised form and it is stipulated by law that all book-entry securities are settled in the securities central depository. CDCP has effective measures for protection of processed data, information systems and all related information assets that are critical for CDCP activities. CDCP is ensuring segregation of accounts and assets by use of omnibus and individual client segregation. With regard to securities issue integrity CDCP applies several controls (continual and periodic), principles of double-entry accounting in connection with transaction settlement and debit balance and account overdraft are not allowed. CDCP has in place daily reconciliation procedures and the issue integrity controls are integrated in the Settlement System. CDCP has stable and functional risk management system and the Internal Audit provides assurance also on reliability and integrity of financial and operational information, efficiency, effectiveness. Operational audit is performed at least on annual basis.

G11Q043
What are the CSD's internal procedures to authorise the creation and deletion of securities? What are the CSD's internal controls to prevent the unauthorised creation and deletion of securities?

PFMI: Q.11.1.4
AGC: n/a

Creation and deletion of securities is limited to employees of relevant department providing services related to the issuers and securities issues. To prevent unauthorised creation or deletion of securities CDCP conducts multilevel control in the system between the static data of given securities issue and processing of any request for change in data on the securities issue, issuance of securities, transaction settlement.

G11Q044
Does the CSD conduct periodic and at least daily reconciliation of the totals of securities issues in the CSD for each issuer (or its issuing agent)? How does the CSD ensure that the total number of securities recorded in the CSD for a particular issue is equal to the amount of securities of that issue held on the CSD's books?

PFMI: Q.11.1.5
AGC: n/a

Yes, CDCP conducts reconciliation regularly, on the end of each operation day. CDCP ensures the issue integrity through continuous control integrated in the Settlement System. This control ensures that unauthorised creation or deletion of securities is possible, due to multilevel control between the static data of given securities issue and processing of any request for change in data on the securities issue, issuance of securities, transaction settlement.

G11Q045
If the CSD is not the official registrar of the issues held on its books, how does the CSD reconcile its records with official registrar?

PFMI: Q.11.1.6
AGC: n/a

n/a

G11Q046

If the securities held with the CSD are recorded by book-entry at the registrar, what are the control features at the registrar for transfer of registrar positions to and from the CSD (e.g., authentication procedures, reconciliation, confirmation of position at registrar)? Please describe:

PFMI: Q.11.1.6
AGC: 52i

n/a

G11Q047

How does the CSD prevent overdrafts and debit balances in securities accounts?

PFMI: Q.11.2.1
AGC: n/a

CDCP prevents overdrafts through automatic system restriction of transferred securities, i.e. it is not possible to settle the transaction unless the securities to be transferred are on the account of transferor.

G11Q048

Are securities issued or maintained in a dematerialised form? What percentage of securities is dematerialised, and what percentage of the total volume of transactions applies to these securities?

PFMI: Q.11.3.1
AGC: n/a

Yes, CDCP provides services of initial registration of securities in the book-entry securities system ("registration services") only for dematerialised securities. 100% of securities is dematerialised and 100% of the transactions applies to these securities.

G11Q049

How are CSD eligible securities held by the CSD?

PFMI: Q.11.3.1
AGC: 50, 50a

In dematerialized form

In certificated form

OTHER:

G11Q050

If securities are issued as a physical certificate, is it possible to immobilise them and allow their holding and transfer in a book-entry system? What percentage of securities is immobilised, and what percentage of the total volume of transactions applies to immobilised securities?

PFMI: Q.11.3.2
AGC: n/a

The CDCP does not provide securities immobilisation services, because such a method of registration of securities is not used in the long term under CDCP conditions. The national law of the Slovak Republic allows for a change of the form of securities.

G11Q051

If CSD eligible securities are certificated, can CSD eligible securities be held outside of the CSD?

PFMI: Q.11.3.2
AGC: 51

All eligible securities must be held in the CSD

Securities may move freely into and out of the CSD

Once entered into the CSD, eligible securities must remain in the CSD

Certain designated securities may be held outside the CSD

Not applicable

Other: Generally, if the issue is held in paper form, it is not entered in the registry of the CSD and therefore it is not eligible for CSD operations. For registered shares in paper form, the CSD only administers the lists of shareholders.

G11Q052

If certain designated securities are held outside the CSD, please indicate under which conditions these securities would be held outside the CSD:

G11Q068
 How do the CSD's rules and procedures protect assets against custody risk, including the risk of loss because of the CSD's negligence, misuse of assets, fraud, poor administration, inadequate recordkeeping or failure to protect participants' interests in their securities?
 PFMI: Q.11.4.1
 AGC: n/a
 CDCP has stable and functional risk management system, consisting of organisation structure of CDCP with clearly defined responsibility lines, and effective procedures for identification, measuring, monitoring, reporting and managing of risks. Main principles and procedure CDCP applies to risk management and basic organisational framework for risk management are defined in the Risk Management Policy. In connection with confidentiality, integrity and availability of data processed electronically or in other form, CDCP has effective measures for protection of processed data, information systems and all related information assets that are critical for CDCP activities. Information Security Management System is implemented, operated and developed in compliance with internationally recognised standard for Information Systems Security - ISO/IEC 27001. CDCP is ensuring segregation of accounts and assets by use of omnibus and individual client segregation. With regard to securities issue integrity CDCP applies several controls (continual and periodic), has implemented principles of double-entry accounting in connection with transaction settlement and it does not allow debit balance and account overdraft.

What segregation arrangements are in place at the CSD? How does the CSD ensure segregation between its own assets and the securities of its participants? How does the CSD ensure segregation among the securities of participants?

PFMI: Q.11.5.1
AGC: n/a

CDCP ensures segregation of accounts and assets through omnibus and individual client segregation. Securities are held on accounts of different types depending on the segregation chosen. All accounts are segregated from each other and securities are always held on a specific account. CDCP is compliant with the requirements of CSDR Regulation.

CDCP provides settlement services via Target2-Securities. This ensures that DVP/DWP transactions shall be settled as concurrent transfer of securities between the securities accounts and of cash funds between the cash accounts (dedicated cash accounts).

G12Q002
How do the CSD's legal, contractual, technical and risk management frameworks ensure that the final settlement of relevant financial instruments eliminates principal risk? What procedures ensure that the final settlement of one obligation occurs if and only if the final settlement of a linked obligation also occurs?

Participant default rules and procedures (PFMI Principle 13)

G13Q001

Summary narrative for PFMI Principle 13. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P13
AGC: n/a

CDCP rules contain all precautions that CDCP will perform in the event of a participant's failure. The precautions include solving of the participant's default, other participants and relevant authorities and the measures to solve the operating failures.

The participant's default is defined as the situation when insolvency proceedings against participant have started as defined in Article 2 (j) of Directive 98/26/EC. It means a collective measure provided by relevant law of the participant's country or third country with the purpose of liquidation or reorganization of participant where such a measure involves the temporary suspension or the imposition of a limitation on transfer or payments.

Operating failure is occurrence of incident that prevents a participant from fulfilling the obligations of a participant, unavailability of technical infrastructure of participant's communication service provider, or any other operational problem on the side of the participant.

CDCP measures include the immediate measures (restrictions on participants accounts, management of instructions and transactions affected by default) which might include suspending or limiting access of a failed participant to certain or all services, removing access, withdrawing access, whereas CDCP decision will depend on the assessment of all circumstances of the particular case.

CDCP performs testing of all possibly and available scenarios of a participant's default once a year, respectively in the event of a change in CDCP procedures. The participants are required to participate in the test. The test results are presented to the Risk Manager, the Board of Directors, the User Committee and the national authority.

The roles and responsibilities of each level of CDCP management are documented in internal directive on participant default. The key aspects of CDCP's participants default rules are publicly available on CDCP website as the part of Rules of Operation.

G13Q002

Do the CSD's rules and procedures clearly define an event of default (both a financial and an operational default of a participant) and the method for identifying a default? How are these events defined?

PFMI: Q.13.1.1
AGC: n/a

Yes. Financial default is defined as: the situation when a bankruptcy procedure against participant has been started as defined in Article 2 (j) of Directive 98/26/EC what means a collective measure provided by relevant law of the participants country or third country with the purpose of liquidation or reorganization of participant where such a measure involves the temporary suspension or limitation on transfer or payments. Operational failure is an existing occurrence that prevents a participant from fulfilling the obligations of a participant or its communications service with technical infrastructure or any other operational problems on the side of the participant.

G13Q003

How do the CSD's rules and procedures address the following key aspects of a participant default: a) the actions that the CSD can take when a default is declared, b) the extent to which the actions are automatic or discretionary, c) changes to normal settlement practices, d) the management of transactions at different stages of processing, e) the expected treatment of proprietary and customer transactions and accounts, f) the probable sequencing of actions, g) the roles, obligations and responsibilities of the various parties, including non-defaulting participants, and h) the existence of other mechanisms that may be activated to contain the impact of a default?

PFMI: Q.13.1.2
AGC: n/a

The CDCP rules include all precautions that CDCP will perform in the event of a participant failure, including informing other participants and relevant authorities on a default participant. CDCP measures include immediate measures (restrictions on participants accounts, management of instructions and transactions affected by default) which may include suspending or limiting access of failed participant to certain or all services, removing access or withdrawing access that CDCP will decide on upon assessment of all circumstances of the particular case. CDCP rules took into account the guidelines from EU supervisors. At the same time, CDCP applies the T2S rules in relation to the participant's failure.

G13Q008

How do the CSD's rules and procedures allow the CSD to promptly use any financial resources that it maintains for covering losses and containing liquidity pressures arising from default, including liquidity facilities?

PFMI: Q.13.1.3
AGC: n/a

N/A - CDCP does not guarantee settlement and therefore does not hold any financial reserves, nor does it have access to other sources of liquidity that it could use to cover the default.

G13Q009

How do the CSD's rules and procedures address the order in which the financial resources can be used?

PFMI: Q.13.1.5
AGC: n/a

n/a

G13Q015
Does the CSD's management have internal plans that clearly delineate the roles and responsibilities for addressing a default? What are these plans?

PFMI: Q.13.2.1
AGC: n/a

Yes. The internal directive on participants default clearly describes the roles and responsibilities of each level of CDCP management.

G13Q016
What type of communication procedures does the CSD have in order to reach in a timely manner all relevant stakeholders, including regulators, supervisors and overseers?

PFMI: Q.13.2.2
AGC: n/a

e-mail, regular post

G13Q017
How frequently are the internal plans to address a default reviewed? What is the governance arrangement around these plans?

PFMI: Q.13.2.3
AGC: n/a

CDCP tests the internal plans at least once a year with the participants, respectively more often in case of a change in the internal plan. In the event of inconsistencies during testing, CDCP will update its internal plan to remove them.

G13Q018
How are the key aspects of the CSD's participant default rules and procedures made publicly available? How do they address: a) the circumstances in which action may be taken, b) who may take those actions, c) the scope of the actions which may be taken, including the treatment of both proprietary and customer positions, funds and assets, d) the mechanisms to address an CSD's obligations to non-defaulting participants, and e) where direct relationships exist with participants' customers, the mechanisms to help address the defaulting participant's obligations to its customers?

PFMI: Q.13.3.1
AGC: n/a

All aspects regarding the participants are publicly available in CDCP Rules of Operation.

G13Q019
How does the CSD engage with its participants and other relevant stakeholders in the testing and review of its participant default procedures? How frequently does it conduct such tests and reviews? How are these tests results used? To what extent are the results shared with the board, risk committee and relevant authorities?

PFMI: Q.13.4.1
AGC: n/a

CDCP test the participant's failure procedures once a year, respectively in the event of a change in CDCP procedure. Participants are required to participate the testing. The test results are presented to the risk manager, the board of directors, the user committee and the national authority.

G13Q020
What range of potential participant default scenarios and procedures do these tests cover? To what extent does the CSD test the implementation of the resolution regime for its participants?

A financial audit is performed annually by an independent Audit company. CDCP has internal processes to assure sufficient own resources to cover possible loss incurred due to risk materialisation. Own resources (incl. retained earnings and reserves) are held in compliance with relevant regulations proportionally to the risks the Company is exposed to. CSD is holding liquid net assets covering 12 months operating expenses in average and in compliance with the regulation. CDCP holds only short time fixed deposits. CDCP has a plan for increase of additional equity if necessary (when assets are below 80% of the capital requirements).

 CDCP Investment Strategy and the Risk Management Policy (and related procedures) are reviewed regularly by the relevant employees. Except that, the Investment Strategy is disclosed to the National Bank of Slovakia (the central bank). CDCP makes deposits only in banks, and these are regulated entities, supervised, obliged to implement relevant policies and procedures. Only domestic banks are used, no assets (CDCP or participant) held with foreign custodians. To avoid concentration of credit risk exposures CDCP investments are limited to short terms deposits, are distributed in minimum 3 banks and value is maximum of 40% of total available amount.

G15Q002
 If the CSD uses custodians, how does the CSD select its custodians? What are the specific selection criteria the CSD uses, including supervision and regulation of these entities? How does the CSD monitor the custodians' adherence to these criteria?

Operational risk (PFMI Principle 17)

G16Q001

Summary narrative for PFMI Principle 17. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P17
AGC: n/a

Operational Risk Management is part of CDCP's risk management system. CDCP identified sources of operational risk in area of IT systems, human resources, from site of the external service providers, in external frauds, natural disasters and external attacks. Operational risk management framework is approved by the Board of Directors and is regularly reviewed. Requirements of the CSDR Regulation and other applicable EU regulations have been implemented into CDCP policies, rules and practice. Activities connected to the operational risks management are coordinated by the Risk Manager, who reports to the BoD and the Supervisory Board twice a year. CDCP implemented practices for IT service management according to ITIL and information security standard ISO 27001. Before CDCP implements any major change of the IT systems, or starts to provide new service or product, detailed analysis is made. The operation environment has sufficient capacity to process all received transactions and volume stress-test are made at least annually. Each business process has assigned the recovery time what is reflected in relevant IT systems recovery plans, possible utilisation of secondary processing site is included. Business Continuity and Recovery plans are tested annually. CDCP monitors operation of the key participants to mitigate related risks and with regard to connectivity of the participants to the CDCP Settlement System, their compliance with relevant requirements is necessary. With regards to operational risk CDCP is exposed to by the service and utility providers, CDCP is performing detailed risk analysis. If identified risk is not acceptable the contract is terminated or not concluded. Adequacy, effectiveness and reliability of management, operational and information systems and processes are reviewed by the Internal Audit Department. The controls conducted by the Internal Audit are executed according to the plans of internal controls approved by the BoD and the Supervisory Board. The external audits may be performed by the regulator - the National Bank of Slovakia (on its discretion) or by the external independent auditor – ad-hoc, based on CDCP order.

G16Q002

What are the CSD's policies and processes for identifying the plausible sources of operational risks? How do the CSD's processes identify plausible sources of operational risks, whether these risks arise from internal sources (for example, the arrangements of the system itself, including human resources), from the CSD's participants or from external sources?

PFMI: Q.17.1.1
AGC: n/a

Operational risk management is an integral part of CDCP's risk management system. For details see answers in the part Comprehensive risk management.

G16Q003

What sources of operational risks has the CSD identified? What single points of failure in its operations has the CSD identified?

PFMI: Q.17.1.2
AGC: n/a

The plausible sources of operational risks identified by CDCP are IT systems, human resources, external service providers, natural disasters and external attacks.

G16Q004

How does the CSD monitor and manage the identified operational risks? Where are these systems, policies, procedures and controls documented?

PFMI: Q.17.1.3
AGC: n/a

Refer to PFMI Q.17.1.1

G16Q005

What policies, processes and controls does the CSD employ that are designed to ensure that operational procedures are implemented appropriately? To what extent do the CSD's systems, policies, processes and controls take into consideration relevant international, national and industry-level operational risk management standards?

PFMI: Q.17.1.4
AGC: n/a

All Operational Risk management requirements derived from CSDR Regulation and other applicable EU regulations have been implemented into CDCP policies, rules as well as practice. CDCP implemented internal control mechanisms to ensure compliance with mentioned policies and procedures and to ensure their compliance with relevant regulation.

G16Q006

What are the CSD's human resources policies to hire, train and retain qualified personnel, and how do such policies mitigate the effects of high rates of personnel turnover or key-person risk? How do the CSD's human resources and risk management policies address fraud prevention?

PFMI: Q.17.1.5
AGC: n/a

CDCP has stable and functional system for remuneration /remuneration policy, remuneration committee/, providing for transparent, non-discriminatory and consistent method to set salaries for individual positions/functions. The remuneration policy is compliant with the business strategy, goals, values and long-term interest of the company. Measure preventing the conflict of interest are included (CDCP has separate regulation managing conflict of interests). CDCP adopted internal regulations for e.g. Training and education of employees, Organisation rules, Working regulations. CDCP has separate Human resources department.

G16Q007

How do the CSD's change management and project management policies and processes mitigate the risks that changes and major projects inadvertently affect the smooth functioning of the system?

PFMI: Q.17.1.6
AGC: n/a

Operational risk management is present in CDCP's change management and project management procedures. Without a detailed risk analysis neither a major change nor new product may be put into life.

G16Q008

How has the board of directors defined the key roles and responsibilities for operational risk management?

PFMI: Q.17.2.1
AGC: n/a

Risk manager is a key person who coordinates all activities in the area of operational risk management and reports to the board of directors as well as the supervisory board. Senior management as well as middle management are regularly involved.

G16Q009

Does the CSD's board explicitly review and endorse the CSD's operational risk management framework? How frequently does the board review and endorse the CSD's operational risk management framework?

PFMI: Q.17.2.2
AGC: n/a

Operational risk management framework as a part of comprehensive risk management is endorsed by the board. It reviews the framework semi-annually when the regular risk report is submitted by the Risk Manager.

G16Q010

How does the CSD review, audit and test its systems, policies, procedures and controls, including its operational risk management arrangements with participants? How frequently does the CSD conduct these reviews, audits and tests with participants?

PFMI: Q.17.2.3

AGC: n/a

Policies and procedures (notably BC plans and recovery plans) are tested annually. The operational risk management system is audited every year by internal and external auditors.

G16Q011

Internal Audit. Is an internal audit undertaken in your CSD?

PFMI: Q.17.2.3

AGC: 14

 Yes

 No

G16Q012

If yes, what areas does the audit cover (financials, operations, etc.) and which department in your CSD handles it?

PFMI: Q.17.2.3

AGC: 14a.

The Internal Audit Department provides assurance on the risk management activities related to ensuring the adequacy and effectiveness of management, operational and information processes and systems in terms of achieving the objectives and tasks of the CSD, reliability and integrity of financial and operational information, efficiency, effectiveness and cost - asset protection and compliance with generally binding legislation, internal regulations, contracts, and recommendations for its improvement.

G16Q019
To what extent, where relevant, is the CSD's operational risk management framework subject to external audit?
PFMI: Q.17.2.4
AGC: n/a

Risk management framework is audited based on the audit plan by the internal audit department in cooperation with external auditor.

G16Q028
What are the CSD's operational reliability objectives, both qualitative and quantitative? Where and how are they documented?
PFMI: Q.17.3.1
AGC: n/a

CDCP has several qualitative and quantitative indicators of operational reliability. These are documented in the relevant internal regulations of CDCP and in the Rules of Operation and are regularly reported to the management of CDCP, to the user committee and to the supervisory authority.

G16Q029
How do these objectives ensure a high degree of operational reliability?
PFMI: Q.17.3.2
AGC: n/a

The targets are set so that the CDCP system can process the usual volume of transactions on the market and make the system available to participants in the specified percentage range (99,5%) of the total declared availability of the system in a given period.

G16Q030
 What are the policies in place that are designed to achieve the CSD's operational reliability objectives to ensure that the CSD takes appropriate action as needed?
 PFMI: Q.17.3.3
 AGC: n/a

The operational reliability objectives are ensured by CDCP in accordance with the Information Security Management System Policy and other relevant internal regulations governing among other things the continuity of operation of CDCP information systems, implementation of planned changes to the production environment after the notification of the participants and at the respective phase of the operating day (maintenance window), security in the development of information systems and change management.

G16Q031
 How does the CSD review, audit and test the scalability and adequacy of its capacity to handle, at a minimum, projected stress volumes? How frequently does the CSD conduct these reviews, audits and tests?
 PFMI: Q.17.4.1
 AGC: n/a

The operation environment is developed and maintained with adequate spare capacity in relation to usual volume of transactions on the market. The operation environment has sufficient capacity to process all transactions before the end of the operation day phase. CDCP tests stress volumes processing at least 1 x per year.

G16Q032
 How are situations where operational capacity is neared or exceeded addressed?
 PFMI: Q.17.4.2
 AGC: n/a

The participants are obliged to report increase in volume of transactions to CDCP. That allows CDCP to monitor processing and to increase IT sources for virtual operation environment in advance.

G16Q033
 What are the CSD's policies and processes, including change management and project management policies and processes, for addressing the plausible sources of physical vulnerabilities and threats on an ongoing basis?
 PFMI: Q.17.5.1
 AGC: n/a

CDCP has all necessary documents covering procedures and policies (internal documents) addressing all relevant risks.

G16Q034
 How is access to the physical building controlled?
 PFMI: Q.17.5.1
 AGC: 74

- By guards
- By electronic keys
- personal ID card
- By alarm system

G16Q036
 Do the CSD's policies, processes, controls and testing appropriately take into consideration relevant international, national and industry-level standards for physical security?
 PFMI: Q.17.5.2
 AGC: n/a

Yes, CDCP takes in account relevant international and national standards.

G16Q037
 What are the CSD's policies and processes, including change management and project management policies and processes, for addressing the plausible sources of information security vulnerabilities and threats on an ongoing basis?
 PFMI: Q.17.5.3
 AGC: n/a

CDCP has implemented practices for IT service management according to ITIL and information security standards according to ISO 27001 which covers also incident and change management and testing procedures. According to information security standards CDCP maintains plans for risk mitigation actions and monitoring activities which are regularly reviewed and updated (4 times per year).

G16Q044
Do the CSD's policies, processes, controls and testing appropriately take into consideration relevant international, national and industry-level standards for information security?
PFMI: Q.17.5.4
AGC: n/a
Yes, the information security Standard ISO 27001.

G16Q045
How and to what extent does the CSD's business continuity plan reflect objectives, policies and procedures that allow for the rapid recovery and timely resumption of critical operations following a wide-scale or major disruption?
PFMI: Q.17.6.1
AGC: n/a
CDCP categorizes all its processes. For every business process maximum allowed "return to operation time" is assigned and this is reflected in relevant IT systems recovery plans and processes in order to resume of critical operations following any disruption.

G16Q046
How and to what extent is the CSD's business continuity plan designed to enable critical IT systems to resume operations within two hours following disruptive events, and to enable the CSD to facilitate or complete settlement by the end of the day even in extreme circumstances?
PFMI: Q.17.6.2
AGC: n/a
All critical CDCP's business processes are identified and relevant IT systems recovery plans and processes are designed with the aim to resume operations within two hours after disruptive events and complete settlement by the end of the day.

G16Q047
How quickly can the main system be reactivated in the event of an outage?

How is the contingency plan designed to ensure that the status of all transactions can be identified in a timely manner, at the time of the disruption, and if there is a possibility of data loss, what are the procedures to deal with such loss (for example, reconciliation with participants or third parties)?

PFMI: Q.17.6.3
AGC: n/a

Transaction log is back-upped during the day every 2 minutes to the secondary site. Possible loss of data within max 2 minutes would be resolved by reconciliation with participants.

G16Q049
How do the CSD's crisis management procedures address the need for effective communications internally and with key external stakeholders and authorities?

What risks has the CSD identified to its operations arising from its key participants, other CSD, and service and utility providers? How and to what extent does the CSD monitor and manage these risks?

PFMI: Q.17.7.1
AGC: n/a

Operational failure has been identified as a risk arising from key participants and CSDs. Therefore CDCP monitors operations of key participants and requires measures to be applied in terms of their connectivity to CDCP Settlement System and their participation on the failure testing.

Service and utility providers, namely key providers, expose CDCP to operational risks. Any arrangement undergoes detailed risk analysis. If an unacceptable risk exposure has been recognized, the contract is refused or terminated and an alternative provider is searched for.

Access and participation requirements (PFMI Principle 18)

G17Q001

Summary narrative for PFMI Principle 18. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P18
AGC: n/a

CDCP has established legal, operational and financial criteria for access of participant. Criteria have been determined as measures to mitigate the potential risks of external entity – applicant for participation – on CDCP and its clients. The scope of entities that may become participants in the securities settlement system of CDCP is set by EU regulation. Legal criteria are established to demonstrate the applicant's legal status for granting the access and authorisation to access individual types of services, existence of an applicant as the entity, non-applicability of international sanctions, information on how confidentiality and data protection is ensured by the applicant and information that allows CDCP to assess the applicant from AML point of view. Operational criteria are established to allow CDCP to assess the applicant's operational capacity, adequacy of its operational risk management system and business continuity arrangements, the adequacy of its IT tools and communication with CDCP in connection with execution of activities as CDCP participant, management of the applicant's conflict of interest, arrangement of information safety by the applicant, the existence of necessary identification codes in order to identify the participant in the CDCP's system or for reporting purposes and identification of applicant's DCA account. Financial criteria are established to assess the applicant's ability to meet its contractual obligations towards CDCP and to perform activities of the participant. All access criteria are assessed by CDCP prior to granting the access of participant to the securities settlement system. The applicant will be granted the access to the settlement system only if it meets all participation criteria and it does not pose any material risks to CDCP and its clients. Participants must meet participation criteria on an ongoing basis. CDCP is authorised to regularly assess compliance of participants with the participation criteria, what is done with annual frequency. The Participants are bound by the rules of CDCP and the agreement on participation to report any non-compliance with the participation criteria without any delay. Should CDCP itself identify any non-compliance with the participation criteria it may take remedial measures defined by the Rules of Operation of CDCP. The participation criteria are open and non-discriminatory and are publicly available on the CDCP's website to any interested party.

G17Q002

What are the CSD's criteria and requirements for participation (such as operational, financial and legal requirements)?

PFMI: Q.18.1.1
AGC: n/a

Legal criteria: existence of legal status for granting the access of participant; authorisation for access to individual types of services; identification of a supervisory body in case of an applicant from non-EU country; non-applicability of international and European sanctions to the applicant; information on confidentiality and data protection; AML; fulfilment of other legal requirements for granting the access of participant. **Operational criteria:** sufficient operational capacity; functional operational risk management system; risk management of the applicant which has access through an authorised participant (if applicable); management of conflict of interest; business continuity; BIC code, LEI code, DCA account, MIC code in case of trading venue, appropriate IT tools and communication with CDCP, participation in testing of IT systems; information safety; meeting other operational requirements for granting the access of participant. **Financial criteria:** sufficient financial resources for meeting the contractual obligations; sufficient financial resources for execution of activities of a participant.

G17Q003

Are prospective participants subject to an initial review and approval process regarding compliance with eligibility requirements?

PFMI: Q.18.1.1
AGC: 19

- Yes
- No
- Not applicable

G17Q004

How do these criteria and requirements allow for fair and open access to the CSD's services, including by direct and, where relevant, indirect participants and other CSD?, based on reasonable risk-related participation requirements?

PFMI: Q.18.1.2
AGC: n/a

Most of the participation criteria set by CDCP are risk-related, transparent - are publicly available on CDCP web site (in the Rules of Operation and the Executory Decree No.3, including requirements on demonstration of participation criteria) and non-discriminatory - requirements and fees are not based on size or origin of the applicant.

G17Q005

How are the participation requirements for the CSD justified in terms of the safety and efficiency of the CSD and its role in the markets it serves, and tailored to and commensurate with the CSD's specific risks?

PFMI: Q.18.2.1
AGC: n/a

The participation criteria were set as mitigation measures in order to minimise the risks that CSD and its clients might be exposed to by the external entities - i.e. by the participants.

G17Q006

Are there participation requirements that are not risk-based but required by law or regulation? If so, what are these requirements?

PFMI: Q.18.2.2

AGC: n/a

Yes - provision of a BIC, LEI and MIC code, DCA account;

G17Q007

What governs the relationship between the CSD and the participants?

PFMI: Q.18.2.2

G17Q045
What are the CSD's policies for conducting enhanced surveillance of, or imposing additional controls on, a participant whose risk profile deteriorates?

PFMI: Q.18.3.2
AGC: n/a
A manager responsible for identification and monitoring of risks within his/her competence should identify the risks on a continuous basis and during regular assessment of participant's compliance with the participation criteria. The manager should enter any identified risk in the catalogue of risks. The catalogue of risks contains also proposed measures for mitigation of the risk exposure to the acceptable level or description of measures that are being implemented and the status of their implementation. If the manager identifies an increase of the risk level during the continuous identification and measuring the risks resulting from access of participant, he/she informs the risk manager. If at the same time the breach of the Rules of Operations is identified, it is reported to the Committee for measures and sanctions of CDCP and the committee may produce a proposal for action to be taken against participant that is submitted to the Board of Directors for decision. The same procedures apply also in case of regular assessment of compliance with the participation criteria.

G17Q046
What are the CSD's procedures for managing the suspension and orderly exit of a participant that breaches, or no longer meets, the participation requirements?

PFMI: Q.18.3.3
AGC: n/a
Suspension of access to services or exit of participant are the measures that can be imposed by CDCP in compliance with its Rules of Operations in case that any other measures imposed on participant were not fulfilled. Details of suspension of access to services are specified in the Rules of Operation, part II Article 14 and the details of withdrawal of access of participant are specified in Article 16. Both measures can be proposed by the Committee for measures and sanctions of CDCP and they must be approved by the Board of Directors. Suspension of access to services can apply to all services or part of services that participant executes pursuant to granted access and depending on the reason of suspension. Suspension of access to services can be imposed on participant for a limited period of one year. From the moment when the withdrawal of the participant's access becomes effective, the participant is obligated to settle all his obligations that resulted from provision of services to which it was granted the access. From this moment the participant is authorised to execute only the actions that lead to settlement of his obligations resulting from his position of participant or actions stipulated in the Rules of Operation. The participant has to transfer the assets of clients/owners of accounts kept with another CSD or another participant of the CSD. The participant is not authorised to process new instructions or to submit requests for services unless otherwise stipulated by the Rules of Operation.

Links (PFMI Principle 20)

G19Q001

Summary narrative for PFMI Principle 20. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P20
AGC: n/a

When creating a link with an investor CSD, CDCP conducts assessment of the requesting CSD against participation criteria and it follows the same procedure as in case of admitting the participant. CDCP grants access to its settlement system to requesting CSD if all participation criteria have been met and if the applicant does not pose any risks to CDCP and its clients that would be deemed unacceptable. In case CDCP as the investor CSD considers to create a link with an issuer CSD, CDCP first makes a due diligence of the issuer CSD that creates a basis for assessment of risks resulting from potential link for CDCP and its clients. Potential risks are assessed by the respective departments and in general they cover legal, operational and financial risks. If no unacceptable risks were identified, CDCP shall submit the application for participation in the settlement system to the issuer CSD. The link has to comply with requirements on CSD links stipulated by the CSDR regulation.

G19Q002

What process is used to identify potential sources of risk (such as, legal, credit, liquidity, custody and operational risks) arising from prospective links? How does this affect the CSD's decision whether to establish the link?

PFMI: Q.20.1.1
AGC: n/a

The head of relevant departments of CDCP assess the information and documents provided by the requesting/receiving CSD and evaluate the risks stemming from the future link based on the catalogue of risks maintained by each department. The process is ruled by the internal directive regulating the management of risks of access of participant and CSD links.

G19Q003

What links have been established with other CSD? How does the CSD identify, monitor and manage the risks arising from an established link on an ongoing basis?

PFMI: Q.20.1.2
AGC: n/a

CDCP currently has four links with investor CSDs. Risks undertaken in the links are monitored and managed according to standard procedure applicable to risk management at CDCP.

G19Q004

Please list all depositories or settlement systems to which you have an electronic link.

PFMI: Q.20.1.2
AGC: 38

None

G19Q005

How does the CSD ensure that link arrangements are designed so that it is able to remain observant of the other principles? How frequently is this analysis conducted?

PFMI: Q.20.1.3
AGC: n/a

CDCP currently maintains standard links pursuant to the Rules of Operation of CDCP and the agreement on CSD link. Applicable PFMI principles have been implemented by CSDR regulation. Compliance of rules and procedures of CDCP with legislation is monitored by the Compliance Department. Analysis of compliance is done prior to any change in the link arrangement or prior to any change of legislation. According to CSDR the link arrangements are reviewed annually.

G19Q006

In which jurisdictions has the CSD established links? What are the relevant legal frameworks supporting the established links?

PFMI: Q.20.2.1
AGC: n/a

n/a

G19Q007

How does the CSD ensure that its links have a well founded legal basis that support its design and provide it with adequate protection in all relevant jurisdictions? How does the CSD ensure that such protections are maintained over time?

PFMI: Q.20.2.2
AGC: n/a

As an issuer CSD, CDCP concludes a special agreement on link with investor CSD. The agreement is ruled by domestic legislation only.

G19Q008

What processes are in place to measure, monitor and manage credit and liquidity risks arising from any established links?

PFMI: Q.20.3.1
AGC: n/a

n/a

G19Q009

If a CSD extends credit to a linked CSD, what processes exist to ensure that credit extensions to the linked CSD are fully covered by high-quality collateral and that credit limits are appropriate?

PFMI: Q.20.3.2
AGC: n/a

n/a

G19Q010
 Are provisional transfers of securities allowed across the link? If so, what arrangements make provisional transfers necessary, and is the retransfer of these securities prohibited until the first transfer is final?
 PFMI: Q.20.4.1
 AGC: n/a
 No

G19Q011
 For any established link, how has the investor CSD determined that the rights of its participants have a high level of protection?
 PFMI: Q.20.5.1
 AGC: n/a
 Investor CSD is entitled to disclose the legal and operational terms and conditions of the link to its participants in order to allow them to assess and manage the risks involved.

G19Q012
 How frequently is reconciliation of holdings conducted by the entities holding the securities in custody?
 PFMI: Q.20.5.2
 AGC: n/a
 Daily

G19Q013
 How does the investor CSD provide a high-level of protection for the rights of its participants (including segregation and portability arrangements and asset protection provisions for omnibus accounts)?
 PFMI: Q.20.5.3
 AGC: n/a
 n/a

G19Q014
 If the CSD uses an intermediary to operate a link, what are the criteria used by the CSD to select the intermediary or intermediaries? Are these criteria risk-based?
 PFMI: Q.20.6.1
 AGC: n/a
 The CSD that submitted the application for access to CDCP can appoint only the intermediary that is already a CDCP participant. The participant is subject to the same participation criteria set by CDCP as criteria applicable to the CSD.

G19Q015
 What are the respective liabilities of the two linked CSDs and the intermediaries?
 PFMI: Q.20.6.2
 AGC: n/a
 Liabilities of linked CSD are detailed in the agreement on CSD link and the agreement with an intermediary.

G19Q016
 What processes exist to measure, monitor and manage the risks arising from use of the intermediary?
 PFMI: Q.20.6.3
 AGC: n/a
 If the CSD linked to CDCP uses an intermediary, according to CSDR the linked CSD has to manage the risks arising from such an arrangement. These processes are not disclosed in detail to CDCP.

Efficiency and effectiveness (PFMI Principle 21)

G20Q001
 Summary narrative for PFMI Principle 21. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)
 PFMI: Annex A - CSD disclosure template - IV.P21
 AGC: n/a
 CDCP structure, systems and processes are compliant with the requirements of EU and national legal regulations, relevant international standards are applied where suitable. The Internal Audit Department provides assessment and consultancy that helps to increase the added value and to improve the business activities of CDCP; it also helps CDCP to maintain the efficient control mechanisms by assessment of their effectivity and efficiency. The IA Department gives assurance on efficiency and effectiveness of management, operation and information processes and systems in relation to achievement of CDCP goals, reliability and integrity, assets protection and compliance with legal or internal regulations, it evaluates effectiveness of risk management processes. Where necessary the department proposes improvements of the processes, procedures and systems.
 All changes in processes and information systems and also implementation of new services is discussed with the participants via the User Committee, what helps CDCP to understand needs of its clients; on the other side the User Committee can propose changes to the CDCP operation systems and services. The IA Department informs the User Committee on result of the audit in certain cases: if finding relates to processes that have impact on the users of the central depository, including access of the issuers or participants to the CSD securities settlement system, and if finding can impact provision of services, incl. business continuity

G20Q002
 How does the CSD determine whether its design (including its clearing and settlement arrangement, its operating structure, its delivery systems and technologies, and its individual services and products) is taking into account the needs of its participants and the markets it serves?
 PFMI: Q.21.1.1
 AGC: n/a
 CDCP provides all main services according to the CSDR so they meet requirements and needs of the market. Also it is the right of the User Committee to submit the proposals for change. All changes in the CDCP Rules of Operation and to the IT system are presented and communicated with the User Committee (the participants). CDCP also implements new regulatory requirements and observes international standards (e.g. communications standards).

G20Q003
 How does the CSD determine whether it is meeting the requirements and needs of its participants and other users and continues to meet those requirements as they change (for example, through the use of feedback mechanisms)?
 PFMI: Q.21.1.2
 AGC: n/a
 Monitoring of regulatory requirements and participants' requirements.

G20Q004
 What are the CSD's goals and objectives as far as the effectiveness of its operations is concerned?
 PFMI: Q.21.2.1
 AGC: n/a
 To decrease risk exposure and increase the effectiveness of operations are two main goals of the new CDCP Strategy for the period 2021 - 2023. Continual increasing of the effectiveness of operations through digitization of services and implementation of new or improved services is essential.

G20Q005
 How does the CSD ensure that it has clearly defined goals and objectives that are measurable and achievable?
 PFMI: Q.21.2.2
 AGC: n/a
 By monitoring the strategy, regulatory requirements and market requirements.

G20Q006
 To what extent have the goals and objectives been achieved? What mechanisms does the CSD have to measure and assess this?

Transparency and disclosure (PFMI Principle 23)

G22Q001
Summary narrative for PFMI Principle 23. Please provide a summary narrative disclosure with sufficient detail and context, as well as any other appropriate supplementary information, to enable readers to understand the CSD's approach to or method for observing the principle. Please use the following questions as guidance for the points of focus and level of detail it is expected to convey in the disclosure. Cross references to publicly available documents should be included, where relevant, to supplement the discussion.)

PFMI: Annex A - CSD disclosure template - IV.P23
AGC: n/a

With respect to transparency and disclosure, CDCP distinguishes two types of information: information available to public, e.g. the Rules of Operation, the Scale of Fees, an Annual Report, statistics, Governance and Management System, Risk management policy, and information available to participants, i.e. the information published on the web page but protected with password. The documents governing processes, procedures, access conditions and requirements are discussed with Participants (via the User Committee) before these are approved and published. The User Committee convenes usually quarterly to discuss changes in the services and rules, the Scale of Fees, changes in the market or legislation influencing operation of the CSD. CDCP offers training to Participants, that helps them to understand the information systems and thus mitigate the risks related to use of the CSD services.

G22Q002
What documents comprise the CSD's rules and procedures? How are these documents disclosed to participants?

PFMI: Q.23.1.1
AGC: n/a

The CDCP Rules of Operation including the Executory Decrees and, in case of some services, also the general terms and conditions are publicly available on the CDCP website.

G22Q003
How does the CSD determine that its rules and procedures are clear and comprehensive?

PFMI: Q.23.1.2
AGC: n/a

CDCP takes into account the legal regulations, regulatory requirements and market requirements so that its rules and procedures can fully address all CDCP activities.

G22Q004
What information do the CSD's rules and procedures contain on the procedures it will follow in non-routine, though foreseeable, events?

PFMI: Q.23.1.3
AGC: n/a

CDCP Rules of Operation contain information on procedures mainly in the following events: failure of a participant, participant in crisis situation, withdrawal of access of participant, T2S operations recovery. More detailed information is provided in the Executory Decree No.1.: Communication of the Participant and other Market Infrastructure with IS CDCP and the Executory Decree No.2: Procedure details in provision of services during the operational failure of a person with granted access.

G22Q005
How and to whom does the CSD disclose the processes it follows for changing its rules and procedures?

PFMI: Q.23.1.4
AGC: n/a

CDCP Rules of Operation are always discussed with the User Committee before approval of relevant changes and updated version is disclosed 15 days before coming into effect.

G22Q006
How does the CSD disclose relevant rules and key procedures to the public?

PFMI: Q.23.1.5
AGC: n/a

By publishing them on the CDCP web site.

G22Q007
What documents comprise information about the system's design and operations? How and to whom does the CSD disclose the system's design and operations?

PFMI: Q.23.2.1
AGC: n/a

The elementary rules for operating the settlement system are included in the CDCP Rules of Operation. CDCP also provides the participants with relevant manuals regarding the system's design and operation.

G22Q008
How and to whom does the CSD disclose the degree of discretion it can exercise over key decisions that directly affect the operation of the system?

PFMI: Q.23.2.2
AGC: n/a

Major changes in the IT system, the Rules of Operation or the Scale of Fees are discussed with Participants (in the User Committee)

G22Q009
What information does the CSD provide to its participants about their rights, obligations and risks incurred through participation in the CSD?

PFMI: Q.23.2.3
AGC: n/a

This information is provided in the Rules of Operation of CDCP as well as in the agreement between the participant and CDCP.

G22Q010
How does the CSD facilitate its participants' understanding of the CSD's rules, procedures and the risks associated with participating?

PFMI: Q.23.3.1
AGC: n/a

CDCP provides training to participants that facilitates understanding of the documents.

G22Q011
Is there evidence that the means described above enable participants' understanding of the CSD's rules, procedures and the risks they face from participating in the CSD?

PFMI: Q.23.3.2
AGC: n/a

n/a

G22Q012
 In the event that the CSD identifies a participant whose behaviour demonstrates a lack of understanding of the CSD's rules, procedures and the risks of participation, what remedial actions are taken by the CSD?
 PFMI: Q.23.3.3
 AGC: n/a
 In the event that the conduct of participant does not constitute a serious violation that is addressed by application of measures and sanctions, CDCP may notify the participant of its insufficiencies.

G22Q013
 Does the CSD publicly disclose its fees at the level of its individual services and policies on any available discounts? How is this information disclosed?
 PFMI: Q.23.4.1
 AGC: n/a
 Yes, all fees of individual services are specified in the Scale of Fees published on the web site.

G22Q014
 How does the CSD notify participants and the public, on a timely basis, of changes to services and fees?
 PFMI: Q.23.4.2
 AGC: n/a
 In the event of change in fees the updated draft version of the Scale of Fees is discussed with participants prior to its approval and final version is published on the CDCP website 15 days before coming into effect.

G22Q015
 Does the CSD provide a description of its priced services? Do these descriptions allow for comparison across similar CSD??
 PFMI: Q.23.4.3
 AGC: n/a
 The Scale of Fees distinguishes individual services and a fee is allocated to each service.

G22Q016
 Does the CSD disclose information on its technology and communication procedures, or any other factors that affect the costs of operating the CSD?
 PFMI: Q.23.4.4
 AGC: n/a
 The description of technology and communication system is included in the *Executory Decree No.1 on Communication of Participant and Other Market Infrastructure with IS CDCP* that creates the part of the CDCP Rules of Operation. This document is publicly available on the CDCP website.

G22Q017
 When did the CSD last complete the PFMI Disclosure framework for financial market infrastructures? How frequently is it updated? Is it updated following material changes to the CSD and its environment and, at a minimum, every two years?
 PFMI: Q.23.5.1
 AGC: n/a
 The WFC Disclosure form was completed for the last time in November 2021 - AGC and PFMI part. It is updated annually.

G22Q018
 What quantitative information does the CSD disclose to the public? How often is this information updated?
 PFMI: Q.23.5.2
 AGC: n/a
 the Statistics (Monthly and Annual), Annual Report and Key Performance Indicators (KPIs). Report on KPIs is published monthly.

G22Q019
 What other information does the CSD disclose to the public?
 PFMI: Q.23.5.3
 AGC: n/a
 In accordance with the requirements of the CSDR Regulation, CDCP discloses documents such as the Rules on Operation, Scale of Fees, Business terms and conditions, Complaints Procedures, Conflict of interest, Note on Segregation of Assets, Risk Management Policy, AML Policy and other documents; some of these are published in the password protected area of the website intended only for participants to access.

The T + 2 cycle is used (applied to trades concluded at trading venues, resp. If so agreed between the parties in transactions concluded outside of a trading venue).

G24Q003

Securities lending and borrowing (or repurchase agreements and other economically equivalent transactions) should be encouraged as a method for expediting the settlement of securities transactions. Barriers that inhibit the practice of lending securities for this purpose should be removed.

PFMI: 5 - Securities lending
AGC: n/a

CDCP does not provide Securities lending/borrowing service.

G24Q004
 Securities should be immobilised or dematerialised and transferred by book entry in CSDs to the greatest extent possible.
 PFMI: 6 - Central securities depositories (CSDs)
 AGC: n/a

All securities registered and held in CDCP are in dematerialised form and it is stipulated by law that all book-entry securities are settled in the securities central depository.

G24Q005
 Entities holding securities in custody should employ accounting practices and safekeeping procedures that fully protect customers' securities. It is essential that customers' securities be protected against the claims of a custodian's creditors.
 PFMI: 12 - Protection of customers' securities
 AGC: n/a

CDCP keeps registry of data on securities and accounts which make possible to each participant to segregate securities of the participant from securities of clients of the participant, from securities of other participant and from securities in ownership of CDCP. In compliance with article 38 of CSDR, CDCP is providing to the participants options to select and use omnibus client segregation and individual client segregation. In case of individual client segregation special condition of membership granted to the participant must be fulfilled.
